### Famous Horse Born On the Battlefield

"Born on the battlefield,"—this is Verdun, probably the most aristocratic equine in the United States, and only an army mule.

No recruit is full fledged in the 15 Field Artillery, now in Texas, until he is permitted to groom and otherwise doll up this regimental mascot-introducing to you Mlle. Verdun, a gold striped, from France.

She was foaled on April 16th, in 1918, on the red and bloody slopes her dam had finished hauling shells for Battery E, 15th Field Artillery, Second Division, she being a wheel mare in that crackerjack battery of the famous "Indian Head" division.

Mlle. Verdun first saw the light of day—or rather night—on this fateful globe of ours at 3 a. m., as the artillery fire was at its height. She scorned to die of fright, but instead, thrived and a few days later the battery marched ten miles, and the new born mascot with it—under her own power. Before she was a month old, she had hiked another thirty miles in two days, and not a major offensive did the Second Division pull off that she was not in the thick of it. For good measure she hiked a hundred miles to the Rhine, keeping watch with the Army of Occupation.

### MAYOR NOT LIGHTLY CHOSEN

Chief Executive of City of London is Called Upon to Fulfill Many Requirements.

Sir William Treloar, in his recently published book, "A Lord Mayor's Diary," points out that the chief magistrate of the city of London is chosen in quite a different manner from that adopted by any other municipality in the kingdom, remarks London Answers.

Instead of being elected by the members of the corporation, or council, who may, and often do, for political party reasons, choose someone who has never done suit or services to the town, London's lord mayor can be chosen only from those who have served an apprenticeship of some years to the corporation.

He must first be elected an alderman by the ratepayers of his ward, and accepted and sworn in by the court of aldermen; then he must have served the office of sheriff, to which position he has to be elected by the liverymen, and afterward approved by the sovereign.

Then, and not till then, is he eligible to ask the liverymen to elect him as lord mayor; the court of aldermen afterward having the power to refuse him, the approval of the sovereign being also again necessary before he can take office.

### MME. CARLOS ARAMAYO

Mme. Carlos Aramayo, wife of the confidential agent of the Bolivian government in Washington, though born in Paris, was a Tuckerman, a family well known in Boston and Washington. She lived her girlhood in Bolivia, where she was married.

**New Idea for Pictures.**  
It is not often that an entirely new method of producing pictures is discovered, and an Oregon artist is attracting considerable attention with a process as pleasing as it is original. Instead of using fluid pigments of any kind, bits of colored cloth, painstakingly cut to particular shape and size of each detail of the work, are pasted upon the canvas background, which is stretched over thin board. Some of the most infinitesimal particles of fabric are shredded out to mere threads to get the desired effect, while the bulkier objects of the scene are built up in relief, says Popular Mechanics Magazine. A sharp-pointed stick serves as a brush for this curious art. The finished pictures exemplify the remarkable results attained when patience and the artistic sense are coordinated.

**Industrial Fatigue.**  
An investigation of the subject of industrial fatigue conducted in the government shops by the English government resulted in obtaining a great deal of valuable information. It has been the means in many cases of a great increase of the output, and these investigations are about to be extended generally to all British industrial establishments by a recently established industrial fatigue research board, under the department of scientific and industrial research and the medical research committee. The duties of the board will be to initiate, organize and promote, by research, grants, or otherwise, investigations in different industries with the view of finding the most favorable hours of labor, spells of work, rest pauses, etc.

**Policewomen Now Established.**  
Policewomen have become an established factor of municipal law enforcement in recent years, but motorcycle policewomen still are a novelty. London now has a squad of them, however, and they are doing very effective work, says the Popular Mechanics Magazine. The women have been members of the police force for some time, but have only recently acquired their machines.

**His Choice.**  
The ex-gob, now the father of triplets, proudly displayed his offspring to his bashful buddy.  
"What do you think of them?" he chortled.  
"Well," replied his buddy doubtfully, "if I was you I think I'd keep that one there."—The American Legion Weekly.

"How are we going to get her home?" asked many a first class private of the vet, and the vet then passed the buck to the quartermaster. An iron clad ukase had gone out that no animals were to go back to the United States from France, even if they were regimental mascots.

"Oh, very well," said the boys of Battery E. "We haven't fought in France two years for nothing." And behold, Mlle. Verdun, mysteriously missing for many a day, bloomed forth again at quarantine on this side, too late to be sent back. There a relentless veterinary officer thrust her in quarantine, but now she is free, and queen of all she surveys, at Camp Travis, Texas, where they are now recruiting the famous second unit to full strength again.

If Mlle. Verdun were the only child of a millionaire family, she could not be more groomed and manicured, petted and fed than she is. To a man the veterans of the 15th Field Artillery, down at lively San Antonio, Texas, here the only fire one hears is the safe and easy practice at the targets under summer suns in winter, have sworn to make her lines fall in the pleasantest possible places.

### Oregon Growers Meet In Roseburg

A meeting of the Oregon Growers Co-operative Association will be held in Roseburg at the Court house on Wednesday afternoon, December 1, at 1:30 o'clock.

The address of the day will be made by C. I. Lewis manager of the Organization department of the association. He will take up the general work that has been done by the Oregon Growers, what it has done for the fruit men and what it hopes to accomplish through organization and co-operation. As the meeting will be of general interest to fruit men, the invitation is extended to all, whether they are or not yet members of the association.

At all the meetings of the association it has been the custom of Mr. Lewis to not only discuss general fruit conditions and what organization means to the grower, but to also answer any questions in regard to planting, care of trees and methods associated with the Oregon Growers. Mr. Lewis was with the Oregon Agricultural college as chief of the division of horticulture for 14 years.
