**MILLS TO SUSPEND.**  
(By Associated Press.)  
SPOKANE, Sept. 5.—General suspension of the lumber mills of Eastern Washington and Northern Idaho has been decided upon by the Timber Products Manufacturing association. J. H. Reynolds, secretary, announced only seven companies plan to work during the winter and these will operate with reduced forces. Unfavorable conditions of the lumber market and large surplus stocks are the causes of the condition, he said.

### Fashion Fads Old As the Pyramids

CHICAGO, Sept. 2.—(A.P.)—Tobbed hair, concealed ears, short skirts and all the other fads and follies associated with modern women's styles are as old as the pyramids according to the mute story told by the mummies of both Egypt and Peru in the Field Museum.  
Wrapped in their pitched shrouds and encased in sarcophagi covered with curious paintings and hieroglyphics in colors still bright after three thousand years and more these mummies, all that was mortal of a human being of ages ago, today link the present to a civilization long since dead.

The daily center of thousands of curious eyes, for the mummies seem to hold a strange fascination for every visitor to the museum. They are silent spectators of the passing throngs, but the paintings which adorn their resting places tell more plainly than words of styles, customs and manners of a forgotten age.  
"Why, ma, they're dressed just like the girls we see on Michigan Boulevard," exclaimed an aged visitor to his wife as he gazed at the strange figures adorning the sarcophagi.

"It appears like they did not wear a bit more than they do now," the woman answered as the pair moved away.  
It is a far cry from the Nile of Cleopatra's day to the Pacific coast of Peru in South America, but mummies from both regions lying almost within reach of each other now, but in life ignorant of each other's existence, bear graphic evidence of the greatest similarity and proficiency in many arts at a time when the Norsemen were ravaging all of southern Europe and the old world had almost sunk into barbarism. Dr. J. Alden Mason, assistant curator of the Museum has prepared an outline of the known history of the Peruvian mummies.

Both wove cloths in every weave known to the modern textile artist and made in some cases, finer than are duplicated today by the best mechanical means and the most skilled artisans. Their pottery is unsurpassed even today in its type and their work in gold and copper challenges the modern craftsman. Unlike the Egyptians, the Peruvians used no process of embalming, but so dry were the sands of certain of their deserts that the dry bodies with their wrappings around them, have been preserved perfectly to this day with the objects placed around them.

Near the town of Ancon on the coast of Peru was found the greatest cemetery of these people. A great desert waste, no evidence of occupation is seen on the surface. Even when the first Spanish conqueror passed this way in 1523 every vestige of human occupation had entirely disappeared and the location of the town was quite forgotten. It was not until about 70 years ago that the first graves were discovered and for half a century they have yielded fortunes to treasure seekers who despoiled them to recover the golden ornaments left beside the bodies.

And now the mummies of both of these peoples tell of strange similarities in style, adornment, manners and industries to those of the present generation. It is a linking of the past to the present which holds a peculiar attraction for the mummies, lying in silent state, are the most popular exhibit for the thousands of visitors who daily crowd the museum.

### Apple Picking Prices Are Set

WENATCHEE, Wash., Sept. 2.—After consulting with scores of growers of north central Washington, with the idea of fairness to both the grower and laborer and keeping in mind the present economic situation, the growers' committee of the commercial club, with the aid of the farm bureau has adopted the following standard wage scale for the present apple season:  
Picking, sorting and general labor, 40 cents an hour.  
Picking by the box, 5 cents per box.  
Packing of sized and graded apples, 5 cents per box.  
Packing, graded apples from bench, 8 1/2 cents per box.  
Board to be \$1 to \$1.25 per day.  
Pennsylvania Tire Service. Ask us. Ford Garage.

### Applications For Bonus Arriving

SALEM, Sept. 3.—A few scattering applications for bonus awards were received at the office of the bonus commission this morning, the forerunners of a deluge that is expected as soon as ex-service men are all apprised of the fact that applications are now in order.  
None of the applications will be opened, however, until next Tuesday, September 6, according to Captain Harry C. Brumbaugh, secretary of the bonus commission, at which time all blanks which have been received will be dumped into a box from which they will then be drawn for numerical positions. Thereafter all blanks will be given consecutive numbers in the orders of their receipt.  
To correct any misunderstanding regarding the filing of applications for the loan to ex-service men, Captain Harry Brumbaugh issued a statement this morning pointing out that it was necessary to file two applications.

The first application establishing the eligibility of the applicant must be filed within a year and state the desire of the applicant for the loan. The second application may be filed at any time giving the character of the security on which the loan is to be made.

### County Ranks High In Road Building

Douglas county, with a proposed expenditure of \$1,100,000 for paving, is one of 245 states, counties, townships and municipalities announced within the past week as contemplating highway improvement to a grand total of \$153,745,254.  
More than \$1,000,000,000 is available for good roads and streets in the United States. This sum, large as it is, represents an increase over the highway revenues of 1914 of only about 150 per cent, while highway traffic has increased 450 per cent. There are now 2,500,000 miles of highways in the United States, of which only an approximate 100,000 miles are improved with modern pavements. When compared to sums expended for luxuries by the pleasure loving public the American highway budget does not look so impressive.

The people of this country spend \$1,000,000,000 a year for candy, \$3,500,000,000 for automobiles, \$1,000,000,000 for automobile tires, \$1,275,000,000 for gasoline, \$1,500,000,000 for carpets and rugs, \$1,950,000,000 for cigars, cigarettes, tobacco and snuff, and \$1,650,000,000 for jewelry, perfume and cosmetics. On the other hand the sums spent for roads and streets are seven times greater than those expended for water supply improvements, three times those for sewerage work and fifteen times those for bridges.

In connection with the road-building program public officials are casting about to find the types of pavement best suited to their purpose and best calculated to save money to the taxpayers and those who use the highways. It now costs from \$20,000 to \$60,000 a mile to construct modern paved highways, depending on the dimensions of the pavement, the kind of material used and the local conditions encountered such as labor costs and sub-soil conditions. Naturally the purpose of the highway officials is to get the best for the least expenditure, consistent with durability and service.

**WILL DELIVER LUMBER.**  
Maynard and Jenks of Glendale will deliver rough or dressed lumber for \$20 per 1000.

### Mexicans Carry Big Sum of Money

(By Associated Press.)  
LOS ANGELES, Sept. 2.—Patrolman Ballinger, while investigating an automobile without a registration card, picked up Augustin Antunes, 25 years of age, who said he was a Mexican custom officer at Tijuana, and Romero Breton, clerk in the same office. They had \$35,500 in United States gold coin in suitcases. Antunes said that the money was brought into the United States for safe keeping.

**REVERE TIRES & TUBES**

**Get Rid of Your Tire Trouble**

THE economy-seeking motorist can scarcely do better than put one of these Revere Tires on his car and get rid once and for all of the tire troubles that beset the average motorist.

Already there is plenty of evidence that the ideas on which Revere Tires and Tubes were created and marketed have been more than justified.

More motorists are finding out about Revere Cord and Fabric Tires every day. And the more they find out about them, the more enthusiastic they become.

We have started quite a number of motorists around here on the road economy.

Are you going to let us start you?

**S. F. CROUCH**

**UNUSUAL TOURING CONDITIONS.**  
"I am unable to account for the large number of people who are traveling to the coast this late in the season," says C. S. Helmsline, secretary of the Chamber of Commerce. The chamber has received a great many inquiries as to the conditions of the coast roads, especially the road to Coos Bay during the last few days. Several letters have also been received from the middle west, the north west, and even from California, inquiring if it were possible to go to Crater Lake by way of the Tiller cut-off, which goes to show that people in other states are interested in Oregon roads.

**NOTICE TO THE PUBLIC.**  
Notice is hereby given that any person found dumping cans or rubbish of any kind on any of the highways of this county will be prosecuted to the fullest extent of the law. Many of the roads throughout the county are becoming the dump ground for all kinds of refuse and this nuisance must be abated once.
