Wednesday and Thursday

The Screaming Farce Comedy  
Presented By  
UMPQUA POST AMERICAN LEGION

ADMISSION \$1.00 Reserve at Antlers box Office

Help The Vets Build A  
Club Room

### AROUND THE TOWN

**In City on Business**—Loyal V. Elmer of Coles Valley spent the day in Roseburg attending to business matters.

**Mrs. Wilcox Ill**—Mrs. Grant Wilcox is today reported to be ill at her home. It is hoped that her condition will be improved within a short time.

**Return from Medford**—Mr. and Mrs. Bert G. Bates and Miss Ruth Currier made the trip to Medford Saturday by auto to witness the basketball game. They returned to this city late yesterday afternoon.

**Building Proceeds Rapidly**—Mr. and Mrs. L. D. Jones and son, formerly of this city but now of Medford, motored to this city Saturday to spend the week end visiting with friends. Mr. Jones was interested in the service station at the corner of Jackson and Douglas streets while in this city.

**At the Douglas**—Among the guests registered at the Douglas hotel are the following: H. Leonard, wife and son of Seattle; Roy Sindland, Oakland; Mr. and Mrs. Sherman Pool, Tacoma; J. W. Bean, Medford; Dave Cotulla and George H. Bryant of Salem; and Mr. and Mrs. B. C. Stone of Weed, Cal.

**THE FOUR BIGGEST LIARS** in the Umpqua Valley. At Antlers, March 15-16.

**Starmer in Glendale**—Sheriff Sam Starmer left this morning for Glendale to attend to official duties.

**C. W. B. to Meet**—L. A. Moore of Days Creek, relayed a telephone call to Adjutant McClintock of the American Legion today, asking the adjutant to reserve 17 tickets for the Thursday performance of "The Four Liars." Mr. Moore stated that the entire section planned to attend the second night's performance. The legionnaires certainly appreciate their spirit and will promise them plenty of entertainment for the long trip.

**Road is Surveyed**—County Roadmaster Floyd Frear has completed a survey of the Ireland Hill road project. This section of road has been in dispute for some time between the residents of that district, some preferring the hill road while others desired a road eliminating the hill and following the low lands. The hill route has been selected, however, and a grade of about 5 per cent will be the steepest to be encountered. Work will probably be started in the early summer, Mr. Frear states.

**SIR KNIGHTS ATTENTION.** Regular convalesce Tuesday evening, March 14th, at 7:30 p. m. A full attendance is requested.  
O. P. COSHOW, Rec.

## FIRST MATE OF LURLING GIVES OUT THE FACTS

He Feels as Strong and Active as a Boy and Hasn't a Trace of Rheumatism or Stomach Trouble Left, Declares Meyers.

"I would be an unreasonable man not to be satisfied with all that Tanlac has done for me," said Fred Meyers, popular first mate of the steamer Lurling, Alder St. Dock, Portland, Ore. "For four or five years my stomach was all out of order and I suffered terribly from rheumatism. Nobody but myself will ever know the misery I went through in that time. I couldn't eat without suffering the greatest distress, my back hurt me so that it was agony for me to bend over and straighten up again and I was so nervous and restless I couldn't get the sleep I needed. "I have a splendid appetite now and my stomach feels just like a new one. I am as strong and active as a boy again and it is only right that I should give the credit to Tanlac, for it certainly did the work for me." Tanlac is sold in Roseburg by W. P. Chapman's Pharmacy, and by leading druggists everywhere.

Prosperity Day, Roseburg, March 15th.

### MADE REALISTIC ON SCREEN

Effect of Tree Being Struck by Lightning Produced With Remarkable Effectiveness.

In one of the leading film productions there is a very realistic storm scene, and as a team of horses is being driven by a tree is struck by lightning. This wonderful lightning effect was entirely artificial. A charge of flashlight powder was laid in the tree, over which the bark was replaced. An electric wire ran from the charge to a battery a little distance away. Two big searchlights were then connected up with a portable electric generator a few feet behind the camera and focused on the tree at the spot where the flashlight charge was placed. The night was pitch dark when the scene was taken. The character of the scene was placed, and the signal given. The camera man started "shooting." At a word from the director, the two big lights were suddenly flashed on, and off again, illuminating the entire scene with a sudden blinding flash of light. At the same time the flashlight charge in the tree was exploded, giving the effect of a bolt of lightning coming in contact with the tree. Then all was darkness again. A few carefully placed scratches on the emulsion of the film ahead of the scene served as perfect lightning streaks just before the big flash.

### NEW TODAY.

Pictures and well specimens on display. For further information call at 125 Cass St., A. T. Lawrence, Commercial Agent, Phone 218.

### ASH IS NOT GENUINE YET

Merely Shows That Cigar is Well Made, Not That Its Quality is of the Highest.

Can the quality of a cigar be told by the ash? To a certain extent it can. Many smokers take a great delight in seeing how long the ash will stay on. It is often possible to smoke a big Havana cigar half or three-quarters way through with the ash intact.

But what most cigar smokers fail to realize is that this is the test of a well-manufactured cigar and not necessarily of the tobacco in it. It depends upon the length and neat arrangement of the filling leaf. A well-made, compact cigar has greater consistency than a badly put together one. But it does not follow that the tobacco is better, a tobacco expert writes.

A surer test is when the ash is flicked off. The glowing point should be sharp. The sharper the point the better the cigar.

As regards the ash, it is a common fallacy that white ash is a sign of a fine, and dark ash the sign of an inferior, leaf. The real truth is that the color depends upon the strength of the tobacco.

A very mild and cheap cigar will give a pure white ash. The finest Havana of ripe strength produces a blackish ash. It does not follow that a cigar which burns imperfectly is bad tobacco. You may have lighted it badly or it may be clumsily made.—Brooklyn Eagle.

### ELOQUENT TRIBUTE TO TREES

Writer Beautifully Expresses What Every Lover of Nature Must Have at Some Time Felt.

Trees are the arms of Mother Earth lifted up in worship of her makers; where they are, beauty dwells. Trees are the shelter of man, beast and bird; they furnish the roof above us, the shade about us, and the nesting places of love and song. They call children out to play; they entice sweethearts into leafy covert to seal their vows with fond caresses; they console and gratefully reward old age. They are the finest ornaments of wealth and the inalienable possession of the poor, who can enjoy them without having title to them. They are the masts that fly the flags of all nations and the sails of all seas; they are the timbers that bridge forbidding streams; they bear the wires of the world's intelligence; they hold the rails that carry the traffic of the continents; they are the carved and polished furnishings of the home; they cradle the young and coffin the dead. Trees herald the spring with glorious banners of leaf and bloom; they clothe the autumn in garments of gold and royal purple; bared to the winter's cold, they are the harp of the winds, and they whisper the music of the infinite spaces.—Clarence Guseley.

### Useful Oil.

Few industries have grown so rapidly as the manufacture of cottonseed oil. In 1907 there were only four cottonseed oil mills in the United States; in 1922 there were 618, and by 1923 the value of the oil and the by-products of it were estimated to be \$125,000,000. Since then there has been a steady increase in the production.

The increased consumption of cottonseed oil is due largely to the great variety of uses found for it. It enters into the manufacture of lard compounds, butterine and other substitutes for butter; is used in packing and preserving fish, in making salad oils, and in the manufacture of so-called "olive oil." The crude oil is used in medicines, in the preparation of cosmetics, liniments and emulsions; as an illuminating oil in miners' lamps, for rough painting, and for tempering edged tools; and as soap stock, in which field of usefulness, after treatment with certain alkalis, it yields soap, washing powder and glycerin.

### Is No National Holiday.

Christmas is not a national holiday. New Year's day is not a national holiday. Thanksgiving day is not a national holiday. The Fourth of July is not a national holiday. Neither is Memorial day. Neither is Washington's birthday. Neither is any other day.

There is no such day as a national holiday in the United States. A United States statute would be required to constitute a particular day as a national holiday, and congress has stopped short of this action, numerous constitutional lawyers insisting that such an act belongs to the powers of the several states and not to the general government.

The Fourth of July is not strictly a national holiday, though it is a nation-wide holiday, having been made a holiday by acts of all the states and by the common consent and usage of the people.

### Totally Obscured.

A certain yellow Chicago swain had an amazingly large mouth which he courted into an all-prevailing smile when he wished to make a good impression. His sweetie had persuaded him to "ask father" and the youth was determined to show himself to good advantage.

"Mister Jones," he began, stretching his principal feature to the utmost of gentility. "I have come to ask for the hand of your daughter. I—" "Just a moment, young man," interrupted the old gentleman mildly, "would you mind closing your mouth for a moment till I see who you are."—American Legion Weekly.

# MONEY RAISING SHOE SALE

Shoes Must Be Turned Into Money At Once

ENTIRE STOCK ON SALE. NO EXCEPTIONS
