### Power Lines Are Being Extended

COTTAGE GROVE, July 21.—Connecting this city with the Mountain States Power company's plant in Springfield was completed Wednesday morning at 7 o'clock, the power being turned off in Cottage Grove from 6 to 7 o'clock while the actual work of making the connection was in progress.

Little inconvenience was caused either business men or housekeepers by shutting off the power for one hour. Elimination of the local power company's service and connecting up with the Mountain States Co. line will furnish Cottage Grove with any quantity of power that may be required here and, it is hoped, more consistent service. The former local company operated by O. M. Ken and C. M. Shinn, had been unable to supply the demand for power for some time.

Workmen had been busy for several weeks stringing the wires which carry the power from Springfield to Cottage Grove on the California-Oregon company's poles. At present the power received here is generated in the Springfield plant, but with the completion of the line from the California-Oregon company's new main plant at Prospect near Crater Lake, the Springfield station will be used only as distribution point where the high voltage of the main line will be "stepped down" for use by adjacent valley cities.

### Stolen Auto Is Recovered

The Ford automobile stolen from W. K. Goode, who resides near this city, on the date of July 1, was recovered this morning at Oregon City, according to word received by Sheriff Sam Starmer, who has been making a determined effort to locate the machine. The car was stolen while Mr. Goode was attending Chautauquus, being taken from a spot near the court house grounds. It was driven away by two men, only meagre descriptions of them being obtained, however. It now develops that they drove the car to Jacksonville where they switched licenses with another car and then drove back through this city a few nights later and stopped at Oregon City. They have been there for several days, trace of the car having been secured through the license change at Jacksonville. The officers have been making a particularly hard effort to get this car, as Douglas county has a clean record on car thefts, no auto thieves having been able to make a clean get-away with a machine for several years.

### Forest Fires Are Being Checked

EUGENE, July 21.—The two army planes which flew over Douglas and Lane counties yesterday reported no new fires and brought back to the base here the word that all forest blazes in western Oregon are now under control. According to Captain Lowell Smith, in charge of the 51st Aero squadron here, the cool weather has assisted greatly in checking the flames which until a few days ago were sweeping through the timbered hills.

Wind which has been blowing steadily but erratically during the last few days has also helped the fire fighters in the battle with the blaze. The wind has been constantly switching and the fires have been blown back over the path just devastated. These winds have also cleared up the

### What God Says About MERCY

"What is thy servant that thou shouldst look upon such a dead dog as I am."—II. Samuel 9.8.

A dead dog—that's what Mephibosheth said of himself.

A king's son—that's the way David treated him. Here is the story:

David, the king, had conquered his enemies and was looking around for a chance to serve his friends and he found that there was a poor ladson of his old friend Jonathan out at Lo-debar. So he sent for him and when Mephibosheth felt before him expecting death as a grandson of Saul who persecuted David for years from sheer jealousy—when he fell as a suppliant, David said, "Fear not, I have given you all the possession of your grandfather and 35 servants to till your farm, and as for you, as long as you live you will eat at my table."

That was mercy and the shock of it made Mephibosheth feel like a dead dog.

But that isn't a circumstance to what God for Christ's sake has done for you and me. And yet, we have no conception of His mercy. You and I were dearer than Jonathan's son was and have been more ungrateful than a dog could be; and the Eternal God sent Jesus down here for us. He made provision for our eternal life and everlasting happiness at the king's table. Oh, God, help men to be humbled by thy mercy—humbled enough to receive every provision of thy love—Amen!

### HOTEL DESTROYED IN BAD FIRE

EUGENE, July 21.—Fire that ignited in the Antlers hotel at the River destroyed that structure and a number of nearby buildings and spread to the small timber on the hills back of the town. Details were meagre until the arrival of Eugene at 10:30 last night of William Ainsworth, of this city, who witnessed the fire. The first news came from the forest telephone line from McKenzie bridge, across the mountains to Oakridge thence to Eugene by the line along the upper Willamette river.

The first information received here was to the effect that only the hotel had burned. Later in the evening word came that the entire town had been wiped out but further information received over the telephone from McKenzie bridge was that only a few buildings aside from the hotel were destroyed. Mr. Ainsworth brought the news that the hotel, the cottages adjoining it and one residence back of it were burned.

The wind carried the fire to the mountains a few rods back of the hotel and Smith L. Taylor, Cascade forest ranger had a force of men at work endeavoring to prevent its spread to green timber. Nelson F. Macduff, supervisor of the forest
