HOW TO SECURE CANDIDATES.

Many people familiar with political conditions are saying that it is harder than ever now to secure satisfactory candidates for office, owing to the large sums of money required in so many instances to finance campaigns. Wealthy men, of course, do not mind this. But people of moderate means find their living expenses greatly increased, while the salaries of some public officials and legislators remain pretty low. The free expenditure of money in politics places a burden on such ones. Their opponents may use publicity matter freely at big expense. Frequently circulars will be sent out to every voter, and with women citizens to be addressed now. If the campaign matter was simply confined to newspaper advertising, it would not be so bad, but a great deal is sent out in other ways. Billboard advertising is used freely in many campaigns, and the total expense may be far out of proportion to the salary of the office. Formerly a promising candidate could usually get friends to put up sizable rolls of money. But in these times political contributions are looked upon with great suspicion. If a business man should contribute $10,000 to help a friend get elected, there would at once be a clamor and sometimes with reason, to know what he expected to get out of it. As a result it was said in the last presidential election, that it was more difficult than formerly to collect campaign money from wealthy men. With strong public feeling on this point, it is likely to be still more so during the coming campaign. The question of expenditure in politics has to be dealt with more drastically, and methods of campaigning and choice of candidates that lead to heavy expenditures will have to be reformed.

THE MANUFACTURER'S CONTRIBUTION.

It is a big responsibility to be at the head of a manufacturing enterprise. As the general of an army has the lives and welfare of his soldiers in his keeping, so the industrial leader has a responsibility for the welfare and earnings of his help. They look to him anxiously to display the enterprise and sagacity that will make his business a success and will keep the factory wheels turning.

A failure to find work enough to keep fatcory help busy is a calamity that goes deep into the heart of any community, and tends to spread paralysis over the country. Many struggling families that depend upon the weekly wage and that have scarcely a dollar ahead, must pinch and sacrifice and go without the necessities of life, if work slackens up. Small stockholders in many enterprises feel the pinch of passed dividends almost as much.

Factory managers usually feel this responsibility keenly. They are apt to work harder than their help, and at times they lie awake nights wondering where the orders are coming from.

The men who occupy these responsible posts do not need much incitement to activity, as most of them always do their best to keep their shops running full time. Like other business men, they come out best in the long run when they look ahead with confidence, and bank on the fundamental soundness of this country. Many such men have accepted orders at cost rather than see their organizations broken up, and rather than see the business go elsewhere.

During the good times into which the country seems about entering, the shop that has kept running steadily will be the one that operates most efficiently. The wise manufacturer deals generously with his help, takes them into his confidence as much as he can, and by promoting their loyalty creates a force that puts heart into his enterprise.

GOOD EVENING FOLKS—
Ye ed. hates to be
Impertinent but we
Would like to ask
Just one little
Personal question—
Has the spring fever
Hit you yet?

* * *

Every candidate in the field "feels sure he'll be elected," and that one fact will leave a lot of sore heads after the votes are counted.

* * *

AS YET.
Asparagus is on the mart,
A spring sign, that's a cinch.
But do not hanker yet awhile:
It's fifty cents an inch.

* * *

We wish tires wouldn't blow out—at least, we wish they wouldn't blow out in our neighborhood at night. We keep wondering all the evening who has been shot, and are disappointed to find next morning that nobody was.

* * *

EASY.

The conjurer was producing eggs from a top hat. He addressed a boy in the front row.

"Your mother can't get eggs without hens, can she?" he asked.

"Oh, yes," said the boy.

"How's that?" asked the conjurer.

"She keeps ducks," answered the boy.

You can please a woman by telling her that a certain red-faced, snub-nosed, bald-headed creature looks like her—if it is her baby.

If some of these political aspirants keep as busy as the weather man has, their chances are good.

That Port Orchard woman who doped up the salad dressing with poison and "kicked off" her soulmate, evidently found out that two couldn't live as cheap as one.

"Hear about Nutley's getting stung by a rattler last week?"

"Gosh, no! How did it happen?"

"He bought a used flivver without first testing it."

When I look at the lad
In the collar ad
Apollo's stock goes zing,
And Hercules
To one of these
Was but a puny thing.

Joe Dean says the best way to keep time from hanging heavy on your hands is to put some callouses on 'em.

Question—Why don't people write letters the way they talk face to face? Dig out a few of your old letters and see if they are as human as your conversation, or are we still sticking to the old, "Yours of the 5th inst. received?"

* * *

ALONG ABOUT ELEVEN.

"I could sit here and talk to you forever, Geraldine."

"I hear father stirring about upstairs, Augustus. You'd better cut the time down to five minutes."

Brown always did possess a soft heart. This is how he wrote:

"Dear Mrs. Harrison: Your husband cannot come home today, because his bathing suit was washed away.

"P. S.—Your husband was inside it."

IT NEVER IS.

Never think your highest self is out of reach.

The spring poets are beginning to bother ye ed. with their effusions and we wouldn't mind if Prophet Bell would dampen their ardor with a few rain drops. That would give ye ed. a chance to poetize as follows:....
Yesterday the balmy breezes
Banished every thought of freezes;
But today the springtime poet
Wears an overcoat—you know it!

The number on old Mt. Nebo underwent another change last night and the shortage in whitewash today is quite serious.

* * *

Oh how I love the dear old farm,
The memory gives me pain.
So much I loved it, I can't bear
To look at it again.
