Cure ror the Dittes (News-Review Washington Bureau.) WASHINGTON, March 15.—Ore-gon wool growers are alarmed about the possibility of an emergency tariff being sidetracked in the new con-gress which will meet early in April. The president of the Oregon Wool Growers' association has sent a tele-gram to the Oregon delegation giv-ing in detail the situation of the wool growers and saying that relief must come soon or the situation will become intolerable and many of the growers wiped out. This message was communicated to Chairman Fordney by the house members from Oregon, and Senator McNary took the matter up with Senator Penrose again, with the idea of emphasizing the absolute neces-sity for emergency protection at once, pending the revision of inter-nal taxes and the formation of a per-manent tariff.

In one of the most gruelling bas-ketball contests to be seen in this city for many years, the Roseburg high school lost its chance for the city for many years, the Roseburg high school lost its chance for the southern Oregon championship when its team was defeated by the Ash-iand hoopsters by a score of 31 to 23. The game was so exciting thiat it became necessary for the referee to call a halt until the enthusiasm of the rooters subsided, as the din made his whistle innudible. This occurred after the Roseburg team had tied the score in a rally which overcame a substantial lead gained by the visitors in the first half. The inability of the Roseburg basket lossers to convert fouls, however, lost the game, while the ability of the Ashland forward in converting free throws won the contest for the team of that city. To the conserver it appears that the Roseburg team is stale and over-irained. By spurts they played in old time form, but for a large part of the game their passing was er-
