Hacklander, of the Soldiers home in this city says the News-Review, which she receives daily, that the paper is most interesting. She states that from the picture she has formed of Roseburg from reading the News-Review, the city must be a beautiful lively place and expresses her intention of coming to the north next summer and will visit Douglas county.

TO RESUME PUBLICATION.

After having suspended the publication of the prison monthly magazine, "Lend a Hand," since last fall, due to insufficient support, the publication is to be resumed on the 20th of this month, is the announcement made today.

The publication is to be resumed under the editorship of J. P. Webb with the assurance that proper support will be accorded the prison organ. After his initial appearance on January 20, it is said, the publication will appear regularly on the 5th of every month.

CARD OF THANKS.

We are sincerely thankful to our many kind friends and neighbors for their help and sympathy during the illness and death of our beloved son and brother, Leslie.
MR. AND MRS. E. A. PETTEY AND FAMILY.

"He Sprained his Elbow patting himself on the Back"

We do not want to be accused of that. But we are mighty proud of what we have been able to accomplish for Roseburg and vicinity this past year.

Early in May we started the readjustment that we recognized as our share of the duty Business owed the public on getting back to normal conditions.

Then in June we had our clearance sale right at the beginning of the season. The season of white shoes and the lowered prices on them started at the same time here.

September saw our remarkable smash on shoe prices—who will ever forget that. Our remarkable efforts to take the "high" out of shoe prices are still fresh in your memory.

Finally—We broke the prices on Holiday Slippers.

Few concerns anywhere are as able to take advantage of falling markets as we are, and the store that did things last year will continue to do them first this year.

Our Mid-Season Clearance is now on. Shoes at a saving of one-fourth to one-half.

WHAT IS YOUR TELEPHONE SERVICE WORTH?

The Pacific Telephone and Telegraph Company has built up a telephone system in Oregon from 7027 stations in 1900 to 94,528 stations in 1920. This development was secured for the most part during a period when cost of labor and materials was normal. During these 20 years the Telephone Company has carried out its part in the building of Oregon. Its operating expenses have increased faster than its revenue—for the last five years it has been operating at an increasing deficit. This condition cannot permanently continue.

New capital cannot be obtained by public utilities at all except when rates are such as will afford reasonable assurance, with efficient management, of earnings sufficient to care for legitimate fixed charges and establish for them a basis of credit. This does not mean that rates should be such as in themselves will supply new capital, but that they be such as to justify capital investments in competition with other business ventures.

The proposed rates represent a very small increase to the individual user—

From 2 1/2 to 11 cents per day.

In the aggregate they represent a revenue to the Telephone Company sufficient to enable it to continue to serve the public, meet its payroll obligations and show a reasonable return upon a legitimate investment.

Adequate service is dependent upon adequate rates.
