### Auditor's Certificate

We hereby certify that we have audited the balance sheet of the books of Automatic Electric Brake Company, and verified the same with the company's ledger as of the closing of the same, December 31, 1920. That the attached balance sheet is in agreement with the books and in our opinion is so drawn as to fairly and correctly show the present financial condition of the corporation as of December 31, 1920, and is true and correct to the best of our knowledge and belief.

Dated  
Portland, Oregon,  
January 25, 1921.

### Yoncalla Benefits From New Regime

That the feminine government of Yoncalla has brought about wonderful changes in the affairs of that city within the past two months is the statement of several Yoncalla citizens who visited here this week. Prior to the change in government, the "weaker sex" had made numerous complaints to the male government concerning the wretched condition of the sidewalk, which were in such a condition as to make them unfit for travel. The women decided to take a hand in the government of their "home town", and were successful in electing a complete city ticket from mayor on down the line. Immediately after they assumed their offices, the ladies started a campaign to beautify Yoncalla with the result that brand new sidewalks have now replaced the ancient ones and the streets of the city present a more civilized appearance. The improvement campaign is continuing and the women officials declare that they will not stop until Yoncalla has been entirely "cleaned up".

### BUSINESS TO BE CONTINUED.

I wish to say to our patrons and the public that I will continue the jewelry and watch-repairing business for the estate of J. T. Bryan, and hope to merit your patronage.

ANNA E. BRYAN.

### DISTRIBUTES FINE APPLES

Charlie Leery the well known and genial apple broker paid a visit to the News-Review office today and distributed some very fine Spitzenberg apples to the "hard worked" force. The fruit was more than appreciated. Charlie, who is known for his extra fancy apples and other fruits is now getting in some fine specimens for his spring trade.

### SENATOR IS LAUDED

The Portland Telegram has the following to say concerning Senator Eddy's activities at Salem during the passage of the utility bill:

"B. L. Eddy, the battling senator from Roseburg" brought his tremendous ability as a debater into play yesterday afternoon and with the support of Senators Ware and Johnson bowled over a majority report of the committee on railroads and utilities which recommended against the passage of Eddy's bill to preserve contracts between municipalities and public utilities. By a vote of 21 to 9 the minority report was substituted for the majority report and the bill is now on its way to a third reading.

### WOMAN IN HER NEW SPHERE

Writer Asserts She Has Ceased to Be Sentimental and is Armed for World's Work.

"Women no longer marry for a home and a provider," writes Frances Hodgson Burnett in McCall's.

"To begin with, woman has largely ceased to be an amateur and a sentimentalist, and she has also largely ceased to be regarded as either one or the other or both, as the natural and inescapable result of her sex. Such paid work as she undertakes to perform is not approached in the tremulous hope that incompetence and inexactness will be overlooked in a woman because a woman called upon to be self-supporting must necessarily be regarded as an unnatural and pathetic object.

"Women have begun to support themselves as a matter of decency and preference—from which has evolved the fact that they have ceased to marry merely to have 'someone to provide for them.'

"Coming into competition with men, in her search for self-support, the woman whose portion it was to retain her despairing hold upon hope by studying more to please has found it incumbent upon her to supply herself—among other working tools—with men's logic, men's restraint and men's knowledge of the necessary ignoring in the workaday world of the personal influence which is a matter of gender. Beauty and gender still exist, but they are no longer the sole working assets."

### Vessel for Submarine Research.

Details of a new submarine intended for ocean research work were given to the members of the Academy of Science by M. Lambouf, its inventor, says a Paris correspondent of the London Express. Its length is 62 feet, its diameter 7 feet 6 inches, and it has a displacement of 50 tons. It can descend to a depth of 330 feet. Its accumulators and electric motors give it a speed of six knots on the surface and nearly five knots under water. It is equipped with periscopes resembling those of the famous Nautilus created by Jules Verne. The inventor claims that the vessel can be used for various operations, such as the location of wrecks, the collection of marine specimens, soundings, the study of ocean currents, or sponge fishing. The cost of construction, which was estimated when the plans were first drawn up in 1907 at \$38,000, is now placed at \$120,000.

### She was Fat

The shadow on this picture shows you as she was before. By taking Kurein (pronounced Kureen) and following my directions of Kurein system, she reduced 25 lbs. in three months. Now she is a slim, attractive, healthy girl and a better housewife. Kurein is a safe, pleasant method, endorsed by physicians. Buy Kurein tablets at any drug store. For free brochure with many testimonials, write to Kurein Co., 100 Broadway, N.Y.C., Station K, New York.

### THE WOODS

BY DOUGLAS MALLOCH

YOU.

TO EACH of us comes a day like this one now and then. A day when all the mists of old en-wrap the soul again. Last night, a smile upon my lips, I gave myself to rest. Today awoke by ancient ill, by hurts of old, oppressed.

I know not why these shadows come these shades of vain desire. I do but know they creeping come to sit beside the fire; And earth is but an empty place, and joy has flickered out, And faith has fallen by the hand, assassin hand, of doubt.

I only ask in such an hour, when such shall come to me, I only ask in such an hour that You are there to see, I only ask in such an hour I need but stretch my hand And know that it shall feel the clasp of You, who understand.

**Copied the Clock Business.**  
Originating in a clock bought at the International exhibition at Vienna in 1873, and copied by a clever workman, Japan now has nineteen factories in Nagoya alone, producing 75 per cent of the 285,000 clocks exported last year. This export was valued at about \$700,000.

### NORMA TALMADGE

This young woman, who in private life is Mrs. Joseph Schenck, fairly ran away with the honors in a recent contest conducted by a Chicago newspaper to ascertain the most popular actress in moviedom. Miss Talmadge was born at Niagara Falls, N. Y., in 1897 and educated in the Brooklyn schools. At the age of fourteen she entered motion pictures. She now heads her own company. She is 5 feet 2 inches tall, weighs 110 pounds and has dark hair and brown eyes.

TWO, tree mont ago one my frien wot's a cop een da polleece station gotta increase for da family. Hees wife hava greata beega fat little bambino boy een da hospitaal. Dat cop geeva da coegar alla hees friens and tella every body he gotta besta baby een Uniteda State.

**How It Started**  
THE "PLUS" SIGN.  
The "plus" or sign of addition, is derived from the Latin word "et," meaning "and." Originally the word "et" was written as a capital E with a flourish across the lower extremity. This in time, as haste dictated to convenience, degenerated into a simple cross. (Copyright.)
