

# MAZOLA

**MAZOLA-COOKED** foods are more easily digested—because it is a vegetable fat, 100% pure, and is from an edible source.

Even after frying fish or onions the same lot of Mazola can be used for frying delicate foods. Merely strain and use it over and over again.

Mazola does not absorb any of the odor or flavor of the foods fried in it, nor does it smoke up your kitchen.

Once you try Mazola you will prefer it to lard or compounds.

## Christmas Spirit In This Scenario

With the spirit of Christmas in the air we are all getting ready for the festive day in one way or another. Some are doing their Christmas shopping early and others are still making out gift lists. The press paragraphs of the nation's newspapers are also getting into action and penning witty wordings about Christmas and the holiday season. At the theater last evening we laughed at the clever quips so timely to this season, in that old film of ours "Topics of the Day." This reel of humor goes Santa Claus several better, because it "hands out" joy and laughter throughout the 365 days of the year. It assures movie patrons of a Happy New Year. Perusing the pages of publications, the News-Review finds various timely paragraphs akin to Christmas time. So—Let's take a shopping trip with the newspaper paragraphs. We start down the main street on our Christmas shopping tour and there's—The chestnut roaster's whistle at the corner, tells you that the worms are done.—New York Evening Mail, and a little later, we smile on hearing this—

Old lady, after waiting in a confectionery store for ten minutes, growing impatient: "Here, young lady, who waits on the nuts?"—Everybody's Magazine.

One local store has a number of Christmas cards all decorated with fringe and finger marks.—North Adams (Mass.) Herald.

and near the ladies' glove counter you nudge your nearest companion on hearing this—

Husband: "Come along! Keeping me here standing like a fool!"  
Wife: "Do be reasonable, dear. Can I really help the way you stand?"—Albany (N. Y.) Argus.

and as we pass the post office someone declares that—

Santa Claus gets credit for a great deal of faithful work that in reality is done by the letter carrier.—Washington Star.

passing the apartment house on that prominent corner, someone comments—

Santa Claus won't be able to visit apartment houses this Christmas. They have rented the chimneys.—Los Angeles II.

and you retort that—

Due to the lack of coal, Santa Claus can come down the chimney without sooting his whiskers this Christmas.—Rutgers.

then we hear this conversation on passing a neighbor's door—

Lady: "Are you the same man who ate my mince pie last week?"  
Tramp: "No, mum, I'll never be the same man again."—Albany (N. Y.) Argus.

reaching home and feeling rather chilly we and our companions realize that—

Along about Christmas time the ma nwith a quart of "the old stuff"

will have no difficulty in swapping it for a corner lot.—Los Angeles II. and after quenching our thirst, the furnace man puts in an appearance, whereupon you remark—  
"Rastus, which do you prefer for a Christmas present, a ton of coal or a gallon of whiskey?"—"Boss, Ah burns wood."—New Haven Courier-Journal.

## Single Taxers Still Persist

SALEM, Dec. 14.—Apparently untouched by the defeat administered to their pet measure at the November election the single taxers are back again already with another proposed constitutional amendment which they have asked to be submitted to the voters at the next regular election.

The text of the amendment, which was filed with the secretary of State Koser today provides that "from July 1, 1923 to and until July 1, 1927, all revenue necessary for the maintenance of state, county, municipal and district government shall be raised by tax on the value of land, irrespective of improvements in or on it, and thereafter the full rental value of land, irrespective of improvements, shall be taken in lieu of all other taxes for the maintenance of government and for such other purposes as the people may direct. All provisions of the constitution and laws of Oregon in conflict with this section are hereby abrogated and repealed insofar as they conflict herewith, and this section is self-executing."

The measure is initiated by the Oregon Single Tax league, whose officers are Arthur Brock, Portland, president; Alfred D. Cridge, Portland, vice-president; Christian N. Moak, Portland, secretary; J. H. Himmann, Portland, manager.

The vote on the single tax in the November election stood 37,283 for and 147,426 against.

## Appeal Made For Support Red Cross

"Douglas County is going far behind in her Red Cross subscription," says C. S. Heinlin, local secretary. A drive will shortly be inaugurated throughout every part of the United States for relief of those in need. In the other parts of the world, but 50 percent of all that you subscribe to the Red Cross is going to be spent for relief in Douglas County.

"The quota that we hoped to raise is the smallest which has ever been attempted, but the needs for funds and relief are just as great as they

Ragan, Box 212, Myrtle Creek, Oregon.

were last year.

"Mr. Strong, county chairman, hopes that each of the outlying districts will appropriate these funds and that those having charge of the work, will make an earnest effort to secure memberships."

A large number of the counties of the state have public health and tuberculosis nurses, and they are doing wonderful work. Douglas county is in need of this work and the funds that you give, all go towards meeting these expenses. Should a light epidemic of influenza appear here this winter, it would be difficult to render your neighbor the same assistance that we did last year.

"Let your dollar membership be an Xmas offering which can be used to care for such cases as are eligible to receive assistance from those funds."

### Sells Out Ranch—

W. A. Taylor, formerly of this city, who has been residing at Norton, Oregon, for several years, spent yesterday in Roseburg attending to business matters. He has sold his ranch at Norton and is moving to Goldendale, Wash., where he expects to make his permanent home.

Visit In Portland—Mrs. J. M. Dudge, left this morning for Portland where she expects to visit with friends and relatives for the next few weeks.

### 30,000 YOUNGSTERS VICTIMS OF RICKETS

Of all diseases that are taking a deadly toll among the children of Oregon as the result of under-feeding rickets is proving the most serious and widest-spread menace. Not less than 30,000 children are suffering from this painful affliction, according to official estimates.

To rescue these through providing proper food, clothing and medical attention that otherwise they cannot obtain the Norwegian Relief Council, composed of eight leading American relief agencies, is making a direct appeal for \$25,000,000 for the relief of 3,000,000 destitute and suffering European children.

### 1,500,000 POLISH CHILDREN SICK.

One million five hundred thousand children in Poland today need medical attention. Their condition has been caused by hunger and want. To save them the European Relief Council is appealing to the people of the United States for \$25,000,000 to carry on relief work in stricken Europe.

### OREGON GROWER NOTES.

With the rather bad weather to be expected during the next few weeks, the fruit grower can put in his time on inside work, such as sending boxes. It is also suggested that now would be a fine time to re-model dryers if necessary, rather than to wait until the busy season. It is not too late to spray with Bordeaux for anthracnose. Although rather late, better late than not at all.

Growers who have pruning, might begin now to relieve the rush of work next spring.

Good results are obtained by the application of nitrate soda on loganberries during the month of March. Some report increased diameter as well of length of cane.

Those who intend to use this fertilizer should be placing orders.

The business of the Oregon Growers Cooperative Association, has assumed such proportions that during the month of November, checks were issued for \$540,199.23 by the Association and its affiliating company the Oregon Growers Packing Corporation, according to a report of W. I. Staley, secretary and treasurer.

The good results of advertising and co-operation were shown in an address recently delivered by C. I. Lewis of the Oregon Growers Cooperative Association, before the state Horticultural society, in session at Eugene.

Four years ago, Mr. Lewis said, the peach growers of California were a discouraged lot. Many trees were grubbed out as peaches were selling for two cents a pound, below the cost of production.

The growers got together, formed a co-operative association and by judicious advertising, created a demand for certain peaches. This year the crop was sold for \$8,000,000, an average of \$340 a ton to the grower.
