

### Bonus Bonds to Be Sold Sept. 28

SALEM, Ore., Aug. 16.—Provision for a bond sale in order to procure the funds provided by vote of the people under the soldiers' bonus and farm and home loan was made by the world war veterans' state aid commission Tuesday at the conclusion of a ten hour session.

The initial issue will be for \$2,000,000 and bids will be opened September 28. The call for bids provides for the sale of bonds at par to the lowest bidder on interest rate, not to exceed 6 per cent. In choosing this method of selling bonds the commission expects to get the advantage of later prevailing prices and get the lowest possible interest rate.

#### Rapid Progress Made.

Rapid progress in laying the foundation for bonus administration made possible the action taken today. The forms of application for loans of all kinds had previously been worked out and approved and the method of organization and administration agreed upon.

While no official statement was made by the commission it was learned from a well informed source that the commission plans to put out the detailed application forms within the next two weeks and then begin the active work of establishing eligibility of applicants on an aggressive scale so that a large number of disbursements can be made when the money is received from the sale of bonds.

Indications now are that the payments will be made in a large number of cases by Thanksgiving day. Adoption of the basic rules and regulations occupied most of the time of the commission Tuesday. Forty sections were adopted unanimously amplifying the law and establishing vital decisions and methods of procedure. Several of the legal points covered by the rules and regulations must await pending decisions of the attorney-general. It was learned.

#### New Jobs Deferred.

Appointment of attorneys and appraisers was deferred for a full meeting of the commission and until applications are at hand from all counties.

About 200 applications are now on file, half of them being from aspiring examiners of titles. Appraisers jobs do not appear to be so eagerly sought judging by the comparatively small number of applications, the present supply being insufficient to fill the position required by law.

It was decided that attorneys and appraisers shall not receive compensation of any character from the state and that the administration of law among the counties shall not be at public expense. Two more meetings of the committee will be held in quick succession in order to effect a number of decisions now pending. The next meeting will be on Friday of this week and the second meeting next Monday.

Tuesday's meeting was held in the offices of the commission in the United States bank building and was attended by Governor Osgood, George A. White, adjutant-general, Lyman G. Rice of Pendleton, Arthur C. Spencer of Portland and Harry C. Brumbaugh, secretary of the commission.

The gentleman, in company with his wife and Roy Stearns and wife, has just returned from a trip through California, going as far as San Diego. They report a most delightful journey which covered a period of three weeks. The trip was made by the coast route, returning the inland road, which gave them a good opportunity to visit all important points. Mr. Stearns stated that preparations are being rushed at Oakland to tap that section for oil and that a complete outfit will be installed within the next few weeks and active operations started. He is very enthusiastic over the outlook for striking oil near that city and much interest is being taken in the project.

### Four Teachers at Fullerton School

Because of the large number of pupils who are to attend school at Fullerton during the coming term, the board has decided to secure another teacher to serve there. Formerly only three teachers were employed at the Fullerton school but the rapid growth is now making a larger faculty necessary. The only alternative would have been to have sent the pupils to the Rose school and under the circumstances this was not deemed practical.
