Ashland Wins From Roseburg

MEDFORD, March 12.—Ashland defeated the Roseburg five at the Nat Saturday night by a score of 47 to 41 and thereby won the southern Oregon championship and the right to enter the state tournament at Salem. The largest crowd that ever saw a game in this section attended. The game started with both teams playing a fast game and the first half ended 17 to 12 in favor of Ashland. Prior to the end of the first half the score had been tied, 12 to 12. Roseburg showed speed and accurate passing. Abrahams was Roseburg's best point scorer.

The second half was Roseburg's game for about six minutes. The score was tied at 21 to 21 and then Ashland broke loose and began scoring with remarkable rapidity. Heer who showed up poorly last night against Medford was not playing his usual game and was taken out by Coach Hughes just after he tripped a Roseburg man, beating the referee a bit. Young was taken out on personal fouls after warnings.

Roseburg was outweighed considerably and stood the pace as long as possible but were unable to stand the physical strain.

Guthrie, Ashland forward, played a brilliant game for Ashland and must have made 60 per cent of the Ashland score. He had a horseshoe at the finish.

Singleton and Hunt, Roseburg forwards and Abraham, forward, all played a good game. About sixty Roseburg rooters made the trip and gave the team good support.

The preliminary was between the Ashland and Medford second teams and was a fast and interesting contest. Both teams threw the ball a good deal but teamwork was good on both sides. Medford won by a score of 17 to 16. The score stood 8 to 5 against Medford at the end of the first half.

The line-up for the Ashland-Roseburg game was as follows:

Ashland		Roseburg
Young	G	Rapp
Wilson	G	Thurston
Ramsey	F	Burr
Heer	F	Hunt
Guthrie	F	Abraham

Substitutions: Ashland—Weisenberger for Young; Chapman for Heer. Roseburg—Singleton for Hunt; Hatton for Thurston; Hunt for Burr. Referee: Eddie Durno.

Basket Ball Team Arrested

The Roseburg basketball squad and supporters were welcomed into Southern Oregon, in a cordial manner upon their arrival here last night. Maurice Newland, student body president of the Roseburg high school was among members of the team to this city in the lodge sedan and was accompanied by Coach "Dad" King. They say that they passed a car some four miles this side of Grants Pass and recognized deputy state traffic inspector McMahon as an occupant thereof.

They wished to arrive here as soon as possible in order to get the team a meal and allow the men to get to bed early, but they were cognizant of Mac's presence behind them and endeavored to keep below the speed limit.

Officers McMahon and Hemstreet followed them to Gold Hill, where they arrested them for speeding. This seems to have been scheduled as part of the royal reception program.

The case was tried in Justice Taylor's court this morning and officers McMahon and Hemstreet testified that the speed of the car ahead of them was in excess of 30 M. P. H., when the car passed them. However, they did not make the arrest at once, but followed them to Gold Hill, "pacing" them at intervals all the way. Both officers testified that the speed fluctuated between 38 and 42 M. P. H. Officer McMahon testified that the speedometer on his car was 3 M. P. H. fast.

"Dad" King and another occupant of the car in addition to the driver, testified that they never reached a speed of 48 M. P. H. and that it took nearly 40 minutes to cover the 17 or 18 miles between Grants Pass and Gold Hill. This averages less that 25 M. P. H. Mr. King testified that they might have gone 32 or 33 while passing the other car.

Justice Taylor fined Newland $15 and suspended the sentence.

The Roseburg men are indignant at being convicted on testimony of two men against three, that testimony being based on the readings of an inaccurate speedometer. They say if that speedometer was inaccurate to the extent of 3 M. P. H. this morning when tested by officer McMahon, how inaccurate might it have been last night?

Speaking of the above occurrence Maurice Newland told a News-Review representative today that his car passed Officer McMahon on the highway and he recognized the official at once and was "wise" to the fact that he (McMahon) was following the Newland car for the purpose of testing its speed. At no time did the latter's car exceed the 30-mile per hour limit, the occupants state, and the fact that a fine was imposed in the Medford court and the amount remitted is evidence that the "road cop" had a very weak case. Also, the fact that McMahon admitted his speedometer to be off does not show him to be an "expert" in "timing" automobiles on the highway.

Big Still Taken Southern Oregon

GRANTS PASS, March 11.—What is claimed by local experts to be the "daddy" of all stills found in Southern Oregon was taken in a raid on the George Barker place, about two miles this side of Placer, across Grove creek, Friday afternoon. The raiding party consisted of George Lewis, sheriff, Prohibition Agent Stanefer, of Medford, and Federal Agent Don Kerfoot.

Armed with a search warrant, the party looked through the home of Barker, but was unable to find any incriminating evidence. About 800 feet from the house the officers found a framework holding eight 50 gallon barrels, covered by a tent. The barrels were full of warm yellow corn mash, and an oil stove was burning at the time. Other evidence found consisted of 12 empty sugar sacks, a bottle of coloring fluid and a quantity of corks. Two quarts of the finished product were brought back to the city as evidence.

The copper boiler, a small sized brewery in itself, is about two feet wide and nearly three feet in height and had a capacity of approximately 40 gallons. The cost of making the outfit is set at $225. Besides the larger container, there is also another small tank, which contained the coils. Many visited the sheriff's office today for a look at the moonshiner's plant.

ADVANTAGE IN "AUBURN" HAIR

According to This, It Gives Its Possessor a Distinct Start in Matrimonial Race.

If you are a girl and have red hair, pay no attention to those who nickname you "Carrots." It will not be a sign of their disrespect, but of their jealously, asserts London Answers.

An eminent doctor has just expressed the opinion that the red-haired women has a distinct advantage over all others in the matrimonial race. Man is attracted by the subtle shades of copper and red in a girl's hair, and this explains why "henna" dye is so popular. The girl who calls you "Carrots" the loudest will be the first to try the effect of "henna" herself.

To complete the conquest, a buttermilk complexion must be added. If you do not possess one naturally, there may be hope for you if you give up flesh food and become a vegetarian, living on fruits, cream, salads, raisins, and honey.

But, remember this—a woman's graces must be natural, or they will not outlive the glamor of courtship. No self-respecting man will like to feel that his love has been captured by dyes and diet. And no self-respecting girl will try thus to capture him.

Codfish.

Codfish is said to be the world's most important—which means the most eaten—fish. Few fish are more prolific. It has been asserted that one weighing 75 pounds will contain over 9,000,000 eggs. Perhaps the tarpon is one of them, for it is a large fish with a very fine roe. The cod is practically omnivorous, finding means to supply great schools wherever food of any sort is found. It is found in many parts of the world other than the North American "banks" and it is said that it has been fished for by fishermen of northern Europe since the beginning of recorded history and of course for unaccountable centuries before man began to make written records.
