DIVORCEES GAINING ON SINGLE GIRLS IN RACE FOR HUSBANDS

"Grass" Widows Take Lime-light in Marriage Statistics of California.

(International News Service). SACRAMENTO, June 27.—Widows and grass-widows are rapidly gaining ground on the single girls of California in the race to the marriage altar, according to statistics made public today by L. E. Ross, chief of the state bureau of vital statistics of the board of health.

Of especial significance in the fact that divorcees are far outdistancing their widowed rivals and are steadily creeping up on the single contenders in the marriage mart.

During the last two years 75 per cent of all persons marrying were single, 11.5 per cent were widowed and 13.5 per cent were divorced. Fifteen years ago the percentage of single was 85, widowed 9 and divorced 6.

Remarriage by divorcees has made rapid, consistent gains year after year, Ross's report states.

Ross's report in this respect reads as follows: "A study of the marriage statistics indicates that there is a gradual, steady change in the proportions of single, widowed and divorced persons marrying in California. The percentage of single persons is decreasing, and the proportion of widowed and divorced is increasing, that is, while the total number is increasing as the population grows, the widowed and divorced are gaining ground faster than the singles.

Widows Show Gain.

"During the last two years about 75 per cent of all persons marrying were single; 11.5 per cent were widowed and 13.5 per cent were divorced. Fifteen years ago the percentage of single was 85, widowed 9 and divorced 6. Remarriage by divorcees has made rapid, consistent gains year after year. The widowed have also advanced, but less rapidly than the divorced.

"Notwithstanding the rapidly increasing proportions of divorcees remarrying, we do not find that they are first choice of either brides or grooms. When divorced persons re-marry first choice is for a single partner, second for a divorcee and third for widowed. The tendency among divorcees to marry single persons is much more pronounced among brides than grooms.

"Single persons prefer single first, divorcees second and widowed third, the order of choice being the same as for divorced persons, although the percentages vary.

"Among widowed persons the order of choice is single first, widowed second and divorcees third, but among the grooms the widows are about as popular as single girls. Widows, however, show a very marked preference for single men."

Sutherland Home Entered by Burglar

The A. G. Sutherland home on East Lane street was robbed last night, a few dollars in money being taken. The burglar entered the home after removing a screen from a downstairs window. He did not attempt to go upstairs, but rifled the desks and drawers in the lower part of the house. Evidently money was the only object, as nothing was taken except four silver dollars and two pocketbooks containing a few cents in change. The silverware drawer was opened, but nothing was stolen. The work is believed to be that of local talent.

Dorothy Dalton, Paramount star, organizes a vigilance committee in "The Grimson Challenge," her new picture, which will be at the Antlers theater tonight. She does this to run a bad gang out of Los Valley and to avenge the murder of her father. It meant wild riding, shooting and all kinds of exciting action—but that is where Dorothy Dalton excels. Jack Moyer plays opposite the star and heads an unusually strong supporting cast.

HIGHJACKERS FEARED BY CROOK CLASS

SAN FRANCISCO, June 27.—(U. P.)—"Highjackers" are more feared by bootleggers than prohibition agents.

"Highjacker" is the underworld name for crooks who prey upon the crooks—in this case, upon those dealing in illicit booze.

For example, the "highjacker" will learn that a certain bootlegger is planning to bring in a truckload of booze on a certain night.

The "highjacker" gets a truck, holds him up on the highway, and takes his cargo away from him, knowing, of course, that the bootlegger can hardly appeal to the police. Thus he feels fairly safe.

Or perhaps he will learn where the bootlegger has his liquor stored, in which case he will conduct a raid of his own, and remove it.

Bootleggers are afraid of "highjackers" because the latter are usually ex-convicts, and are not afraid to shoot on slight provocation. Prohibition agents, on the other hand, seldom use their revolvers, and never except in case of last resort.

Numerous times lately when raids have been conducted, bootleggers have shot at the officers, later explaining that they thought they were being held up by "highjackers."

THEORIES OF CONAN DOYLE REFUTED BY FAMOUS SCHOLAR

Mediumism is Only Revamped Necromancy, Declares Dr. Paul L. S. Johnson.

By ARTHUR BROWNLEE, National News Service Special Correspondent.

PHILADELPHIA, Pa., June 27.—Arthur Conan Doyle's lectures in the Academy of Music here on Spiritism are receiving pointed criticisms from several prominent Philadelphia. Among others, an answer to his thesis has come from Professor Paul L. S. Johnson, one of the best known and most famous scholars in America.

they are the devil's underlings—the fallen angels—palm themselves off as the dead.

"I agree with Sir Arthur Conan Doyle's intimation to the effect that he has not a soft head," declared Dr. Johnson. "On the contrary, he has an unusually full and level head and, better still, a good kind heart. It strikes me that he has only one empty lobe in his brains. This vacuum in his head is the absence of correct knowledge on the nature of the spirits with whom he communicates in spiritistic seances. This lack of knowledge on the subject, combined with his brilliant mind and kind heart, makes him an advocate of Spiritism.

Falls as Detective. "Sir Arthur Conan Doyle, the author of the best detective story in existence, has failed completely as a detective for the persons that he is investigating have completely deceived him and thrown him off the track as to their identity, plans and works, if the Bible is true in its teachings on the subject and if the testimony of multitudes of undeveloped former Spiritists is to be accepted.

"Replying to the question, 'How has Conan Doyle been deceived as to the identity, plans and works of the spirits that he has been investigating?' I would say, according to the Bible, corroborated by the experience of multitudes of reformed Spiritists—the spirit that appear in seances are not at all dead human beings, but fallen angels—devils or demons—who impersonate the dead. This is my reply to his request for an answer, as he claimed due, to his question as to the identity of his communicating spirits, the familiar spirits of the Bible.

"These demons are wonderfully intelligent, knowing all of us intimately, even in the minutest particulars that most of us think are completely secret from everybody except our loved dead and ourselves. They are also deeply deceitful, being the lying spirits of the Scriptures. They use their knowledge and cunning to palm themselves off as dead friends

and relatives.

Impersonate Our Friends.

"All of us know that when death severs us from loved ones there is left an aching void in our hearts, which yearn for the return of fellowship with the departed. The fallen angels, taking advantage of this longing, through Spiritism impersonate our friends and relatives the more thoroughly to gain influence over us to their advantage and our harm. The great success that they have achieved in this matter attests their wonderful knowledge of our lives and their almost unbelievable deceitfulness.

"The activity of fallen angels—demons—palm themselves off as our dead friends and relatives in what genuine Spiritism is—nothing more and nothing less. Thus Spiritism is simply revamped ancient necromancy, and the medium is the modern counterpart of the ancient spirit-familiar, necromancer and Indian medicine man.

"The question, why the spirits that Conan Doyle has been investigating might not be his son, mother, etc., I would answer: According to the Bible and human experience the dead are dead, and therefore are unconscious; consequently they do not think, know, hear or feel—in a word, they neither do nor can do anything. They will remain in that unconscious state until the resurrection. Therefore they cannot communicate now with us. Hence the spirits that claim that they are our dead friends and relatives are lying spirits—the fallen angels."
