FREIGHT RATES BLAMED FOR FOOD PRICES IN THE EAST

By DAVID L. BLUMENFELD. (United Press Staff Correspondent.) WASHINGTON, Oct. 4.—The problem of forcing lower food prices in the east is now being considered by experts of the Department of Agriculture. It was learned today, one cause of present high food prices in the east is high freight rates, which apparently cannot be forced to prewar levels for some time, officials said.

Fight Crop Pests With Poison Gas

WASHINGTON, Oct. 5.—(United Press.)—The Chemical Warfare Service, which devised deadly gasses for destroying men during the war, is working to produce poisons that will rid the country of the boll weevil and other pests.

The developments of war must be the implements of peace," Brigadier-General Amos A. Fries, chief of chemical warfare of the army said in announcing the coming campaign. Successful chemical drives against rodents in Cuba recently predict equal success for extermination by the same means of the boll weevil and other agencies which are seriously damaging the crops of the country.

War against all manner of destructive pests will be undertaken by the War Department of which the boll weevil is perhaps the most dangerous to agriculture, while the rodent is probably the greatest menace to cities.

At present the army is working on a request from Representative Phillip D. Swing, of Imperial Valley, California, who hopes to use poison gas to exterminate the blackbird pest in that community. He was told that the Chemical Warfare Service could make a poison that would kill some of the birds and drive off the others, but that the farmers would have to content themselves with using the crops for food and fodder alone, as the chemicals would destroy the re-seeding value of the fruit.

The Congressman pointed out that as things stand the farmer's get neither food nor seed. He was then assured that the government would undertake a new series of experiments that would protect both the grain and its re-seeding qualities.

"Fighting Aggies" Name O. A. C. Team

CORVALLIS, ORE., Oct. 5.—Students at the Oregon Agricultural College here already have nicknamed their 1921 team the "Fighting Aggies," so confident are they that the varsity this year will be in the fight all the way for the Pacific Coast Conference championship. The Aggies this season have a hard schedule, calling for eight games, including contests against the University of Washington, Stanford University, Washington State College, the University of Oregon and the University of Southern California. The local team this year will not meet the conference champions, the University of California. Last year O. A. C. held California to the blue and gold's lowest score. More than eleven varsity veterans are on the squad this year and from them, it is believed, will be built a team that will have a plunging backfield and a strong line. Leading the team will be Captain George (Gap) Powell, rated several times as an all-coast fullback.

Two strong tackles will be on the Aggie team, it is planned. One will be Hugh McKenna or Joe Kasberger at quarterback. There are several candidates for halfback, among them Charles Johnson and Stanley Summers, letter men, Clay Miller, Richard Garber and Oliver Jessup from the freshman squad of last year and Oral Hagerdorn, John Garity and Charles Winnie.

Witnesses Testify Against Woman

(By United Press.) TWIN FALLS, Idaho, Oct. 4.—Witnesses testifying against Mrs. Lydia Southard, alleged "Bluebeardess," on trial for the murder of her fourth husband, Edward Meyer, declared that Meyer was in agony most of the time before his death. They related how Mrs. Southard brought poison flypaper home and placed it in saucers with water and how Meyer died soon after. One neighbor testified that Mrs. Southard, then Mrs. Meyer, was apparently not worried during her husband's last illness. The state is attempting to prove that she killed Meyer to collect \$10,000 insurance money.

I have used them with benefit when my kidneys were out of order. I had dull backaches and felt run down and my kidneys acted irregularly. Doan's Kidney Pills from Chapman's, the Red Cross Pharmacy, soon relieved the trouble. The backaches left and I felt better in every way."

Unidentified Hero Will be Honored

(By Associated Press.) PARIS, Oct. 4.—America's unknown soldier, who will find an honored sepulchre in the Arlington national cemetery in Virginia, will be selected by a non-commissioned officer from the American forces on the Rhine at Chalons-sur-Marne, October 24th. The body will leave Havre October 25th on the cruiser Olympia. The bodies of four unidentified soldiers, who fell in actual fighting, one from each of the four prominent American cemeteries in France, will be assembled near a relay station. A non-commissioned officer selected by General Allen will then be ordered to place his hand on one of the four coffins.

Appropriation Bill to be Sidetracked

(By United Press.) WASHINGTON, Oct. 4.—The house appropriations committee has virtually decided to postpone discussion of the big army and navy appropriation bills providing funds for armament work, until after the election to be held November 11. Two reasons are given for such postponement, first, to prevent embarrassment of the administration during the arms parley and, second, because the success or failure of the disarmament conference may dictate material changes. Congress has until late in June, 1922, to pass upon the two appropriations. Senators Borah and Pomerene both believe that such suspension of armament preparations will be an excellent impression upon the world.

Cooperative Grain Societies Attacked

(By United Press.) CHICAGO, Oct. 4.—The question of the farmers co-operative grain marketing societies caused a bitter fight among delegates to the grain dealers' national association convention. Spirited debates were held among delegates on whether or not the association should exclude from membership all dealers accepting co-operative society grain at their elevators. A movement was launched to amend the by-laws to provide for the expelling of any members accepting co-operative grain.
