Baby Camel One

Of Barnes Show's

Greatest Features

One of the most valued possessions of the A. I. G. Barnes big 4-ring wild animal circus which comes to Roseburg on Thursday, May 5, is a baby camel, the only one of its kind in this country.

The camel was ushered into this world in the Pacific ocean on board a ship which brought to the United States the first consignment of wild animals to arrive since the World War ended, years ago. All these animals were obtained by trainers sent to Africa by Mr. Barnes as soon as the armistice was signed.

The young camel is described as being so ugly that it is really attractive looking. Like a calf it is built on lines striking for their clumsiness, the legs and ears being predominant. Mr. Barnes has not as yet named his newest find, and hundreds of suggestions have been received in the few days that have elapsed since its arrival in this country, so that it should not be difficult for him to decide upon a proper appellation.

Camels and elephants born in captivity rarely live over a year or two, but Mr. Barnes has hopes that his unexpected addition to the camel section of his menagerie will shatter traditions in this respect.

The baby camel takes naturally to the circus parade, according to word received from the show, but causes its mother many moments of worry by insisting upon taking its own sweet time in covering the route, being as frequently a block or two behind the camellions as ahead of them. The baby camel will be seen in the Barnes circus parade here on next Thursday, and also in the menagerie of the circus.

NUMBER IS CHANGED.

The high school number on Mount Nebo underwent another change yesterday, the numerals '22' replacing the old '21'. For years the high school classes have fought over the numerals, each class making an effort to keep its numbers in prominence.

"Tom Players" Well Known Expression

"Tom players" is an expression peculiar to the theatrical world. The public is not familiar with it. It is applied to a select class of actors and actresses—men and women who have grown up in the business playing the various roles in that classic of the American stage, "Uncle Tom's Cabin." They seldom venture into other fields of stage endeavor. Therefore, they are specialists. Hoxie Green, who is the producer of Stetson's "Uncle Tom's Cabin" production which will play at the Antler's theater on Monday night, May 2. Therefore, found no difficulty in obtaining trained and experienced people to make up his company when he decided to revive the old favorite for the present tour. The production coming here has been carefully built to give a faithful and creditable revival of "Uncle Tom's Cabin." It contains all the "trimmings"—A band of colored entertainers who lend realism to the plantation scenes, and please with their songs and shuffle dancing; a pack of Cuban bloodhounds; realistic settings for the big scenes, and everything in fact, that goes to make such a play a success, including up-to-date specialties. It has been enthusiastically received in other cities, both by the old-timers who cut their teeth theatrically speaking, on it, and the younger generation that has heard so much about it and have read the book, but in many cases have never had an opportunity to see it on the stage should not miss this greatest of all plays. There will be a street parade on the day of the engagement here.

THE ROADS TO GOD

All roads that lead to God, are good; What matters it, your faith or mine Both center at the goal divine Of love's eternal brotherhood.

Before the oldest book was writ, Full many a prehistoric soul, Arrived at this unchanging goal, Through changeless love that led to it.

Though branch by branch proves withered wood, The root is warm with precious wine; Then, keep your faith, and leave me mine: All roads that lead to God are good.

Fox Aids Farmer.

Besides such poultry as they capture, foxes are very fond of field mice and destroy thousands of them; in this way they are a positive benefit to the agriculturist, says the American Forestry Magazine. They also catch and eat many woodchucks—the latter standing in the utmost fear of them.

HOOD CANCELS FESTIVAL.

HOOD RIVER, Or., April 28.—Because it was feared that the proposed strawberry festival planned here for June might interfere with harvest help of the upper valley, where picking would be at its height, plans for the valley event have been canceled. C. A. Bell, appointed by the Commercial club to investigate sentiment on the proposed festival, declared this phase of the event created alarm among the upper valley folk, who expressed a fear that their transient help, attracted to the city by amusements, might not return to the berry fields.

Hood River, however, will extend an invitation to the world to visit the berry fields during the approximate six weeks of berry harvest which will begin the latter part of May.

OUR COMMUNITY

is interested in "give more thought to children." Every person who lives in a community of churches reaps directly the benefits of their Bible school training on the youth of that city. Perhaps you hadn't thought of that. Perhaps you are not especially active in Bible school work. Well it deserves your best support. We suggest next Sunday at 9:45 a. m. as the best time to start. Do it Children's Week, April 24 to May 1.

UNITED SPANISH WAR VETERANS ATTENTION.

The department commander will visit the local camp Saturday, April 30th, at 8 p. m. sharp. All members are urged to be present at armory at the above stated time.

MR. AND MRS. ADULT ROSEBURG

Do you realize that the main moral and spiritual development of the child life of our city comes from the Bible schools? You are interested in a better Roseburg. Then you owe your best support to the work of Bible schools—your presence, your talent, your money, your time, your energy. It will reward you amply and the community will also reap the benefits. Go to S. S. next Sunday and look over the work you see. If you want a man's work in a big way you'll find it there. Come Sunday at 9:45. It will challenge your best efforts and interest.
