Entered as second-class matter May 17, 1920, at the post office at Roseburg, Oregon, under the Act of March 2, 1879.

ROSEBURG, OREGON, SEPTEMBER 22, 1921.

PROVINCE OF A NEWSPAPER.

It would be comical, were it not somewhat pathetic, the way newspaper offices are benighted every day by their friends, urging them to "read" this and that; to "see to it" that this and that is corrected; to have this and that done in the city or county; to start this and that kind of movement to correct evils in the state government. These friends actually appear to believe that it is the newspaper's business to handle all these affairs.

But a self-respecting newspaper, though ready and willing to carry all reasonable responsibility, must remind its readers that they—the people—are the authority upon which rests the responsibility for the present state of affairs, local, state and national.

A self-respecting newspaper tries to report the news of what actually happens, not what it might wish had happened. The relation of a self-respecting newspaper to the general public is not always understood. It is the duty of a newspaper to be in a position to support any good act and criticize any bad act of public policy.

This relationship cannot exist where favors are asked and granted. Honesty is the only policy for a newspaper.

If objectors don't like the way things are going, they should qualify as voters and then raise Cain about it.

THE HOME TOWN.

Speak a good word for your own town and country whenever an opportunity presents itself. More towns die for want of confidence, on the part of business men, and public spirit, than from rivalry of neighboring towns or adverse surroundings. When a man is in search of a home or business location, and goes to a town and finds everyone brimful of hope and enthusiasm over the prospects of the place, and earnestly at work to build up the town, he soon becomes imbued with the same spirit, and as a result he drives down his stakes and goes to work with the same interest. When, however, he goes to a town and everyone expresses doubt and apprehension in the future prospects of the town, he naturally feels that it is not the place for him, and at once shakes the dust from his feet, while he pulls with all possible speed for some other town. Consequently, try and make a live, enterprising, progressive town out of the one in which you live, and remember that when you are working or saying a good word for your town, you're accomplishing all the more for yourself. Then speak a good word for your town.

Just about as many old boys will be down to watch the circus trains come in tomorrow morning as there are young boys.

Circus Parades and Exhibits Here Tomorrow; Many Marvels

They're coming to town tomorrow—coming to town in tinsel and spangles, costly furs and wrinkled hides, for Sells-Floto circuses (now the second largest show on earth) rolls into Roseburg with the dawn for a matinee and evening engagement.

Hardly will the huge big top, seating 12,000 folks, have been raised on the lot, when the first handwagon will head the long parade toward downtown about 11 a. m.

There'll be lots to see in the Sells-Floto "march past." From the "blood-sweatin'emoth" to the last clown cart; from the table-top floats to the kangaroo den (with the baby kangaroos doing "Keller-mans" into their mothers' pouches); from the blaring bands to the hooting, tooting, whizzing, parade will be offered to please. Every cage

will be open, so that the crowds along the curbs may have an animated zoological treat.

And the performances will be notable in the number of well known families and troupes on the big show roster. There are "Poodies" Hainford, the greatest riding clown of all time, and the riding Hainfords; the Nelsons and the Codonas, flying return acts; the Hodolins, the Hobsons, riding acts; the Hamido Madri Arabs, the La Pearls, the Steiners, the La Fleurs, the Otawagas—sensational stage and ring features; Herta Hesson, the "Pavlova of the high wire"; the Kronka troupe, the Marinellis, the Harris, the Lindsay, the Luckys, the Hamiltons and others in novelty offerings and score of animal, aerial, riding, acrobatic and gymnastic displays, not forgetting Victoria, lovely aerial wire artist.

SHE.
 Smiles, though her heart is breaking,
 Smiles, when you say good-bye;
 Smiles, when her feet are aching,
 Smiles, when she burns a pie;
 Smiles, when you've little money,
 Smiles, when you're dead broke;
 Smiles, when there's nothing funny,
 Smiles, at your worn-out joke;
 Smiles, when her old clothes wear-
 ing,
 Smiles, when her friends wear new,
 Smiles, when you feel like swearing,
 Smiles, when the world looks blue;
 Smiles, when she's mad as a hatter,
 Smiles, when the clouds are gray;
 Smiles—when there's nothing the
 matter.
 This—is lovely woman's way!

"President favors early action on anti-beer measure," says a headline. Well, he's not the only one who's getting thirsty.

If the murder wave continues to sweep along, our local murder case will seem like a game of tiddley-winks.

SNAPPY STORIES.
 When Noah Webster was alive
 And here on earth a dweller,
 He wrote a book that did survive
 At best one best seller;
 And it's still popular—somehow
 We often hear about it,
 And hardly any person now
 Would care to be without it.

No hackneyed plot did Noah use,
 No trite nor time-worn phrases—
 The range of words that he did
 choose
 Bewilders and amazes.
 The words are there—not one erased
 One doesn't have to change them,
 To fit the story to your taste
 You merely rearrange them.

Some girls can roll their stockings
 down very neatly, while others
 would do well to take a course in the
 science.

"I always slowed up at danger points," said John F. Lacey, locomotive engineer of passenger trains on the Rock Island road, in explaining why he never had an accident during the 52 years period in which he worked at his trade. He was retired automatically last week on his 70th birthday. If men generally could learn to slow up at danger points in their lives, many smashups could be avoided.

HALL OF FAME.

"Two Gun" Hopkins—Reared in the wilds of Canyonville, spent boyhood days flaying bootleggers near the Canyonville bridge. From a toy pistol, he graduated to the six shooter variety, which he now has in his possession. Is very adept at shooting from the hip, especially at birds with something on the hip. During murder mystery case, "Two Gun" was transferred from his mountain abode to the county seat and thence dispatched to eastern Oregon where he was engaged in running down rumors until Brunfield was found plowing in Canada. Has since the capture been advanced to position of jailer and entrusted with the keys to the bastle and allowed to carry the meals to the prisoners. Is at present getting his mustache groomed and guns polished for the big trial.

Cheerfulness is catching—but don't be afraid of such an epidemic these days.

In boiling potatoes with their jackets on, you can tell the potatoes are cooked when they begin to mutton their jackets.

There was a man in our town, and he was wondrous wise; he knew a sonk who owned a quart, but told no other guys.

CAMAS VALLEY NOTES

We had a very nice rain here the first of the week. Everything looks fresh and clean now.

Mrs. E. E. Edmonds is home from the east where she has been spending two months visiting friends and relatives.

Our school is getting nicely started with Mr. Northrup as principal, Mrs. Miller, intermediate, and Miss Lichtenberger as primary teacher.

The upper school will start sometime about the first of next month with Mr. Bonebrake as teacher.

Mr. and Mrs. Wilfred Brown and family have gone to Wilbur, where Mr. Brown is employed in the school.

Choir practice will be held at the Parrott home every Wednesday. Everybody come and take part.

The road work in lower Camas was stopped for a few days by the rain, but now has been resumed again.

Silo filling seems to be the order of the day just now. The cold nights of about ten days ago damaged the corn quite badly.

J. B. Stobie is building a new barn. Mr. Stobie has a new Fordson now and will probably do a lot of farming this year.

Buick Manufacture 4 Cylinder Cars

One of the interesting developments of the present year in the motor car world was the resumption of manufacture of four-cylinder automobiles by the Buick Motor Company, one of the big factors in the industry.

Four models—roadster, five-passenger touring, coupe and sedan—are being built on the same chassis. These four-cylinder Buicks are of the same construction and along the same beautiful lines as the popular six-cylinder Buicks, which have created such a furore in motorism that there always has been a keen demand for them. In fact there has been a shortage ever since the 1922 models have been placed upon the market.

The four-cylinder models are the result of many years of painstaking effort on the part of Buick engineers.

Burchard's

Oil as Leprosy Cure.
 So successful has Dr. P. Hooper been in the Fiji islands in the treatment of leprosy with chaulmoogra oil, that he reports to the Journal of Tropical Medicine and Hygiene (London) that in the years 1918 and 1919 23 patients were discharged on parole, of whom one returned, and he now has six more apparently cured and ready for discharge.

Doctor Hooper believes that all cases of skin leprosy and some of the nodular form can be cured by intramuscular injections of chaulmoogra oil, cure or failure depending largely upon how early the treatment begins.
