

Publicity Fund Is Vital Need

(By C. S. Heinline.) The Eugene Chamber of Commerce has issued a most attractive pamphlet giving in condensed and readable form information regarding the Willamette Valley. Eugene enjoys the privileges of the University and no doubt has taken a course in higher mathematics has arbitrarily raised the price of the area of our sister county from 4,612 to 75,000 square miles. It is all recognized the natural wealth of the valley to the north of us and know that they are growing and prospering but this is the concrete evidence that we have had that they have increased their total square miles from 4,612 to 75,000. There are many citizens in Roseburg and Douglas county that know the resources and possibilities of their own section of the Umpqua valley. They are living in an empire state. Douglas county has a large domain. Douglas county has large up the little state of Rhode Island and the State of Delaware and place them in one section of our state and then reaching northward to the third of Louisiana county and it over on the Pacific Coast. It still has 85 square miles and still have 85 square miles for the children of the Umpqua Valley as a public play ground. The towns to the north and south of us are growing and new people are coming in because of their wide publicity. They have means to the will of the wonders of their climate and what their soils will produce. Douglas county had a display at the state fair which showed greater diversified farming opportunities than any other county. We raise some of the best flume tokay grapes in the state and yet our display of grapes was not what it should have been nor representative of what we are now commercially producing. Descriptive booklets were available for sale for at our booth at the fair, but on account of limited space it was not possible to supply the demand. A booklet for publicity funds is given consideration if the work is to be carried on successfully. A number of boxes of choice fruit have been sold through the Chamber of Commerce windows, and growers and farmers are asked to send in a few samples of their products. For the first time exhibits from Douglas county will be shown at the Pacific International Live Stock show in Portland, November 17th to 21st and will also occupy space in the State Exhibit Building at Portland but more fruit is needed to be prepared for a permanent exhibit.

the railroad track at Charnelton street and Fourth avenue was struck by the southbound Southern Pacific train No. 52. The wagon was completely demolished, and a large number of butter-milk cans, some full and some empty, scattered about the street. The horse was unhurt. Mr. O'Levery, who sells butter-milk about town, was not unconscious and had picked himself up by the time the train was stopped and passengers and trainmen had alighted. A physician was called and the injuries treated and dressed. The injured man is said to be between 50 and 60 years old. He was not taken to a hospital. The crossing on Charnelton and Fourth is dangerous and persons crossing the track from the south side cannot see trains approaching from the north because of the position of the Mason-Erman warehouse.

New glove silk hosiery for women at the Booterie.

Many Attend Music Club

The Roseburg Music club opened for the season last evening, at the Heinline school of music. The attendance of last evening exceeded all anticipations, and eighteen new members were entered for enrollment. Mrs. Bell, re-elected president, and the new officers assumed their respective offices. The subject of selecting musical numbers for the coming season was discussed, and a final decision will be given at the next meeting. Roseburg is to have no Lyceum course this coming winter, owing to the impossibility of securing a public auditorium. It is the idea of the Music Club to get behind at least one of the big numbers, and bring it to this city, if a suitable auditorium may be found. Mr. C. S. Heinline brought up the matter of bringing outside talent into the city, and after thoroughly discussing the matter, the decision was left to the executive board. It was also decided that the dues of the Music Club, remain the same, which is one dollar a year. Following the regular business session, the Douglas County Band entertained the members of the club with a most excellent program. The concert of last evening, excelled any given by them before. The following committee, served most delicious refreshments: Mrs. Washington Hughes, chairman; assistants, Mrs. John Enger, Mrs. Vivian French; Mrs. Guy Black, Mrs. J. I. Love; Mrs. Walter Glenn; Mrs. George Kohlhaugen; Miss Frank Howell; Mr. and Mrs. V. N. Fields; Mr. and Mrs. Warren Burt; Mr. and Mrs. Stoddard.

New Roseburg "cense name plates on sale now at Ford Garage.

BREATHE IN HEALTH

That cough or cold in the head can be ended easily by Hyomel. No stomach dosing. Breathe it through the nose and mouth. Money back if it fails. W. F. Chapman.

PREST-O-LITE COMPANY GETTING SPLENDID RESULTS. Splendid results are being secured from the big newspaper advertising campaign now being conducted by the Prest-O-Lite Company in the interest of the special battery adapted for use in Fords and certain models of Chevrolet, Overland and Buicks, say officials of the Prest-O-Lite local representatives of the Prest-O-Lite Storage Battery. "Since our first advertisement appeared, announcing a special exchange price on Prest-O-Lite Batteries, we have sold more batteries than in any similar period of our history," said Mr. Stoddard, of the Roseburg Battery and Electric Station. "And this is not only our experience, but we learn from other Service Stations that they, too, are experiencing a most excellent demand for this special battery. It is indeed for this special battery, one certainly seems to be the unanimous opinion of the Prest-O-Lite Service Stations that newspaper advertising gets the business. "The idea of making a special battery adapted to so wide a range of uses was indeed a happy thought. By manufacturing these batteries in great quantities, the Prest-O-Lite Company is able to reduce the selling price of that type and score the record big cut in storage battery prices that has been made by this company within the last year. And, strange as it may seem, it is a fact that the present selling price is less than the price at which this battery was sold four years ago. "On deciding on an extensive ad-

vertising campaign on this special battery, it was only natural that the Prest-O-Lite Company should turn to the newspapers. And their wisdom is fully attested in the magnificent business that we are now doing. "It shows very clearly that the public will buy a quality product at the right price. All talk of a buyers' strike on storage batteries at least, is now ancient history. Owners of light cars throughout the country now know that they can buy a genuine Prest-O-Lite Battery. Immense for its long life and reserve power at a price that is made possible only through the production of many thousands per month. "Every car-owner who purchases one of these batteries is assured of the highest grade, longest lived and best product that money can buy. The Prest-O-Lite Company leads in the reduction of storage battery prices and has unquestionably won for itself a lasting place in the hearts of American car-owners. DO YOU WANT A GOOD CAR? Cheap? Look at these: Ford touring, \$150; Ford delivery, \$225; 1918 Maxwell, \$212.50; 83 Overland, \$300; 85 Overland and a good one, \$375; Chevrolet touring, \$400; Mitchell, \$325; 1918 Buick six, \$650; 1920 Buick, \$875. Look 'em over. If you don't buy one of these good cars at this low price, then you are not in the market. 521 N. Jackson. W. L. Douglas shoes at the Booterie.

Runaway Girl Found In Eugene EUGENE, Oct. 5.—Madge Overton, 15-year-old Albany high school girl, daughter of Mr. and Mrs. L. A. Overton, who disappeared from her home in that city last Thursday, has been located in Eugene where she was staying at the home of a friend, Mrs. C. B. Shontz, of 306 Eighth avenue west. The girl came here directly from Albany last week. She claims that her parents have been mean to her and on occasions have "beat her up," according to District Attorney Clyde N. Johnson, who has filed complaint in juvenile court declaring the girl a dependent child. The case will be heard in juvenile court this afternoon. The girl was brought to the office of J. J. Harbaugh, juvenile officer, by Mrs. Shontz several days ago, and has been placed in the custody of Mrs. Poell. It was not until today that juvenile officer Harbaugh says he received the letter from Mr. and Mrs. Overton asking him to look for the child. Mr. and Mrs. Overton came to Eugene immediately after the juvenile officer had notified them their daughter was here. According to Mr. Overton, a wide search has been made for the girl, as it was feared she had been drowned in the Willamette river. She was thought to have been in a state of melancholy when she left, taking her gymnasium suit. This led them to believe she might have

committed suicide. Mr. and Mrs. Overton formerly lived in this city, where Mr. Overton was in business. Students Forced to Clean Streets High school boys last night changed the number on Mt. Nebo to "22" and at the same time marked a big figure on the pavement at the corner of Washington and Ross streets, directly in front of the high school building. The pavement was smeared with crude oil and this morning became a regular skating rink for motorcycles and automobiles. Motorists reported the condition of the pavement to Chief of Police Shambrook who issued orders that the pavement be cleaned and Prof. Taylor assigned the boys of the '22 class to the task of cleaning up the mess. The pavement was thoroughly scrubbed and sanded and the danger of skidding was removed. It has been recommended that the school stop the practice of daubing and smearing numbers on the side of Nebo, at risk of lives and that instead a neat and attractive "R" be painted there and certain rules formed in regard to keeping it fresh and in condition. The proposition is now under consideration and it is possible that the classes will reach an agreement to refrain from future contests to hold their number on the stony mountain slope.

WELL KNOWN MAN VISITS HERE J. G. Hefty, a former Drain resident, now a member of the International Canadian boundary commission, was in Roseburg last night visiting with friends. Mr. Hefty left this morning for the north. He is a brother of Laura Hefty, the well known missionary, whose home is in Elkhart. Mr. Hefty formerly was with the U. S. geological survey and worked on the Roseburg, Hildes and Coon Bay quadrangles. During his time with the survey, George Scuser, Jr., now district attorney, "skinned" mules for Mr. Hefty and that gentleman last night stated that George was on the job at all times when it came to handling "these pesky brutes." WALNUT TREES. Grafted Franquette 4 to 6 ft. \$125 per 100; single trees, \$1.50. Prune trees on peach or Myra plum roots. 2 1/2 feet trees, transplanted stock. Yes, I have all kinds of fruit trees, berry plants, shade trees, ornamental shrubs, etc. I inspected a number of nurseries in September and handle only the best stock. Let me know your wants. R. L. Ellis, Box 1074, Roseburg, Oregon. GET YOUR STOMACH RIGHT. Stomach misery, gas and indigestion are promptly relieved with M-C-Na Stomach Tablets. At W. F. Chapman's on money back plan.
