Closer Relations are Sought For

(By Associated Press.)
CLEVELAND, O., Jan. 26.—The plans for a closer relationship between producers and customers and for group buying and selling will be formulated and presented to the Farmer-Labor co-operative congress for adoption, it is expected, when that body meets here February 10 to 12th.

The convention will also consider methods to prevent the exploitation of farmers and fruit growers and may devise some means for shipping products direct to the industrial centers for distribution to the consumers.

Between 1500 and 2,000 delegates representing several hundred co-operative stores, 125 labor unions, and 900,000 progressive farmers are expected to attend the convention, according to Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers and a leader in the congress.

SPECIAL STOCKHOLDERS MEETING

A special stockholders' meeting of the Umpqua Savings and Loan Association will be held at the office of the Douglas Abstract Company, 248 North Jackson street, Roseburg, Oregon, at 7:30 p. m., Monday, January 27, 1921, for the purpose of amending the Articles of Incorporation to increase the capital stock of said association to not to exceed \$500,000.00. H. O. PARFETER, Secretary.

Small Percentage Are Graduates

VALPARAISO, Ind., Jan. 26.—Thirty-six per cent of the members of congress, fifty-five per cent of the presidents of the United States, and fifty-four per cent of the vice-presidents have been college graduates, according to an announcement made by Dr. G. C. Borst, dean of education of the Valparaiso University. Dr. Borst also made the statement that there is only one per cent of the college graduates in our male population of graduate age.

"Nearly fifty-five per cent of all cabinet members, sixty-nine per cent of the justices of the supreme court, and eighty-five per cent of the chief justices have also been furnished from this one per cent," said Dr. Borst.

AUTO OWNERS ATTENTION.

If you want to be relieved from punctures and blowouts and make a saving on your tire expense, have your car equipped with Universal Tire Filler at filler station, Cor. Oak & Rose. All work guaranteed to give satisfaction.

TO SUBMIT PLANS

(By Associated Press.)
EDMONTON, Alta., Jan. 26.—A report in connection with land and water surveys carried on throughout northern Alberta the past year are to be submitted to Ottawa soon by J. S. Tempest, engineer of the reclamation branch of the federal department of the interior. Mr. Tempest will take up each of the schemes with the Ottawa authorities during the winter and when he returns to Edmonton in April it is expected that he will have full information and working plans for such projects as the government may decide to inaugurate next season.

Extensive improvements on Lesser Slave Lake, adjoining on other lands are among the schemes which the engineers report to Ottawa includes. Among the other projects now ready to proceed with and likely to be commenced next summer are the Whiteman and Ogish lake drainage schemes. Both these lakes have been surveyed and a large area of good farming land will be opened up in each case.

CARD PARTY.

The W. B. A. of the Macabees will give a Five Hundred card party Thursday evening, Jan. 27, at the Macabees hall. The public is invited to attend. Admission 25 cents. Refreshments will be served.

GIVES BLOOD TO SAVE A BUDDY'S LIFE

SAN FRANCISCO, Jan. 27.—The blood of a member of the American Legion saved the life of an ex-serviceman who lay dying from anemia in a San Francisco hospital. When physicians realized the seriousness of the veteran's condition they called on the local points of the Legion for a volunteer for blood transfusion.

G. Skiles Hoffman, of Golden Gate point, a truck star and a member of the San Francisco Legion football team, agreed to undergo the operation which required a pint of blood. Through his sacrifice, the patient's life was saved.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets in his vegetable compound mixed with olive oil in his private practice with great success.

"They do all the good that calomel does but have no bad after effects. No nausea, no griping, no injury to the tongue or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel 'bumpy' and 'heavy.' Note how they clear clouded livers and perk up the spirits. 10c and 30c a box."

WOMEN AS "PAMPERED TOYS"

Distinguished French Abbe Makes Some Sharp Commentaries on Sex Relations in America.

American women expect (very rightly) from their husbands the same attention which French husbands receive from their wives. The American husband expects nothing, and for what he receives the Lord makes him truly thankful, writes Ernest Dinet, in Harper's.

"We are pampered toys," an American lady told me in a distinctly resentful tone, "but we only know it when our husbands, after keeping every trouble from us, suddenly die."

If the abstraction called the American woman could be met with, I should ask her whether she really likes to see a dozen men in her drawing room watch her the whole evening and bob up with military precision the moment she half rises to ring the bell; whether she would not prefer her escort to think of what he is saying to her instead of concentrating on where she walks, skipping to the unprotected side of her the whole time; or whether she likes being supported across the road with infinite precautions, as if she were a very ill person or a very brittle object; or, on the contrary, firmly grasped below the shoulder and waisted to the other side with the triumphant ease of long practice.

I have kept a picture representing three exceedingly widely known American men watching a lady go down a deck stairway. She is spoken of as a sportswoman and would probably think nothing of scrambling down a rope ladder if it amused her. The steps on which she appears are broad and comfortable, but the gentlemen with guiding and supporting gestures smile at her achievement with the same wonder and delight as if she were a baby for the first time off the go-cart. Meanwhile the lady herself smiles in her furs like coy feline between two clouds.

RARE FRUITS IN PHILIPPINES

Two That Are Said to Be Delicious and Unknown in the Rest of the World.

Among the productions of the Philippine islands are two delicious fruits almost unknown in the rest of the world. One of these is the durian, whose remarkable qualities were described upon by Alfred Russel Wallace during his explorations in the Malay archipelago.

It grows on a lofty tree somewhat resembling an elm, is about as large as a coconut, has a shiny shell, and contains a creamy pulp which combines some of the flavor of a delicious custard with those of a fine cheese.

To eat durians, we are told by those who know, is a new sensation worth a voyage to the East to experience. Americans in the islands call the durian "the vegetable Limburger cheese." The other rare fruit spoken of is the mangosteen, said to be the only fruit that the governor general of the islands has never tasted. The exquisitely flavored liquid it contains cannot be preserved for shipping abroad.

Circulating the Scriptures.

The 1919 issues of the American Bible society were 3,752,300 volumes. The sun never sets on the representatives of this society, which asserts that some one is busy every hour of the day and every day of the year circulating the Scriptures. This total means that seven volumes were issued every minute of every hour of every day of the year.

The issues of 1919 were the smallest since 1911; chiefly because of after war conditions. The average of annual issues for the last ten years has been over 5,000,000 volumes. For the period of the war, 1914-1919, it was over 3,870,000, which means that on an average 11 volumes of Scriptures were issued every minute of the years of the war by the American Bible society.

New Illuminator.

Prof. Alexander Silverman has invented a new illuminator for the microscope, whose special advantage is that it gives a very strong light upon the object examined, so that opaque and translucent bodies can be as readily studied as transparent ones. The top of the object on the slide can be seen with all the variations of its surface. It is particularly valuable in testing staples of metals since it shows the presence of blow holes and pits and much detail not hitherto visible. It is likewise useful to textile experts since it shows the threads of a fabric from every angle and is also much appreciated by bacteriologists.

There's a Difference.

"I resent the implication that I am a member of the 'big brigade,'" said the pompous citizen.

"But you don't deny that you want a government job, do you?" asked Mr. Doherty.

"Certainly not. It should be the ambition of every patriot to serve his country."

"I agree with you. It should be the ambition of every patriot to serve his country—without pecuniary reward," Birmingham Age-Herald.

Strictly Business.

He—Do you believe in fortune telling?
She—Well, I don't know much about such things, but papa believes in it.
He—Is it possible?
She—Yes, he says the mercantile agencies are fairly accurate. New Haven Register.

Studebaker

THE NEW LIGHT-SIX

ORIGINAL COST

In making your original investment in this car, you receive the benefit of the manufacturing savings estimated at 20% to 25%, made possible by complete manufacture in the new modern \$20,000,000 Studebaker plants at South Bend, Indiana, because—

- (a) the price includes but **one manufacturing profit** on castings, forgings, stampings, motor, axles, transmission, frame, body, top, etc.
- (b) the amount of **overhead expenses** included in the price is very small.
- (c) **excess weight** is eliminated without sacrifice of durability or quality. The shipping weight of the car, 2500 pounds, is distributed **equally** over the four wheels.

OPERATING SAVINGS

In operating this car, you receive the benefit of the economic advantages arising from its superb design, skillful manufacture, excess safety factors, and high quality, because—

- (a) it will go from 12 to 15 thousand miles on the standard 32 x 4 cord tires.
- (b) it will go from 18 to 22 miles on a gallon of gasoline.
- (c) it will render from 8 to 10 years of satisfactory service.

Petty Thievery on Increase Is Claim

Although there are few robberies of depots, stations or other buildings used or occupied by the employees of the railroad company there is an alarming increase in the number of petty thefts from the freight cars according to Albert Stewart, special agent for the Southern Pacific company. Mr. Stewart states that instead of decreasing the annoyance in this regard seems to be increasing, due, doubtless to the fact that many men are out of employment and without funds.

These men, he says, frequent the warehouses, junking plants and other buildings near the tracks, and at night break the seals and appropriate such valuable articles as they may find in the cars. This is especially true in Medford, he says, as the packing houses there have no operation and they are situated near a railroad tracks they form a good "hang out" for transients or for the unemployed men, who cannot or will not pay for sleeping accommodations. Such conditions, Mr. Stewart says exist over the entire line and special attention is being given these crimes by the special agents.

DAVE GRIFFITH PROPERTY SOLD

The Dave Griffith property on Sheridan street, consisting of a restaurant and cabaret shop has been sold to Frank Johnson, a resident of this city. Mr. Johnson has other property interests in Roseburg, purchased as an investment. The deal was made through Rice and Tester.

AT HOME FOR FEW DAYS ONLY.

On account business interests calling me home, I am taking a short leave of absence from my optical work in Los Angeles.

Those who wish optical work done at this time may arrange an appointment during the week beginning Monday, January 27.

A. S. HUEY, Optometrist,
Phone 45-R for appointments.
RICE & RICE

Headquarters for buying or selling large or small box liberty or Victory Bonds. Also have municipal bonds and other good security to offer. Buy at home and get your bonds when you pay for them.

ALBANY ALBERICH—ALWAYS RELIABLE.

Prisoned Yak and Walrus took private "bath" on Feb. 1st (last) for \$2.00. Yak at \$10.00 per day and \$10.00 per night. Walrus at \$10.00 per day and \$10.00 per night. Also have other interesting and profitable work. Write to Albany Alberich, 1221 1/2 Ave. 1st St. North, Grants Pass, Oregon.

Place New Machine in Douglas County

CORVALLIS, Jan. 27.—A machine which is expected to revolutionize land clearing has been obtained by Professor H. D. Scudder for use on the college demonstration farm near Roseburg. It will be used for experimental work in a cost trial in land clearing.

Experiments will be worked out to determine whether smaller clearing cost results from the use of the powder with the machine or by the use of the puller alone.

The new invention is the work of an Oregon man, is manufactured in Portland, and is practically the only one of its kind to have promise of commercial success, according to college authorities. The power is supplied by a gasoline engine.

THE NATIONAL SURETY COMPANY OF NEW YORK

Are the leaders in Bond writing. They write all kinds of bonds. Bank Deposits, Burglary, Contract, Public Official, Administrator and Guardian Bonds.

See M. F. RICE, "The Bondman," Rice & Rice.

H. W. SHAW, W. G.
A. J. ORRIS, Secy.
J. B. BAILEY, Fin. Secy.

First Japanese Census Is Taken

TOKIO, Dec. 18. (Correspondence of the Associated Press).—The first census ever taken in Japan by modern methods showed that the population of the Japanese Empire number 77,066,510, while in Japan proper, exclusive of Korea, Formosa and Sakhalin, there are 55,961,140 inhabitants. These figures were announced this afternoon by the census bureau (called in Japanese official language the bureau of national power investigation).

The actual figures prove that the annual estimates which have been taken were more than a million in excess of the truth. The estimate of population for 1918, based on a compilation of the local registers, was 78,261,856, or 1,235,346 more than the census of 1920 given. For Japan proper the 1918 estimate was 57,079,956, or 1,109,796 more than the 1920 figures. The decrease for the Empire is 1.6 per cent; for Japan proper it is 1.9 per cent.

There are 124,850 more males than females in Japan proper. The males number 28,042,995 and the females 27,818,154. The total number of families in Japan proper is 11,222,053.

NOTICE TO CONTRACTORS.

Bids will be received until February 1st, 1921, for the construction of a school house at Tiller, Oregon. Blueprints and specifications may be seen at the office of O. C. Brown, County Superintendent, Roseburg, Oregon, also at the office of the News-Review, Roseburg, Oregon. Contractor to furnish all materials. All bids will be opened February 1st, 1921. All bids are to be addressed to Mrs. J. L. Roach, Clerk of School District No. 114. We reserve the right to reject any or all bids. SCHOOL BOARD OF DIST. No. 114, Tiller, Oregon, by Mrs. J. L. Roach, Clerk.
