VOL. X, No. 30

OF THE EVENING NEWS

VE-DAV WEEK GOES INTO EFFECT IN LOCAL S. P. RAILROAD SHOPS TODAY

Approximately 100 Men Will be Laid Off Over Saturday and Sunday as Result of New Plan Adopted by the Company to Reduce Expenses.

The five-day week plan for shop boys was put into effect this morning by the Southern Pacific and result almost 100 men from the car and department will be laid off Saturday and Sunday. Under this plan the payroll for the week will be reduced approximately \$1000 per week while reduction to each individual will be on an average of \$10.

Under this plan the repair track department has 41 employees and those will be given two of each week with the exception of the car inspectors, there being four of these, two remaining on job over Saturday and Sunday. The crews alternate, two men one week and two the next. The shops the change is not so drastic. Assistant Foreman stated this morning that there are at present 159 men employed in and around the roundhouse affected by the new plan. Of number between 50 and 60 will be laid off today and tomorrow, but men will work next week end and another crew of approximately same number will be laid off. Names will be rotated on the basis each man will be given an amount of working days in the month. This will give each employee a full week and a full week alternating with frequently two full weeks in succession.

At the present time the payroll for Roseburg shops and car repair department is approximately \$1000 a day. This, the railroad company says, is more than it can afford to pay and consequently it became a matter of either discharging men, cutting the wage scale, or adopting a new plan.

An unofficial manner the company employs an opportunity to choose their own method of solving the situation. It was first among the men to volunteer to go to work at frequent intervals in order to make work for all men. There were a few, however, who preferred this method and the men who had been discharged stated they would rather find other employment than to force a man out of work when he did not desire to.

Subsequently it was decided among workers that the five-day plan would solve the problem and no objection has been made to its inauguration. Although the men will feel keenly about the wages, they are making the best of the situation. They are making the best of it and receive a larger amount of wages than to their fellow workers thrown out of employment and forced to go for lack of work.

It is expected that the new plan will prevent any further reduction in working force. In the car department three more men were laid off yesterday, reducing the force to 44 to 41. This makes a cut of men since the company's policy of a force reduction went into effect the last part of last year.

The shop force it is believed has cut to a minimum, and with the

Summary of State Legislature's Work

(By Associated Press.)
ALEX., Feb. 5.—A total of 573 bills have been introduced in the legislature, 254 in the senate and 319 in the house. Thirty-eight passed both houses and are ready for the governor's approval or veto. The governor has signed 18 bills and has vetoed 18. Eighteen bills have been tabled in the senate, which is an unprecedented number. Rarely the number tabled exceeded one or four at any time during a session. Some of the bills may be left on the table.

Jimmy Darcy Wins Decision

(By Associated Press.)
PORTLAND, Feb. 5.—Jimmy Darcy, Portland middleweight, won a round decision over Eddie McGee, of Oshkosh, Wisconsin, last night. McGee was all but out in the third round when he was floored by Darcy, but he managed to stick the winning rounds. Johnny Basco, Portland welterweight, knocked out Tony Freitas, of Portland, in the second round.

all lines of confectionery work and will have all departments under expert supervision. Miss Florence Bown, who was in the employ of Mr. Frank will have full charge of the lunch department and pastries, while Mr. Bell, whose delicious home-made candies are famous, will supervise that department with the help of an experienced chocolate dipper. Mr. Bell will probably open for business on Monday. He expects to open with a complete new line of candies.

Among those from South Deer Creek who were in the city today were C. H. Bailey and Son and Dave Hunter.

The members of St. George's Episcopal Sunday School enjoyed a very delightful party at the Parish house on Friday evening. Numerous indoor games were participated in and delicious refreshments were served at a seasonable hour. Misses Katherine and Margaretta Merrill and Mrs. T. R. Allesen were the committee in charge.

CHRISTIAN SCIENCE LECTURE DELIVERED

Dr. Walton Hubbard of Los Angeles Greeted by Large Crowd Last Night.

The Liberty theater was packed to its utmost capacity last evening to listen to the lecture on Christian Science by Dr. Walton Hubbard, of Los Angeles, Cal.

The speaker of the evening was introduced by Mrs. A. J. Lilburn, who said: "Friends, the events of the past few years have changed our attitude of mind from that of cater to the material in the material things of life, to an all consuming desire to know of the higher and better things of life—the spiritual idea of existence."

"We want to know what God is. We want to know what life is. We want to know what Truth is. We want to understand the science of our own being. We want to understand the wonderful healing which Jesus taught and demonstrated. We want to know what Jesus meant when He said, 'And ye shall know the Truth and the Truth shall make you free.'"

"It is my privilege to introduce Dr. Walton Hubbard, C. S. B., of Los Angeles, California, a member of the Board of Lecturers of The Mother Church, The First Church of Christ, Scientist, of Boston, Mass., who will speak to us upon the subject of Christian Science."

Before beginning the regular lecture Dr. Hubbard explained to the audience that his coming here was upon the invitation from the First Church of Christ, Scientist, of Roseburg. The rule of Christian Science churches are to have lectures every year. These are usually arranged for during the months of July and August and so his coming at this time had nothing to do with the controversy that has been going on recently, and the speaker was unaware of the controversy when he accepted the invitation to lecture here at this time. It was stated by Dr. Hubbard that no good can come from controversies, and if those who take up the study of Christian Science are benefited by it, then Christian Science must be good. If they are made better friends and neighbors, if they have something that makes them better than they formerly were, then it is only natural that they wish to tell it to others, he said.

Therefore Christian Scientists only ask that they be known by their fruits, said Dr. Hubbard.

After giving several instances of healing which had come under his personal observation, the regular lecture of the evening followed:

Had some great material legacy been given to you and you had learned under what conditions you might appropriate it, I am sure that you would feel a great sense of happiness and expectancy. And you would be willing and eager to do all that is necessary in order that you might quickly receive that which you believed would prove so great a blessing.

There is a gift which divine Love has given you. It is greater by far than all the treasure in the storehouses of the world. It gives to you what money cannot buy, for not only does it feed and clothe you, but it brings you bodily health, and peace and joy such as you have never known. This wonderful gift is the understanding and power which comes to you when you recognize your true relationship to God, and which when applied to human conditions brings health and harmony.

PRICE IS LOWER FOR BROCCOLI

Assistant Sales Manager Returns From East After Investigating Conditions.

ALL PRICES DECLINE

Conditions in Eastern Manufacturing Centers Found to Be Much Worse Than On Coast With Many Men Out of Employment.

John H. Frazier, assistant sales manager for the Oregon Growers Cooperative Association, arrived in this city this morning from Salem and this afternoon addressed the broccoli growers of the county at a meeting at the local office of the association.

Mr. Frazier has just returned from an extensive trip through the east where he interviewed a large number of the best known fruit and produce buyers in regard to the market for Douglas county broccoli and other vegetables and fruits handled by the association.

"Before leaving I thought that conditions on the coast were bad," said Mr. Frazier, "but in the east I found things much worse than they are out here. At Detroit, where there is a population of something over one million, I found 600,000 men out of employment. Those people did not want to talk fruit or vegetables. They did not desire to talk broccoli or apples; their only topic of conversation was work."

"When I first reached New York I found the same condition. I found California oranges and lemons selling at less than the freight and packing charges, and everywhere a spirit of general depression. Before I left, however, there seemed to be a more optimistic feeling and by the time I reached Chicago I found that things there were beginning to look better and the people are beginning to feel that the financial crisis has passed and from now on things will look better. This feeling I found to be spreading west rapidly and with talks with leading produce buyers I found them generally optimistic in regard to the future."

Throughout the east Mr. Frazier stated that he found Roseburg broccoli bearing a good reputation. Last year, however, the broccoli failed to come up to expectations and it will be some time before the feeling caused by last year's losses can be overcome. Broccoli was badly injured by the severe cold weather of the preceding December and the strength was frozen out of the stalk. As a result the heads withered and turned yellow in transit and the purchasers found that a large percentage of the crop was unfit to place on the market.

This trouble was also aggravated by the shipping embargo which delayed shipments somewhat and prevented the product from arriving at its destination on time. Broccoli shipped to New York City was held at Albany, Mr. Frazier learned, and trucks were sent out from the metropolis and the broccoli removed from the cars and taken to New York City by these trucks. This, naturally did not improve the looks of the heads and many of them were bruised by the extra handling.

Mr. Frazier states that he also finds some complaint because the heads shipped from Roseburg are too large. The large heads do not stand ship-

its availability to all mankind was taught and demonstrated by Jesus the Christ, but for many centuries it has been maintained that the major portion of the reward for Christian living is to come at some future time, as if one has unlimited and immediately available funds in the bank but has been made to believe by his friends that the rules at the bank are such that he cannot use the money for many years to come. Christian Science furnishes the rule by which the power that Jesus used in accomplishing his wondrous works is made immediately available, and because its beneficent power can make over and bless every phase of our material existence it is the most important subject that can come to our consideration. The wisdom of this world has failed not only to heal from discord and sin but to heal from disease. And it will continue to fail in its treatment of disease until it is recognized that sickness is sick thought expressed on the body, and that sick thought is cast out through spiritual understanding. The wonder is that the fact that disease is mental has been hidden from the world for so long, and that human thought can continue to cling to material remedies in spite of this very apparent record of failure. That the patient must have faith in the physician in order to get results is quite generally admitted. Notwithstanding this admission, the human mind is so material in its thinking that it ignored the mental aspect of disease and continues its futile search in the material. In his daily practice the physician comes in contact with the business men.

ment as well and are usually blackened by rubbing against the crate or other heads before reaching the destination.

The buyers also demand a more uniform size in shipments, Mr. Frazier states.

In regard to the price this year Mr. Frazier predicts that Douglas county broccoli will bring an average of \$1.25 per crate. From the price of \$1.75 last year, he says, 40 per cent must be deducted for increased freight rates and at least 2 per cent to represent the natural reduction of all commodities from inflated war prices to normal conditions.

All shipments will be eastern acceptance only, according to Mr. Frazier, and no shipments will be accepted at the shipping points as the buyers will not stand for the loss in transit.

J. M. Throne, cashier of the Umpqua Valley Bank left this morning for Glendale where he will attend to business matters.

MEETINGS WILL GO ANOTHER WEEK

On Account of Great Interest Shown It Was Decided to Continue Revivals.

LUNCHEONS PLANNED

Because of Change in Program the Regular Church Services Will be Held in the City Sunday And No Union Meeting.

Owing to the fact that such interest was manifested last night, and the response to the invitation so big, Dr. Bulgin has been persuaded to remain in Roseburg another week. The ministers and workers have been urging this upon him all week but he said that he would let last night determine the matter. The crowd last night filled the tabernacle and some stood and the interest was intense, so the meeting will continue another week. As a result of this decision, regular services will be held in all the churches tomorrow morning. There will be no morning service at the tabernacle as formerly announced, but each church will conduct its own morning services as heretofore. The people are all urged to take part, and those who wish to are urged to be present and indicate their desire.

Dr. Bulgin has been under a terrific nervous strain on account of the death of his son, some three months ago, and his wife has been under the same nervous strain and has been ill some of the time. It was decided that Mrs. Bulgin should be at the meetings here. A ticket was wired for and he is in the last week of her last night. This was done to help remove some of the strain on them in being separated while in such nervous strain.

Last night Dr. Bulgin answered three important questions that came to his desk. One was on church membership, one on conscience and one on marriage and divorce. It was one of the most stormy nights but it did not dampen the ardor of the people engaged in the meeting. When it was announced that the party would remain for another week, the great audience broke into cheering that showed how the people felt in the matter.

The sermon last night was on the subject of his business, with the text, "The King's Business Requires Haste." The setting of the text was given as David's life before Saul, his life before Goliath, and his life before the Philistines. The speaker showed a man consumed himself and not God, as gave an object illustration that had powerful effect on the hearers.

Many Mourn Death of Old Resident

The body of Mrs. Mary Elinor Bond, well known resident of this city, who passed away in Astoria yesterday, will arrive in Roseburg Sunday night accompanied by her daughter, Mrs. J. A. Buchanan, with whom she has been making her home.

Mrs. Bond was 53 years of age and was born in Missouri. She came to Roseburg in 1889 with her husband, Peter Jackson Bond, who passed away in this city three years ago. For the past six months Mrs. Bond has been residing at the Buchanan home in Astoria. She has been ill for the past several years, and has been bedfast since May of last year. Three children survive, W. H. Bond, of Bend; Mrs. J. A. Buchanan, of Astoria; and Mrs. J. A. Perry, of Klamath Falls. Sixteen grandchildren and six great grandchildren also survive. Funeral services will be held Monday at 2 o'clock at the Roseburg undertaking parlors, with interment in the Masonic cemetery.

Mrs. Bond, having made Roseburg her home for many years, was a sincerely respected citizen of the community and her death will be mourned by many.

Ex-Emperor Plans to Regain Throne

(By United Press.)
GENEVA, Feb. 5.—Former Emperor Karl plans to return to Hungary in the spring "whatever the consequences may be," it was learned here today. Karl has been working for some time to regain the throne.

Russian Reds Caught in Paris

(By Associated Press.)
PARIS, Feb. 5.—Six alleged Russian communists were arrested here and more arrests are expected soon. Warrants have been issued for 21.

THEATRES WILL RETURN TO FORMER SCHEDULES

Manager Hill of the Antlers and Majestic theatres has announced that beginning Sunday, the Antlers and Majestic theatres will be returned to their former schedules, that of showing a feature film at the Antlers one night and at the Majestic the next night. This new change will be started on Sunday when the film, "The Perfect Woman," at the Antlers on Saturday will be shown at the Majestic on Sunday. The prices at the Majestic theatre will also be lowered.

Mr. Hill stated this morning that he found this plan to meet with the approval of the public and so made the change.

The members of the Christian church gave a "shower" Thursday evening at the church for Sam Thackrah and family. A car load of provisions were given. Mr. Thackrah has been seriously ill, but is now improved and will be able to be up again in a few days.

Ship Goes on the Rocks Early This Morning

(By Associated Press.)
SAN FRANCISCO, Feb. 5.—(By A. P.)—The steamer Klamath, en route to Portland from San Francisco, went aground at Fish Rock, a dangerous point about 90 miles north of here, early today.

SAFE ON ROCKS.
SAN FRANCISCO, Feb. 5.—(By U. P.)—With 19 passengers and 20 members of the crew, the steamer Klamath is believed to be safe on the rocks near Delmar. The Klamath was driven ashore during a gale which howled over the California coast throughout the night. A call was sent out early for help. The steamer Curacao answered and is standing by the wrecked steamer. The passengers and crew had apparently reached shore.

Wireless Message Received.
SAN FRANCISCO, Feb. 5.—(By A. P.)—The Klamath was a steam schooner and late reports claim that the crew totaled 25. The boat went ashore at 2:15 o'clock off Point Arena. A wireless message from Captain W. A. Hall, of the steamer Curacao, which is standing by, said that all had landed safely. The message said the ship was rolling and pounding heavily on the bluff and had run aground on the rocks. The Klamath's wireless reported a short time after she struck that Captain Jamieson thought he had a line ashore but that the wireless aerial was falling. The Curacao could not locate the Klamath until dawn. The boat went ashore in a wind of 45 miles an hour. The Klamath had been operated by the Charles R. McCormick company and is a 1923-ton vessel. The boat left San Francisco last night. Four passengers were bound for Seattle and the remainder gave Portland as their destination.

OPPOSITION SHOWN TO GAME BILL

Protection of Bear Is Objectional to Sheep Men and to the Farmers.

UTILITY BILL PASSES

Measure Providing That Contracts Between Municipalities and Corporations Must Be Held In Violate, Is Approved.

Considerable opposition to the proposed game bill, now before the senate, has been shown by Douglas county farmers, according to Senator B. L. Eddy, who is home for the week end. This bill protects bears, and provides punishment for a dog owner whose animal runs deer whether or not the owner has knowledge that the dog is engaged in this act. This would prevent many farmers in outlying districts from keeping dogs or allowing dogs to chase deer out of their orchards or away from their gardens. In protecting bear a great deal of damage would be done the farmers, especially the sheep men, Senator Eddy stated. The bill has passed the house and will be up for hearing in the senate Monday.

The utilities bill introduced by Mr. Eddy, and which provides that the public service commission shall have no jurisdiction over contracts between municipalities and corporations, has been passed by the senate and is now in the house. Senator Eddy states that he believes the bill has a fair chance for passage in the lower house. The Douglas county representatives are making a strong fight for its passage and several of the leaders in the house have announced themselves in favor of its passage.

Senator Eddy's road district boundary bill is also in the house and will probably pass. The bill provides that each municipality shall be designated as a separate road district, but that upon vote of the residents of the town it may affiliate with outside districts. The bill may be slightly amended regarding the date it is to become effective.

A bill somewhat related provides that 70 per cent of the road money raised by the municipalities shall be turned over to the city council by the county court.

Senator Eddy has introduced a bill regulating bond houses, to prevent the recurrence of a crash similar to that of the recent failure of the Morris Brothers bond house. This bill carries a great deal of interest to them state at large and will be up for third reading Monday.

Mr. Eddy has also introduced a bill, at the request of the state school superintendent, providing for the condemnation of school buildings where unsanitary conditions exist.

EGGS ON DECLINE.

PORTLAND, Feb. 5.—A decline in eggs today brought the best offer to the country shippers to 32 cents wholesale. The wholesale price on hatched eggs is 35 cents and 37 cents for select. Dealers are retailing their best stocks at 40 to 42 cents per dozen.

Mrs. Velma Kruse was visiting in the city today from Sutherlin. Henry Conn was in from Melrose today attending to business affairs. Miss Ruth Franklin, of Hiddle, is spending a few days in this city with friends.

F. O. Dixon, of the Sunshine ranch district, was in town today attending to business affairs. Deputy Sheriff Percy Webb spent today at Glendale attending to official duties. J. H. Short and family were in from the Sunshine ranch today attending to business matters.

Miss Marguerite Schloeman of Kellogg is visiting with her parents in this city for the week end. H. Butttrick, of Yoncalla, who has been attending the Bulgin meetings, returned to his home this afternoon. Miss Florence Johnson, who had been spending the day in this city, returned to Oakland this afternoon. Adrian Fisher and Roy Patrick, students at the O. A. C., are spending the week-end in this city with relatives.

The Aloha club is making plans for a big dance to be given on Feb. 21, and it is intended to make this event one of the most enjoyable of the season's dances.
