Ten-Cent Eggs Feared Unless Tariff Applies

(News-Review Washington Bureau.)
WASHINGTON, April 22.—Eggs may sell within a few weeks for 10 cents a dozen. The United States is buried under such an avalanche of eggs as has never been in this country before and the price is bound to break to even a new low level according to the market sharks.

There are now on hand 1,883,959 cases of eggs, and every case contains thirty dozen. Multiply it for yourself and find out the size of the American omelet. The normal supply is about one-tenth of this amount, or to be exact, 207,000 cases.

Began as Experiment.
Last year at this time the stock on hand was only 121,733 cases and in 1919 there were available at this date only 319,508 cases. Much of this over load of eggs comes from China and other foreign countries.

So great is the depression that a delegation of the poultry people of Iowa are here to be heard before the finance committee on the necessity of including eggs in the emergency tariff. At Petaluma, Cal., the place where eggs were invented, and the Poultry Raisers' association of Oregon, have also protested against the further importation of Chinese eggs and want a stiff tariff on all imported eggs.

Many Imported.
The importation of eggs from the orient began as an experiment by speculators to attempt to break the market when at its high point, and the habit has grown until there is a regular trade that appears to be growing all out of proportion to the demand.

One of the astonishing things of the eggs from the orient is that they are so carefully packed that the breakage is negligible and loss is almost unheard of, while the loss to the American egg producers due to breakage aggregated last year to more than \$1,250,000.

Poultry raisers of the west say that unless a stiff tariff is put upon foreign eggs, their business will be ruined and one of the greatest industries on the Pacific coast will be demoralized.

LET ME HELP YOU GET A HOME.

I have made arrangements by which I can offer you some very desirable lots both on improved and unimproved streets and built houses to suit purchaser. Will give you long time payments at reasonable interest. If you are interested in getting a home, see me at my residence, 818 North Jackson St. Phone 388-Y. B. S. Nichols, General Contractor.

GLENDALE NEWS NOTES

It is with profound regret that we note the resignation of County Judge D. J. Stewart in consequence of failing health, and we hope that he may soon regain his usual health and always remain a resident of Douglas county. He has made a conscientious and very efficient official and alone many lines of improvements has left a lasting impression on Douglas county as a memorial of his years of service in the important office he held. And in the choice of his successor, Governor Olcott has selected one of the best qualified men in Oregon to fill the office. George K. Quine is a native of this county, descended from two lines of honorable pioneer families. His years of splendid service as sheriff gives him a knowledge of the various industries and improvements now in progress in this county. His personality is his greatest asset in his leadership among men. He is just, kind, and of high culture, and very decided in his clear perception of duty. In fact, the very man whom we need in this age of progress and improvement.

The Glendale Lumber company is to commence operation on May 1st. Other milling companies are getting ready to work also, and the Lysul-Lawson is doing advance work.

F. C. Ladd, after 20 years of business in this city is now seeking "greener" fields. No business man who has ever left our city can command a higher standard of respect than Mr. Ladd. He has ever held a "square deal" stand in this city and his place will be hard to fill. We do not know where he will locate, but any place he may select will be the gain for his being there. And, to the Ladd family, our city and valley all tender our best wishes for future prosperity.

Mr. and Mrs. F. H. Morgan, after 19 years are in line to leave our city. We sincerely hope they will not go, for we will miss them all, especially in school and church circles.

Mrs. W. C. Levens is at home again after a short hospital experience, and is much improved in health. Miss Edna Jones who has spent some months at Portland at a business college and who has taken an advanced course in voice culture, was on last Sunday the soloist at Olivet Church, and we were all delighted to listen to her beautiful singing. Miss Jones is a native of this city.

John Patron of the Singer Sewing Machine company was a city visitor yesterday. He reports business very good, with three sales in the forenoon and collections good. He has warehouses at Roseburg at 127 Jackson street, and also his office there. A shipment of the newer and latest machines have just been received and hemstitching will be a feature of the new machines. Victrolas will also be on sale. Three of the newer machines will be sent to their representatives here next week.

Miss Jack Plotner, who has been spending the winter in California, will arrive home early in May, and we all will very much pleased to see her.

Improvements are in order all over our city. The editor of the News is responsible for a timely hint on this line and commenced by improving his own pretty residence on Willis avenue.

Chief of police Umphlette and Deputy Sheriff Kafer seem to be

keeping peace and property in our city, and are very efficient officers. Attorney O. S. Brown is always busy and we think he is always right. Our post office is our greatest possession it is always right and one of the busiest places in town. Our postmaster and his deputy, Miss Beulah Morely smilingly hand us our mail and if the letter "we long for" never comes, we never seem to mind it. X X

Thought Man Was Crazy

"I have suffered from stomach and liver trouble for years; the last two years people have been calling me crazy. The doctors could not do anything for me. The awful bloating of gas seemed to press against my brain and I could not think clearly. Three months ago a friend advised taking May's Wonderful Remedy, and it has worked wonders in my case. All my bloating and suffering is gone, and I feel as though newly born." It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach liver and intestinal ailments including appendicitis. One dose will convince or money refunded. Druggists everywhere.

More Than Two Years En Route.

In June, 1918, some Canadian soldiers, crossing the Atlantic to join the forces in Europe, threw overboard in mid-ocean a sealed bottle with a note inside to the effect that they were on their way to the war and asking the finder of the bottle to forward the note to the Toronto Sunday World. The bottle has just been washed ashore at St. Ives in Cornwall and the request been carried out. What would be interesting to know would be where the bottle has been during the last two years and a half, and what is the drift that brings so much dross and jetsam into the harbor of the little fishing town on the Atlantic. There are many theories, one of which credits the Gulf stream with a memory for the old smuggling days and an intention, in the case of the Canadians' bottle, to show awareness of these good new days which find fresh uses for things of unlovely repute.

Ideal Lighting.

According to an illuminating engineer, what is wanted today in home illumination is the sort of good lighting that is found on the shady side of a tree on a sunny afternoon. Substitute for the sun a new 100-watt lamp, for the sky the creamy ceiling of a living room and for the tree an opalescent disk or bowl from the ceiling you now get a soft radiance which floods the entire room as though it were opened to the sky; from the diffusing disk you get a generous addition of light directly beneath having the quality of filtered sunlight. You have approximated the charming effect of mellow radiance that was apparent under the tree.

Some FACTS About

Ford
THE UNIVERSAL CAR

Here are authentic figures from the Ford factory at Detroit. They show you just how many Ford cars and trucks have been built each month since January 1, 1921, and how many have been sold to retail customers, in the United States.

	Produced	Delivered to Retail Customers
JANUARY	29,883	57,208
FEBRUARY	35,305	63,603
MARCH	61,886	87,221

Total Production 127,074 Total Retail Sales 208,032

showing that actual sales for the first three months of 1921 exceeded production by 80,958 Ford cars and trucks!

April requisitions already specify 107,719 additional cars and trucks and the estimated April output of the factory and assembly plants combined calls for only 90,000!

These facts clearly show that the demand for Ford products is growing much faster than manufacturing facilities to produce and were it not for the dealers' limited stocks, which are now being rapidly depleted, many more customers would have been compelled to wait for their cars. It will be only a matter of weeks, therefore, until a big surplus of orders will prevent anything like prompt deliveries.

If you would be sure of having your Ford car or truck when you want it, you should place your order now. Don't delay. Phone us or drop us a card.
