Welding Torch Causes Blindness

SAN FRANCISCO, March 16.—(United Press.)—If you want to lose your eyesight, all you have to do is to gaze at an electric welding torch for from one to five minutes. The loss may be only temporary, or it may be permanent. This is the declaration of the Oakland emergency hospital physicians, who recently have treated several men for temporary blindness because they had stopped to watch electric welders repairing street car tracks. "Most people do not know the danger from the invisible but terribly powerful ultra-violet rays," said a recent announcement. "These are the invisible, highly destructive light rays given off by the electric arc. Men who work with electric welding machines know enough to protect their eyes with colored glasses, but the uninformed will look at the arc. It only requires a few seconds to do the damage. The retina of the eye is almost instantly burned and inflammation soon sets in. "Gazing at the arc with the naked eye for five minutes may result in permanent blindness. Temporary blindness has resulted from less than a minute's exposure. In any event, the eyes are seriously injured, and although the immediate effect might only be swelling and inflammation, the eyes will give out sooner in years to come."

Yes, sir—a new hat. LEONA NEWS. Guggenbros. had the misfortune to lose five of their best milk cows last week by eating some poison weed in the hay, according to a veterinary man Eugene. They were valued at \$80 each. Mr. and Mrs. Escher, who have been in Portland the past week, returned home Tuesday. Mr. and Mrs. Wyatt and small son have come for a visit with Mrs. Wyatt's parents, Mr. and Mrs. Antonio Johnson, of Leona. Mrs. Kennedy and small daughter will leave Saturday to join her husband at Port Angeles, where the latter is at work. X. N.

ALTON S. FRET AND SONS. Are ready to furnish any lumber and timbers needed for any building, as low as anyone. See us before buying elsewhere. Patronize Roseburg labor. Phone 324.

Mousing Hen Is a Bear Cat. VANCOUVER, Wash., March 16.—(United Press.)—Lloyd Anderson owns a mousing hen. Biddy catches 'em going and coming, on the move or quiescent, using her beak and claws with fatal effect. Just when Biddy killed her first mouse her owner does not assume to know. But now whenever he enters the feed house, the hen follows behind. Anderson shifts a bag of grain, out pops Mr. Robert, and away goes Biddy in hot pursuit. It's a fast mouse that can beat her in a stern chase.

FOR HOUSE MOVING. Jobs see Pat. P. O. Box 303. Residence 134 So. Stephens.

Radio Telephone Exchange Planned. SAN FRANCISCO, March 16.—(United Press.)—Plans are being considered by the telephone company here for the installation of a radio telephone exchange, to be attached to the regular city or long distance telephone system, by which those on land could talk to persons on shipboard within several hundred miles of San Francisco.

New Orchestra Organized Here. Under the supervision and leadership of Mr. C. M. Sullivan, vocal and cornet instructor at the Moore Music school, a new orchestra has been organized in this city. This orchestra is not organized to play dance and popular concerts but is organized to play symphonies and entertainments. They have already eight pieces and are adding more every day. They have regular nights to practice and Mr. Sullivan intends to devote much of his time to make them a very fine musical body. Last Sunday evening they played the members of the Presbyterian church with a few numbers which were very good and well appreciated and they will again play at the Presbyterian church this next Sunday evening.

MARKETS

TODAY'S QUOTATIONS. PORTLAND, March 16.—Cattle prices are steady. Hogs are ten cents lower, prime light at \$11.50 and \$11.75. Sheep are steady and extra and butter prices remain the same.

PORTLAND MARKET

Table listing various market items and prices. Includes categories like CATTLE, HOGS, SHEEP, WHEAT, and various grades of grain and livestock prices.

Comparative Data of School Districts of The First Class in The State of Oregon. Today's study will show what the cost in taxes is of the schools and city administrations of 16 of the first class districts which submitted reports. These two items are the two main supports of a city and for which the main part of local taxes is expended.

Over 17 Million Jars Used Yearly. husband all hollow," averred at least ten of the faithful dozen. "But that doesn't say we won't make good wives just because we know when to plant potatoes."

Sutherland Items of News Interest

SUTHERLIN, Ore., March 16.—B. Latham, of Los Angeles, who is here in the interest of development of the local oil field, gave a very interesting talk before a large audience at the Sutherland theatre Monday night. The cable which is to handle the rotary drill arrived Tuesday and is being placed on the derrick Wednesday. Everything is practically in readiness to begin drilling, which the company expects to start by Saturday. Considerable interest is being taken that options are being taken on a number of business and residence properties. It is understood that Frank J. Norde, well known local fruit canner, has practically completed arrangements for the erection of a cannery, which will occupy a site on the west side of the railroad near the depot. Frank is a hustler and has been much toward promoting the oil industry in Sutherland. A boxing contest is booked for Saturday on Saturday night, March 18, between Monkley, of Monmouth, and Tawman, boxing instructor at the A. C. The bout is for twenty rounds. There will also be three preliminaries between well known Douglas county boys. The promoters of this affair guarantee a strictly on-the-square exhibition. C. B. Saunders will occupy his new market on Central avenue next Saturday. The equipment is all new and modern, and it is one of the most attractive markets along the pike. Everybody is pleased to see Mark Tidale back on the job after a week's vacation at Mercy hospital. During his absence his son, Charles, looked after the interests of the bank's customers in a most satisfactory manner. Major C. H. Fuller, a veteran of the Civil War, is quite ill at his home on Calapoola street with a gripe. Claude Allen, of Allen Bros. garage, is again on duty after a week at home with the grip. A big evening of music at Christian church Sunday night. New spring suits in Polart twills, hand embroidered. Bell Millinery.

Yes Sir-- A New Hat! We've Got 'Em All--All Colors--All Sizes-- All Shapes. Here's What \$5.00 Will Do. It will buy the nicest hat in this man's town. Soap into it, men! DUDS FOR MEN, Inc.

New Orchestra Organized Here. Under the supervision and leadership of Mr. C. M. Sullivan, vocal and cornet instructor at the Moore Music school, a new orchestra has been organized in this city. This orchestra is not organized to play dance and popular concerts but is organized to play symphonies and entertainments. They have already eight pieces and are adding more every day. They have regular nights to practice and Mr. Sullivan intends to devote much of his time to make them a very fine musical body. Last Sunday evening they played the members of the Presbyterian church with a few numbers which were very good and well appreciated and they will again play at the Presbyterian church this next Sunday evening.

Gordon Says Society Is Headed Wrong. In the revival meetings at the Methodist church, Rev. W. S. Gordon spoke last night from the text: "Fight for your brethren, your sons, your daughters, your wives and your houses."—Neh. 4:14. He said: "Modern society is headed wrong, and can not be saved without a fight. God is calling men and women to help save America, and through it to save the world. The unit of civilization is not the state or church but the home. The low birth rate among the affluent and cultured is one of the most alarming symptoms of our times. Populating the world is being left largely to the colored races, and to the whites least able to properly train the children. The tide must turn. The trumpet of God is making an 'E. O. S.' call to save the home." He gave as some of the contributing causes of this condition: The back-wash from the war, women

Farmerettes Uphold Profession. CORVALLIS, March 16.—(United Press.)—Will the lady farmer in the future eschew her biscuits and her chickens, her darning and her sewing to chew the succulent straw as she chirrups a span on the loamy field? Who shall say? Oregon Agricultural college "co-ed farmerettes" waxed indignant over the declaration of the University of California professor of husbandry that girls studying agriculture are less attractive in feminine charms, less fitted for the home, and lower their prospects for marriage. Several of the dozen co-eds in agriculture denied the California professor's allegations in part and in toto. "I'd rather drive a hay derrick than sew," declares pretty Mary Cusack, of Portland. "Isn't this education worth as much as home economics, stenography or dancing, if one likes it?" demands Mary Haight, of Saguinaw. "Running a farm beats running a
