Landis as national arbiter of their organization to defeat the suits brought against them, was made by Representative Welty today. The congressman was before the house judiciary committee which is investigating the charges brought against Judge Landis by Welty. "His appointment was a plain attempt to block justice." said the representative. "Organized baseball named him in hope that their action would stop prosecution of the Chicago White Sox players indicted for gambling and the \$242,060 antitrust suit brought by the old federal league against the national and nounced his intention of supporting the committee's recommendations.

Without any further delay Chairman Brunn appointed Ray Clark, of the Umpqua hotel, to head one committee of business men to canvass that part of the city lying north of Cass street, and M. S. Hamm, city school superintendent, to head another delegation of livewires to call on all business houses and individuals south of Cass street, and an intensive campaign will be waged, beginning tomorrow morning at 10 o'clock, for new members, the goal having been placed at 500 Chamber of Commerce boosters.

Today was devoted to individual efforts for membership to the chamber and over a hundred membership cards were signed up, which will give the committees a good lead for their day's work tomorrow.

BERLIN, Feb. 21.—There, is a class system in Russia more rigid than in what the bolsheviki call the "capitalistic countries," and it even extends to the manner in which soap is rationed, says M. Schwartz, the San Francisco socialist who recently was released from prison in Moscow and sent with his dying wife to the Esthonian border.

"Before I went to Russia and saw the soviet government at close range, I believed Lenine and Trotzky were really trying to do away with the class system," said M. Schwartz in telling many interesting details of his sojourn in the land of the soviets, supplementing the statement which he made immediately upon his arrival here.

TOKYO, Peb. 20—A sensation has been caused by the publication in the Japan Times of a letter signed by Shiba and addressed to the minister of the interior. Shiba recently returned from Hawail, to take over the management of the Times, and make it, as he said, "the mouthplece of the Japanese people."

Alluding to the suppression of the publication of assassinations, he attacked the "absolutism" of the government and demanded freedom of the press and abandonment of the feudal policies.

"Japan is cursed the world over for its bureaucratic pelley," he said.

"A government which treats its own people as an ignorant mass will never stand; no nation that lies to the world will ever rise."
