CHILDREN'S WEEK.

Beginning yesterday and continuing to and including next sunday, the churches of the nation will give way to encouraging a closer relationability between our boys and garls and the Sunday schools of every community throughout the United States.

Here in Roseburg definite plans have been shaped and will be put into action to encourage these young sters who are neglecting the vital opportunity of gaining a religious deducation, to align themselves with the spiritual development of this community. Fathers and mothers will be asked to co-operate for without this support it would be almost useless to endeavor to encourage a child to become a regular attendant at Sunday school. Therefore, this week set aside for the little folks, is of paramount importance to every father and mother in Roseburg. Through their individual efforts and working in harmony with the Sunday schools, a great good can be accompilished in the way of established. day schools, a great good can be ac-complished in the way of establish-ing a better citizenship.

their prohibition enforcement officers \$7 per day and all expenses.
Down here in Douglas county most of the law-enforcing officials get about half that sum, with a mighty small allowance for any additional expense, but seem to be "delivering the goods" just about as well as the average novice at \$7 per. However, a good business head coupled with the right sort of judicial sense don't seem to count for much in these days of high coat of living—when the taxpayers foot the bill—and the frisky bot-llogger requires a special cotterie of incompetents to run him down.

As a final climax the job printers House to house are going out on a strike. Probably heard about those law-enforcement officials at Salam drawing down seven dollars a day and expenses. No job printer need ever aspire to such lucrative position. Takes a "pull" to land these jobs. Any way, what does the average printer know about beeze hounds? A whole lot.

It will soon be circus time in Rose burg. Put on your colored goggles. You night see something out of the ordinary with the naked eye.

With the primary election far in the distance, there are already underground rumblings that denote a lively campaign.

The present showers are just what the agricultural districts need— otherwise we would not have them.

DEFENDS MILK PRICES.

Mr. Editor: Mr. Editor:
As the largest milk producers in this locality we naturally are somewhat interested in the article which appeared in your exteemed paper recently dealing with the prices of

parison with the local article which is handed to the consuming public containing the exact amount of butterfat as produced, whereas the cheap grades of milk in large centers such as Portland are processed in such a manner that a certain amount of butterfat is removed, leaving just enough in that the milk will conform with the state pure food laws.

Third, this locality is not a natural addring country, and feed costs more here than it does in Portland. Furthermore, the correspondent is wasting his ammunition and energy in directing the game at "the local combine" as he calls it, as there "haint" no such animal in these parts, but insicad Roseburg is formunately having its main milk supply distributed by a party who takes their occupation to heart and knows their responsibility and lives up to the state of Nevada during the latter part of next month is engaging the containing the exact amount of butterfat is removed, leaving just end of the estimate made, and the latter of the proposed look den on July 2 to 4.
