Contract Called Off Too Many Children

WASHINGTON, N. C., Dec. 14.—For many years Representative Small of North Carolina has by agreement been presenting to R. C. Bland, a Carolina farmer and one of his constituents, a new suit of clothes for each additional child in his family. Having presented thirteen suits, and being recently notified to send the fourteenth, Rep. Small has informed Bland that the contract will be "off" with Mr. Small's retirement from congress on March 3.

Court Decision Means More Roads

SALEM, Dec. 15.—Figures made public today by the state highway department indicated that approximately six million dollars will be available for road construction as a result of the supreme court decision yesterday holding valid the constitutional amendment providing counties may issue bonds up to six per cent of the assessed valuation. Lane county may issue approximately two million dollars in bonds. Clackamas county will issue \$1,700,000. Union \$1,438,000. Jackson \$500,000. Yamhill \$420,000, and Crook \$22,000.

Former Ambassador Gets Appointment

WASHINGTON, Dec. 15.—Henry Morgenthau, former ambassador to Turkey, has been selected by President Wilson to act as the president's personal representative in mediating between the Armenians and the Turkish nationalists.

MICKIE SAYS

SHRINE'S MEANING NOT PLAIN

Erected to the Memory of Japanese Maid, But Its Precise Idea Hardly Apparent.
One of the pretty shrines of Japan is based on the story of a beautiful girl, and to this day occidentals can not figure out if the shrine was to perpetuate a tragedy or an honor. The story is that Yamatodake, one of the greatest warriors in the history of the country, halted for a night at the village of Shimodaira. He was weary of battle and strife, and sent out word to the village that he wished to be entertained by the prettiest girl there. Kennachiya was selected, and it is told how she spent the evening singing and dancing for the warrior. He went on his masterful way the next morning leaving the little maiden to mourn his passing, and to give birth to his child in due time.

DIDN'T GET CHIEF'S MEANING

Sailor Misunderstood, but After All, Kangaroo is as Good a Name as Any Other.
The Kangaroo received its name through the failure of white men to understand the language of the Australian bushmen. Captain Cook, discoverer of Australia, gazing shoreward one day, saw a group of natives about what seemed to be a most peculiar animal. He sent a group of men ashore to get it, and was still more amazed when told of its shape, its habit of carrying its young in a pouch and its remarkable leaping ability. He wanted the natives' name for the specimen that he intended to take back to England.

Taking Care of Indoor Plants.

To make ferns grow rapidly indoors and look fresh and green, chop a few oysters fine and mix with the soil and then water well. This may be done very fortnight. Wash the leaves of your rubber plant with a cloth wet with olive oil. This nourishes the plant and keeps the leaves dark green and velvety. Add a few drops of ammonia to a quart of lukewarm water when you water house plants. The ammonia acts as a tonic and fertilizer and makes the foliage fresher. And be careful, when real winter weather comes, not to water your plants with water too cold. Water running from a faucet in January is far too cold for tender plants. Add enough hot water to make the drink you give your plants lukewarm—as rainwater always is in summer time.

Story of the Pansy.

The centenary of the pansy was celebrated a few years ago by the English florists and the history of the flower as given at the time was as follows:
"Just one hundred years ago Lady Mary Bennett, a daughter of the earl of Tankerville, was so struck with the simple beauty of a tiny wildling violet-color that she collected some of the best plants and gave them careful cultivation. The first batch of seedlings raised by her gave such promise that systematic selection was at once instituted, and, thereafter the improvement of the genus was taken up by the leading growers. Thus to an enthusiastic amateur we are indebted for one of the most popular and beautiful of our garden flowers."

Outrage.

In Denver they tell a story of a newly rich family that became discontented with the services of their old physician, despite the fact that for many years he had kept all of them in excellent health.
"So you have decided to get a new doctor," said a caller to the lady of the house, who had confided in her friend.
"I certainly have," said the other. "The idea of his prescribing flaxseed tea and mustard plasters for people as rich as we are!"

Many Cigarettes Consumed.
In 1920 not enough cigarettes were consumed in the United States to be subjected to the internal revenue tax. Today the population of the country, male and female, is burning up 127,000,000 cigarettes every day, or 46,500,000,000 in a year. During the last ten years the consumption of cigarettes has exceeded that of cigars.
Corresponding.
"It seems to me, Maria, that we've had nothing but ham, ham, ham for breakfast all this week," remarked Mr. Brent.
"You forgot another thing we've had, Robert," replied his better half quietly. "We've had growl, growl, growl for breakfast every day, too!"—London Answers.

WASHINGTON FARMER SUFFERED TEN YEARS

Gustaf Nelson Couldn't Raise His Hand to His Head Before Taking Tanlac.—Is Feeling Fine Now, He Says.

"Anyone who wouldn't say a good word for a medicine that had done for them what Tanlac has for me would be ungrateful," said Gustaf Nelson, a farmer, who lives at Gertrude, Wash., McNeil Island, twenty miles from Tacoma.
"For the past ten years I suffered with rheumatism in my left hip and right arm all the time, and at times in different parts of my body. My hip pained me so I could hardly walk and my arm would very often hurt so badly I could not raise my hand to my head. The pains in my back were so bad I could scarcely bend over, my kidneys bothered me a great deal also, and I would have the worst sort of dizzy spells. I could get but little sleep at nights, my appetite was very poor, and I had become so weak and run down I could not do any heavy work at all.

Jeter Draws Big Crowds to Armory

The revival services at the old armory are enlarging beyond the dreams of many. People are coming from Myrtle Creek and other near by towns and people in Roseburg who have not been to church for years are coming to hear the evangelists. Last night was the largest week crowd yet. Jerry was on the job, too. Many say that he is getting better all the time. There are about 50 singers in the choir. Mrs. Jeter's trombone (slip horn) is an attractive feature of the music. One man said the other night, "I walked a mile and a half to hear her play that horn."
Mr. Jeter spoke last night on "If I could begin again." "That is the almighty shores of wrecked humanity." One simply has to hear Mr. Jeter to appreciate him. He is different. He does three things with his audience easily. He makes them laugh, weep and mad. He speaks tonight on "What Shall the End Be?"

Legion Men to Fight Blue Sunday

NEW YORK, Dec. 15.—American Legion members in all five counties of greater New York are preparing to fight the campaign for the establishment of a Blue Sunday, which they characterize as "un-American and bigoted."
United Service Post, of the Bronx, under the leadership of State Vice-Commander William F. Deegan, has taken the initiative in the opposition to the Lord's Day Alliance and its associated bodies and will send three of its lawyer members to Washington in an effort to combat the blue law lobbyists in their activities in congress.
A resolution passed at a recent meeting of the post, expresses the opinion that the blue laws "contain the seeds of prejudice and bigotry" and that they "destroy the freedom of action and the prerogative of every free American to worship God as he sees fit."

Attractive Party Given Last Night

Mrs. W. A. Glenn and Miss Grace Lloyd were joint hostesses at the home of Mrs. Glenn on Main street last night for a delightfully informal card party. The Glenn home was charming with a color scheme of yellow and white, large clusters of yellow chrysanthemums and greenery being used effectively. Several tables of "500" were made up, and late in the evening a dainty luncheon was served. Attractive yellow and white place cards were used. The guest list included Misses Emma and Grace Ueland, Misses Jane and Bess Wharton, Miss Noreen Gibson, Miss Mary Mately, Mrs. J. E. Enger, Mrs. J. I. Love, Mrs. Wm. Bell, Mrs. Fred Renner, Mrs. Helen Ford Turner, Mrs. Henry Ydette, Mrs. George Neuner and Mrs. George Wharton.

Harding Confers With Progressives

By Associated Press
MARION, Dec. 15.—President-elect Harding today turned to the progressive wing of the republican party in consultations. He met with Raymond Robbins, former progressive party leader.

A GIFT OR A CURSE.

If the person who took my kitten will replace it, she will receive a gift from me and save a curse from the feline, which are noted for their venomous stings.
CHAS. LERRY, Apple Broker.

Oregon Growers Fear Tuber Moth

SALEM, Or., Dec. 14.—That tuber moth is prevalent in many sections of California and that protective measures will be necessary to perpetuate the potato industry in Oregon was expressed by many speakers attending a meeting of etomologists from various sections of the northwest here today. The session was called by Charles A. Park, of Salem, president of the Oregon state horticultural board, and primarily had for its object the placing of a quarantine on the California product.
Testi montay jeter on f b&Nke was to the effect that the tuber moth had infested many parts of California during the last few months, and that the shipment of infected potatoes from that state into Oregon would menace the local industry. As a result of this showing some of the etomologists advised immediate action, while other thought it best to postpone the quarantine until such time as the Oregon growers were in a position to confer with representatives of the potato industry from Idaho and other states, and that the shipment of infected potatoes from that state into Oregon would menace the local industry. As a result of this showing some of the etomologists advised immediate action, while other but that stringent measures should be adopted, if necessary, to protect the Oregon industry. He said he had been told that the growers of this state did not intend to throw down the law and allow the importations of a pest infested with disease. He said that action would be unfair to growers as well as dealers, and that it would curtail the production and thereby increase prices.
