Many Enjoy Xmas Dancing Party

With the strains of "Home Sweet Home" coming all too soon for the throng of eager dancers, the first annual Christmas party of the L. F. T. club closed at the armory last night as an assured success. The true Christmas spirit of jollity and mirth was given full sway and "let joy be unconfined" was taken as the watchword. For the first time the meaning of the mysterious letters, L. F. T. was divulged and proved to be "Light Fantastic Toe." Considering the fact that the club was organized for the exercise of that propensity, the name is very appropriate. S. C. Bartrum is the president of the organization, and Frank Clemens the secretary. The club will meet on the second and fourth Mondays of each month to dance to the excellent music of the Jazz-O-Four orchestra. The armory was beautifully decorated in quantities of evergreens and ferns, and there were several clever feature dances. Santa Claus was much in evidence, meeting the guests at the door as they arrived, with a small box of candy, containing one all-day-snicker, which the recipient was compelled to demolish in the old time honored way of children. A Santa Claus dance was also a feature, each guest receiving a small stocking full of goodies.

Former Residents Will be Married

Romanso Wood, local fireman on the Southern Pacific left this afternoon for Blackfoot, Idaho, where he will attend the wedding of his brother, Rufus Wood, which will take place in Blackfoot, on New Year's day. The bride is to be Miss Maud Penney, a former resident of this city. Mr. Wood is also a former resident of this city, and has resided in Blackfoot about eight months. They will make their home at that place. Mrs. Romanso Wood is at the present visiting in Blackfoot, and will return to Roseburg with her husband after the wedding.

New Class In Gymnasium Work

The Physical Education department of the Heinline-Moore Conservatory, will be reorganized, beginning next week and a new term of work started. Many new members have signed up for the spring term and new classes in advanced and beginning work will be arranged for. A new departure has been planned by Mrs. Turner, head of the department of Physical Education, and from the amount of interest already shown, its success is assured. This will be a class for married men and their wives in gymnasium work which will be held in the evening. The gymnasium work for men will be appreciated by many who recognize

its importance in keeping in good physical condition, and preventing many diseases. It is also probable that if the demand justifies that Mrs. Turner will have a class for young men who miss the opportunities afforded in other towns where they have access to a Y. M. C. A. or similar organization.

GREAT INTEREST IN LAKE

Forest Supervisor W. F. Ramsdell states that he is receiving many communications from people interested in the Diamond Lake country. He states that a great many people desire to make summer homes there, but the forest service can not give permission until the question of whether or not the Lake district is to be made a part of the Crater Lake park. If it is made a part of the Park then the forest service will have no jurisdiction and no homes will be allowed, but if it remains in the National forest, the forest service will be able to allow homesteads to be allowed built at the lake.

LECTURER IS EXPECTED
