Entered as second-class matter May 17, 1920, at the post office at Roseburg, Oregon, under the Act of March 2, 1879.

Roseburg, Ore., November 24, 1920.

THE LANDING OF THE PILGRIM FATHERS.

The breaking waves dash'd high
On a stern and rock-bound coast,
And the woods, against a stormy sky,
Their giant branches tossed.

And the heavy night hung dark
The hills and waters o'er,
When a band of exiles moor'd their bark
On the wild New England shore.

Not as the conqueror comes,
They, the true-hearted, came,
Not with the roll of stirring drums,
Nor the trumpet that sings of fame;

Not as the flying come,
In silence and in fear—
They shook the depths of the desert's gloom
With their hymns of lofty cheer.

Amidst the storm they sang,
And the stars heard and the sea,
And the sounding aisles of the dim woods rang,
To the anthem of the free!

The ocean-eagle soar'd
From his nest by the white wave's foam,
And the rocking pines of the forest roar'd—
This was their welcome home!

There were men with hoary hair
Amidst that pilgrim band,
Why had they come to winter there
Away from their childhood's land?

There was woman's fearless eye,
Froned, glass in hand, that scan'd
The wolds, the woods, the wide sea,
And all their own untried land.

NO PAPER THANKSGIVING.

Following a long established custom, there will be no issue of the News-Review on Thursday, November 25th.

Lit by her deep love's truth;
There was manhood's brow, serenely high,
And the fiery heart of youth.

What sought they thus far?
Bright jewels of the mine?
The wealth of seas, the spoils of war?
They sought a faith's pure shrine!

Aye, call it holy ground,
The soil where first they trod!
They have left unstain'd what there they found—
Freedom to worship God!

—HEMAN.

EARLY PLOWING BEST.

Six and a half bushels more wheat was produced per acre at the Mars branch experiment station farms from summer fallow lands plowed April 1 than on similar land plowed June 1. The gain of April 1 over May 1 plowing was 2 1/2 bushels per acre. The gains are averages of eight years' trials. The average yield for the period is given by D. E. Stephens, superintendent, as follows: Plowed April 1, 28.7 bushels; plowed May 1, 26.2; plowed June 1, 22.2 bushels. Lands plowed early in the fall with a moldboard plow yielded practically the same as the land plowed May 1, and lands plowed late in the fall averaged the same yield as those plowed June 1. In either spring or fall plowing for summer fallow the early plowings brought higher yields.

Baltic Alfalfa Best.

Baltic alfalfa has been the best producer at the Harney branch experiment station, either on dry or irrigated tracts, both forage and seed. The six years average in rows 1 1/2 tons per acre, 4.4 tons under irrigation.

Arundel, nine miles. Phone 1891.

When The Wise Old Soothsayer

Asked the prospective bride
To gaze into the crystal ball
He knew it would produce
A reflex of her thoughts—psychological.
As a rule, the Eyes express
The soul and thoughts of a man—
Not weak, sick Eyes, but
Good, clear, crystal Eyes.
If your eyes show signs of weakness,
It would be well to consult
A competent Optometrist, who will
Eliminate the disorder and
Convert them into clear,
Sparkling fountains of expression.
