ROSEBURG VICTORS OVER LELAND IN OPENING GAME OF THE BASEBALL SEASON

Jupe's Sprinkling Can Fails to Put a Damper on Yesterday's Contest Which Resulted in Local Boys Winning by Score of 5 to 1—Big Crowd Attends.

Old Jupe Pluytus made desperate attempts yesterday with his rain-bucket to water-log the opening game of the baseball season, but Old Sol squeezed through the clouds now and then with sufficient force to evaporate the sky-juice and the game was staged with tremendous success.

Leland Is Defeated.

The Roseburg-Legion team galloped away with a victory over the Leland aggregation to the tune of 5 to 1. It was big league stuff for the first five innings. "Nuthin' to Nuthin'" was the way the score-book read, but when the mighty Umpqua warriors stepped up to the dish in the fifth the big rally started and the fans were on their ear with delight when three runs were chalked up.

Large Crowd Attends.

The Laurelwood baseball park, the most perfect baseball diamond in this "neck of the woods," was crowded with fans and fanettes who were bundled up in their winter togs to brave the chilling north wind that whistled around the bend of the river and played a tune among the trees near the grandstand. The game was called at 2:30 o'clock when Umpire "Hawes" Staley announced the "batt'ries for today's game."

The younger generation was well represented and they stood along the sidelines shivering, munching ice cream cones and cheering their home team into victory. No admission was charged to the opening game but a collection was taken and it netted enough cash to defray the expenses. Hereafter an admission will be charged but the sum will not be large.

Pitches First Game.

Billy Anderson, Roseburg's whirlwind mound-artist, was on the job with bells and a cud of "chawin' terbaccher" in his jaw that spoke well for a well-known brand of the weed. Billy pitched wonderful ball in spite of the cold weather and twelve men whiffed their heads off at his dark-

horse ball. With the smile that will never fade, he delivered some great stuff to "Bug" Miller, the best little catcher that ever peered through a mask. "Bug" was snatching them out of the air at all stages of the game and his peg for second was as true as a Remington.

But to enumerate the various players and their fine abilities would be an all-day job. They work together like a clock and Manager Peterson and Captain Ritzman were so pleased with the showing made yesterday that they giggled in their sleep last night. Roseburg has a pennant winning aggregation—one that contains big league material and a team that will receive the hearty support of the "village." They are good hitters, heady players and game sports.

Almost Started Riot.

A rank decision at second base by the Leland umpire almost caused a riot and half the crowd started across the diamond with fire in their eyes. Manager Peterson stood guard at first with a husky ball bat and headed the crowd back to the benches.

Rally in the Fifth.

The fifth inning fireworks was started by Davis who made a scratch hit down the third base line. Cedarstrom followed him to the plate and grounded to short. Davis was safe on the play to second. Although bunted and was safe at first when the pitcher attempted to nail Davis who advanced to third. The bases were filled. Davis was injured in sliding to third and Lloyd was substituted as runner. Anderson bunted, forcing Lloyd out at home. Miller was out. Two men were down and the bases full when Rebel walked up to the plate and banged out a neat two-bagger that would have been good for a home run on any ordinary diamond. Cedarstrom, Althaus and Anderson scored. Grimm made the third out.

In the sixth inning Curran scored and in the eighth the final run was made by Hall.

(By Associated Press.)
CHICAGO, May 8.—Leaders in the riot in the Cook county jail were taken from their cells today and whipped with clubs and blackjacks before a disturbance which had lasted four hours was stopped. Sudden Death Sunday Morning

Sarah Amanda Hodges passed away very suddenly yesterday morning at the Hodges home about four miles north of Canyonville. Mrs. Hodges had been in good health and her death is a great shock to all her relatives and friends. Mr. and Mrs. Hodges and son were sitting in the house Sunday morning reading when the son noticed that his mother was breathing queerly. He laid down his paper and went to her side just as she breathed her last.

Mrs. Hodges is the wife of J. L. Hodges. She was born in Tennessee on May 12th, 1861, making her age 70 years, 11 months and 26 days at the time of her death. For two years she, with her husband, made her home in Edenbowber but for the past two years they have resided near Canyonville. Besides her husband she is survived by five children.

Funeral arrangements have not yet been made.

Scored On An Error.

The lone run made by the Leland bunch was not earned by any means. An overthrow to third scored the Lelandite. By all signs of the moon the game should have been a shut-out.

It was a great day for Roseburg and the fans are hoarse today as a result of their lusty cheers. Pep was the pass-word yesterday and the breezes and showers played only a small part on the program.

Will Play Grants Pass.

The best Grants Pass team, the classic ball players in the Rogue River valley will play the Roseburg boys here next Sunday.

The local boys are honoring the mothers on that day and all mothers will be admitted free and given seats of honor in the grandstand.

Many Games Scheduled.

The manager is booking the best available teams and is endeavoring to stage some real big league contests, which will be appreciated by the fans, who have been waiting for twelve years for the opportunity of supporting a Roseburg ball team.

The grand jury will probably have a very busy session and will make a number of investigations into various matters. Circuit court will convene on the following Monday, May 22nd. It is not expected that there will be a very long term as most of the important court business was cleaned up at the February term, which was postponed in February because of sickness and completed the last of April.

He was unconscious for about 30 minutes. The little boy with whom he was playing called for help and he was taken to the house and Dr. Sether called to give medical attention. STRONG APPEAL IS SENT TO RUSSIA

(By Associated Press.)
GENOA, May 8.—Lloyd George and Foreign Minister Schanzer of Italy today addressed a strong appeal to the Russian representatives at the conference urging them to accept the allied memorandum in the main points and promising Russian reconstruction. The allies would claim the right to make sure, however, that the money loaned was actually invested in reconstruction work. The Russian delegation had previously issued a statement denouncing the efforts it is alleged France and Belgium made to wreck the conference.

France May Withdraw.

GENOA, May 8.—"Unless Russia's reply to the allied note is a clear-cut acceptance of its terms, the French delegation will have no other alternative than to withdraw from the conference." The Klan at one of its recent sessions made the pledge of \$250, and the balance due will be paid within a short time. According to F. M. Simonton, the local Klan organizer, the Roseburg Klan is growing in size daily. Nearly one hundred more members were initiated at a meeting held last week and every day applications are being received from men all over Douglas county, Mr. Simonton says.

Average Crowd Hears Olcott

"Ragged Robin," at the Antlers theatre Saturday evening, proved to be a typical Olcott success, and was witnessed by an average audience. Mr. Olcott did not disappoint the many who had heard him in former years, although his voice has lost some of its volume and sweetness of tone. Many in the audience were somewhat astonished and not a little disappointed with Mr. Olcott when he intentionally ruined one of his best solos by stopping the music and making the statement that "they would continue when the gentleman stopped passing through the aisle," referring to an incident that no one but Mr. Olcott had noticed. The statement and the manner in which it was made, was not in accord with the rollicking character Mr. Olcott was portraying, and injured the characterization.

H. Putnam, who resides at Drain, was a visitor here today for several hours while attending to business affairs.

GOVERNMENT EXPENDITURES REDUCED \$1,600,000,000 ACCORDING REPORT DAWES

(By Associated Press.)
WASHINGTON, May 8.—Government expenditures for the fiscal year 1922 will show a reduction of more than \$1,600,000,000 from the actual expenditures for the preceding fiscal year, 1921, congress was informed today by President Harding in transmitting the report of Director Dawes of the budget on economies and savings in governmental business.

Director Dawes estimated that government expenditures for the current fiscal year which were given in the December budget estimates as \$3,987,922,366 will be at least \$45,550,336 less, or approximately \$3,922,372,030. As compared with 1921, he continued, there has been a reduction of \$907,500,000 in expenditures for the operation of the routine business of the government, subject generally to executive control. Of this sum he attributed \$250,000,000 to the imposition of the executive plan and pressure on the routine business organization of the government under the new system inaugurated by the budget bureau.

The report of Director Dawes was submitted to the house appropriations committee by the president in connection with a pending resolution by Representative Byrns, democrat, Tennessee, asking the president to inform the house in what ways direct savings of \$32,000,000 and indirect savings of \$104,000,000, previously announced by the president as accomplished by the budget bureau during its first six months of operation, had been made.

Director Dawes presented in detail with accompanying tables and statements the comparative expenditures for the past and present fiscal years divided into items representing those which were charged to executive control and others such as public debt and similar accounts which were considered as apart from the subject of routine government expenditure. He also submitted exhaustive reports of the governmental savings accomplished through inter-departmental transfers of surplus supplies and other economy methods put into effect by the budget bureau, itemizing thousands of transactions, involving ships, shoes, sealing wax and all the many articles and commodities utilized by the government together with the amount of savings realized in each case.

The budget director further reported that the savings reserve against current appropriations of \$112,000,000 set up by the departments and established in August, 1921, in response to executive request, had been increased, notwithstanding reappropriations by congress of more than \$7,000,000 of this reserve for other purposes to the approximate sum of \$136,000,000. Only such part of these reductions as are real savings and not postponed expenditures were included in the general estimate of savings, he added.

As a still greater reduction, Director Dawes declared that the present estimated expenditures for 1922 for the operation of the routine business of the government, after eliminating expenditures of \$7,500,000 authorized by congress after the submission of the budget providing for representation of the United States at the Brazilian centennial exposition, treaty loans, and fulfillment of the treaty with Colombia, as compared with the December budget estimates, showed an excess of only \$25,767,457 on a total of \$1,758,375,672, or a discrepancy of only about 1 1/2 per cent.

The report was described by Director Dawes as an effort to determine what the real savings of the government had been during the current fiscal year.

"The bureau of the budget is an impartial and non-partisan business agent," said Mr. Dawes. "In this particular report where its estimates may become a basis of contention in an approaching political contest, its figures should be conservative and meet the test of examination, not only in the present but in the future when existing partisan differences are forgotten and the record for impartiality and non-partisanship of the budget bureau is considered in retrospect by the unprejudiced mind of the government economist and student.

"It will be noted that the director of the budget, out of total estimated expenditures of \$3,922,372,030 for 1922, classifies only \$1,765,875,672 as being generally subject to executive control in the operation of the routine business of government. These figures compare with actual expenditures under the same categories in 1921 of \$2,673,435,075, segregated out of a total annual expenditure for 1921 of \$5,535,040,689. The reduction in the ordinary expenditures for the operation of the routine business of government generally subject to executive control in 1922 as compared with 1921 will be, therefore, in the neighborhood of \$907,500,000.

"As against this enormous total reduction the estimate of economies and savings incident to the new imposition of executive control over governmental expenditures in 1922 is estimated by the director of the budget in this report at the lesser sum of \$250,000,000. He feels reasonably assured that this estimate of economies and savings attributable to the new system is an underestimate, but that if effort had been made in this regard savings and economies are still so large as to vindicate it, and will at the same time emphasize the indispensable policy of the budget bureau to have its estimates conformable to the principles of business conservatism.

"These figures the director of the budget has found it impossible to make any reliable estimate of some indefinite general savings, such as those incident to the corrected system of purchasing which has been established in the government, by which competition between departments and the overlapping and acquiring unnecessary surplus has been avoided. On the basis of the original estimates made by the different departments and establishments there have been eliminated, after due consideration of the facts involved in the neighborhood of \$150,000,000 claimed economies."

Mr. Dawes paid his respects to the present "archaic system of governmental accounting," declaring that the public can never be fully informed as to the business operation of the government until it is reformed. He criticized particularly "the present system of government accounting, which calls the loan of money to the railroads an 'expense,' and the return of money loaned a 'receipt.' Such operations," he said, "almost upset the estimated figures for this year to the extent of about \$293,000,000."

"An accounting situation like this," he asserted, "might be regarded as humorous in a small business. It is nothing short of a calamity in governmental accounting."
