FRANK TERMS, 224 W. Cass St.

### TODAY

## LIBERTY THEATRE

Prices 10c & 15c

### Douglas Fairbanks

In that clever comedy drama,

## "Flirting with Fate"

It's a Fairbanks picture, nuf said. Also a good comedy, Bobby Vernon in

"Teddy at the Throttle."

### Lue F. Vernon

who "Plays the Pictures" at the Piano

Liberty Prices, 10c, 15c Show starts 7:15 and 9

### FOOTBALL TOMORROW

The Roseburg high school gridiron artists will huck up against the Eugene huskies tomorrow afternoon at the Bel-lows field. The Eugene aggression is considered one of the best school teams in the state and the Roseburg lads are going to "bring home the bacon" or at least let the University City boys know they have had a scrimmage. A large crowd is going to accompany the Eugene team to Roseburg tomorrow. Over 25 are coming by train and 75 are planning to make the trip by auto if weather conditions are favorable.

### TO BUILD GARAGE

A building permit was issued today to Ed. E. Bellway who is preparing to erect a small garage and repair shop on South Stephens St. The shop will cater to the tourist trade and will handle automobile accessories and articles usually desired by tourists. The structure will be built of lumber and will cost approximately \$1,000.

### BOY FORGER IS UNDER ARREST

GRANTS PASS, Oct. 21.—Well supplied with checks, of his own manufacture, a young boy giving his name as Charley Smith, aged 18, of Portland, was arrested by Sheriff George Lewis upon the complaint of Frank Maaburn, this afternoon. Two checks, signed by G. F. McAdams and C. W. Larson, were offered to the Golden Rule, and were accepted. The first one was for \$2.85 while the second was for \$5.75. The boy inquired which bank was the best, as he had \$20 he wished to deposit. That he was impartial was shown by the fact that he had checks drawn on both of the city banks.

### TRACK MAY BE LOWERED

EUGENE, Oct. 21.—The question of lowering the Southern Pacific track in order to cut down the expense of building the overhead crossing on the Pacific highway half a mile north of Croswell, was the principal question discussed among the engineers, attorneys and officials representing the railroad company, the state highway commission and county court at their conference at the site of the crossing yesterday. At the point selected for the viaduct the railway track is several feet higher than it is on either side and the consensus of opinion seemed to be, according to members of the party, that it would be cheaper to lower the track than to build the crossing that much higher. Representing the highway commission were Attorneys Rosser and Devers and Resident Engineer Jones. For the Southern Pacific company, Attorney Parrins and Engineers H. A. Hampton and F. A. Paikert and for Lane county, Judge C. P. Barnard and Engineer P. M. Morse were present.

### Holds Conference

A large delegation left this morning for Ashland, from here to go to the Southern Oregon Older Boys Conference which will meet the 22nd and 23rd of October. From the Christian church, Glen Radabaugh, Monroe Hilton, Adrain Bloom and Linn Beckley; from the high school was Lois Wright; from the Baptist church, Harold Phillips, Robert Giles, Harold Woodruff and Kenneth Dunham, and a delegation from other churches and some of the boy scouts who are under charge of Russell Litt.

### ARMY OFFICERS PROBE KILLING

(By Associated Press.) TACOMA, Oct. 21.—A board of Camp Lewis officers has been formed to investigate the death of Major Francis J. Dunigan, shot by mistake for a deer in the forest 70 miles from here. Companions reported that Peter Zabritski, a guide, fired the fatal shot.

### CARD OF THANKS

We wish to take this means to show that we greatly appreciate and do thank our neighbors and friends for their kindness and assistance during our loss by fire. J. J. SPINGSTEAD MRS. HATTIE E. SPINGSTEAD MRS. GRACE V. CRESWELL

### BRIDGE WORK PROGRESSES.

COTTAGE GROVE, Ore., Oct. 19.—Work is progressing rapidly on the Pacific highway bridge to the south of Cottage Grove. Pouring of the north pier was completed Monday; the falsework for the south pier is about in place and pouring on this pier will start at once. The steel for the structure is expected to arrive about November 20 and the highway commission will receive bids five days later for the completion of the paving up to this bridge and through the city. The highway, which now swings west around the city, will then use principal streets of the city. The new bridge is to be an artistic one. Commissioner Harlow and Bridge Superintendent McArthur were here Monday viewing the work.

### BEFORE YOU BUY WALL PAPER

From mail order houses or peddlers, call at 403 West Cass St. and get prices. Wall paper 20 cents per double roll, trimmed ready for use.

### HENDERSON GOES ON TRIAL.

PORTLAND, Ore., Oct. 20.—Joseph Henderson, charged with slaying his former wife, Gertrude Henderson, August 8, went on trial for his life in circuit court here today. Henderson is accused of having gone to the home of Mrs. Henderson's father early in the morning and to have stabbed Mrs. Henderson in the back a number of times with a butcher knife.

### FUR TOPS ARE SUGGESTED FOR ROLLED DOWN SOCKS.

NEW YORK, Oct. 20.—These rolled-down stockings that the young women have been wearing have been giving the orthodox quite a jolt. They got another the other day when a New York girl returning from France exhibited some lacy frills with which Parisians are crowning the rolls. It's getting a bit late for such summery frills, but a fur top for stockings is now under consideration for the coming winter.

### OREGON PROFESSOR SOON TO RETURN FROM MANILA.

MANILA, P. I., Oct. 20.—Dr. Warren D. Smith, professor of zoology of the University of Oregon, has been granted an extension of leave to continue his work in the Philippine Islands. Dr. Smith has for several years been chief of the division of mines in the bureau of science in the Philippines, but his contract expired today. He recently obtained an extension of leave from the Oregon institution and the council of state of the Philippines has just renewed his contract for another year.

## The KITCHEN CABINET

(© 1931, Western Newspaper Union.) Stranger, if thou hast learned a truth which needs No school of long experience that the world Is full of guilt and misery, and hast seen Enough of all its sorrows, crimes and cares To tire thee of it, enter this wild wood And view the haunts of nature.

### PRESERVES AND CONSERVES.

The season for putting up the good things from garden and field is at hand, and the weather, though hot, will not hinder the thrifty housewife in her preparation for the winter and a full fruit closet.

### Fruit Conserves.

—Take one pound of raisins, two pounds of tart cherries, the juice and rind of three oranges and four cupsful of sugar. Chop the fruit, add the sugar and cook 20 minutes. Seal in small air-tight jars.

### Preserved Peas.

—Take six pounds of pared, cored and halved peas; add four pounds of sugar and two cupsful of water, the juice of two lemons, the rind of one cut in strips and one ounce of ginger root. Drop the peas into cold water as soon as pared to keep them from discoloring. Boil together the sugar, lemon and ginger for half an hour. Drop the peas, a few at a time, into the sirup and cook 15 minutes. Drop into sterilized jars and pour over the thick sirup when all are cooked. Seal at once.

### Spiced Apple Jelly.

—Take one peck of tart apples, one-half cupful of mixed spices. Put the spices in a bag and cook the apples in equal parts of vinegar and water to cover, adding the spices. When the apples are soft, drain in a jelly bag. Boil the juice with equal quantities or a little less of heated sugar. When jellied pour into glasses and cover with paraffin when cool.

### Rose Pudding.

—Pour one pint of raspberry juice into a saucepan with one cupful of sugar, add one-half cupful of corn starch, mixed with a little cold water, to the boiling fruit juice; when partly cooled add a teaspoonful of rose extract and one-half teaspoonful of almond extract. Fold in the stiffly beaten whites of two eggs. Dip a melon mold into cold water and sprinkle with chopped almonds. Fill the mold and sprinkle with almonds. Serve with whipped cream heaped around the unmolded cream.

## Nellie Maxwell

### NOTICE.

All persons owing the Roseburg Plumbing and Heating Company can settle accounts at the Douglas National Bank or pay our collector, Miss Higginbotham, at 1118 Military Ave., or when she calls to collect, as the above party is hereby authorized to collect all accounts. C. W. HUGHES.

### Don't pay your expenses to Portland

to get your fall wall paper. I have a full line here, three of the largest houses to select from, and a discount that will knock your hat off your head. Paint and Wall Paper Store, 403 West Cass St.

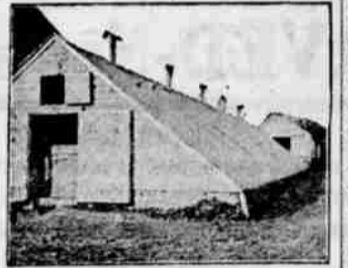

## DIG POTATOES WHEN SOIL IS QUITE DRY

Tubers Are Matured When Vines Begin to Drop Off.

Care Should Be Taken to Avoid Spear-ing or Cutting Them—Store in Cool, Dry and Well Ventilated Cellar or Pit.

(Prepared by the United States Department of Agriculture.)

Potatoes require 90 to 100 days after planting before any will be ready for use. The tubers are not fully matured until after the vines die, or at least ripe and shed most of their foliage. Late potatoes in the Northern and Northeastern states are frequently caught by frost before the vines ripen, so should be dug just about the time frost first strikes them. Potatoes should be dug when the soil is reasonably dry, so that it will not adhere to

Exterior of Well-Built Potato Storage House.

them. A spading fork or a potato hook is best for digging them and great care should be taken to avoid spear-ing or cutting them. Only a small quantity should be turned out at once, as they will become sunburned if exposed more than an hour or two.

Store potatoes in a cool, dry place where they will get plenty of ventilation and be in the dark. Potatoes must not be allowed to freeze either before they are dug or while in storage. A good, cool, well-ventilated cellar or storm cellar forms a suitable storage place for potatoes and under proper conditions will keep through the winter and into the early summer. Another method is to bury the potatoes in a pit outdoors and cover them so they will not get to them.

### SOME EGG SHIPPING 'DON'TS'

Department of Agriculture Offers Few Practical Hints for Benefit of Poultrymen.

Here are some "don'ts" offered by the United States Department of Agriculture that many times mean the difference between a loss or a profit in shipping carload eggs.

Don't waste time and labor by using cheap cases; time and labor are precious.

Don't save pennies by buying poor fillers and flats when you lose dollars in broken eggs. The saving of one egg would pay for the extra cost of a set of No. 1 fillers.

Don't nail braces to sides of car against an incomplete top layer; they seldom hold in place and often are the cause of damage. They injure the efficiency of the car insulation. The use of small under-case braces will prevent all of this.

Don't waste ice and refrigeration by stowing the load so as to make air circulation in the car impossible.

Don't tie up your money in freight claims because of a loose load. Tie up the load and leave the money loose to work again.

### IMPURITIES IN CLOVER SEED

In Recent Purchase North Carolina Farmer Finds Weed Seeds of Various Kinds.

A farmer in Rowan county, N. C., was about to purchase some clover seed last spring from one of his neighbors, preparatory to seeding down his wheat acreage. He noticed that the seed was somewhat impure, and was reminded of the warnings so frequently given by the county agent in respect to pure seed. He asked to have a small sample tested for purity by the state seed laboratory at Raleigh. The sample was reported on merely as "No. 9." Each pound was found to contain approximately 65,000 buckhorn seeds, 2,282 dodder, 2,622 wild carrot, 2,208 black-seeded plantain, 414 curled dock, 276 Venus looking-glass, 138 each of crag grass and green foxtail—a total of 83,140 weed seeds in each pound. This would, no doubt, be sufficient to seed the man's land to these pests for the next decade. Although this sample was the worst of any tested through the county agent's office, on casual inspection it indicated only ordinary impurity. A laboratory test is a safe check even on the purest farm seeds.

### RETAIN ALL GOOD PRODUCERS

Relatively Few Hens Will Prove Profitable After Their Second Laying Season.

Hens showing indication of having been good producers throughout the year should be retained for the next year regardless of their age, but relatively few hens will prove to be profitable producers beyond their second laying year if of the heavier breeds, such as the Plymouth Rock, Rhode Island Red, Wyandotte or Orpington, or beyond their third laying year if of the lighter breeds such as the Leg-horn.

## Church Honors Departing Pastor

The members of the local Presbyterian church regret very greatly the departure of Rev. and Mrs. Warrington who are leaving the first of the month to take up work at Corvallis. To show their appreciation of the services of the pastor, the congregation unanimously adopted the following resolutions:

WE, the members and congregation of the First Presbyterian church of Roseburg, wish to express our deep appreciation of the Christian work done by them during their stay among us. THEREFORE, be it resolved: That in the sense of the members of the church and congregation that in losing Rev. E. W. Warrington and Mrs. Warrington from the First Presbyterian church of Roseburg, we have lost those who in every way have been helpful in all activities of the church; that Rev. Warrington has preached the true word of God as given us in the Bible, and has been instrumental in bringing many into the Kingdom and the church, especially has he brought the young into the work of the church and has been a source of great comfort to those who were sick or in trouble. In all these labors he has been ably seconded by his wife.

BE IT FURTHER RESOLVED: That the prayers of this church go with Mr. Warrington in his new work and we pray that through his efforts, the work in which he is greatly interested, namely the Y. M. C. A. college work, may be prospered by the Holy Spirit who has led Rev. Warrington faithfully to preach the word to us and that the Spirit may so direct his life that it may be a great blessing to those among whom he now goes to labor; that God's name may be greatly honored, and that noble Christian manhood may be a leading characteristic of Oregon Agricultural College.

## Editors Witness Hawaiian Tableau

HONOLULU, T. H., Oct. 20.—"The Spirit of Hawaii," a series of tableaux depicting life in the islands from the days of the native kings to the present, with an accompaniment of olden Hawaiian music and more modern native melodies, the music of the ancient Hawaiian "tom-toms," made of gourds, and the later ukuleles, was presented here this evening in honor of delegates to the press congress of the world now in session here. The first scenes simulated conditions in the islands when each ruled by a separate king. Tableau that followed depicted historical incidents during the campaign, Kamehameha the Great to unite the islands, and his accession later the throne of the united kingdom, Kamehameha the First. Other scenes presented pictures occurring during the various revolutions, the establishment of a republic of Hawaii and later its annexation as a territory of the United States, and depicted scenes from the legends and mythology of the islands. The performance was presented under a full moon with the sea near the seawall in the rear, the grounds of Kapiolani park, an exceptionally fitting background, the sea, that could be heard during the evening crashing against the seawall, played an important part in many of the scenes.

## Tense Scene Murder Trial Of Minister

BIRMINGHAM, Ala., Oct. 20.—Taking of testimony was expected to be completed today in the trial of the Rev. Edwin R. Stephenson, who is charged with second degree murder in connection with the shooting of Father James E. Coyle, Catholic priest, Aug. 11. Yesterday's session, marked by many tense situations, was brought to a dramatic close by the appearance before the jury of Pedro Gussman, who is a communicant of Father Coyle's church, was married to Stephenson's daughter by the priest. Stephenson had concluded his narrative of events which led up to the shooting and had described the manner in which he slew the priest Hugo D. Black, chief counsel for the defense. "Mr. Sheriff, call Pedro Gussman."

## See—

The wild engine ride through a mountain blizzard at night. Raging flood and thrilling scene. The majestic Yosemite and the most amazing snow scenes ever filmed. All bleeded into a romance of love and daring that speeds through your blood a mile a minute.
