Mrs. Childs Honored at Party

One of the most affairs which has been held in Roseburg in honor of Mrs. G. R. Childs, was sponsored by the Roseburg Woman's Club, at the home of Mrs. William Bell, Monday, July 20th. The rooms were beautifully decorated for the occasion with roses, ocean spray and ferns. There were about fifty guests present, those invited besides the club members were women who had been members of the club when Mrs. Childs was living here. The members were honoring Mrs. Childs as the founder of the club in 1895. There were four charter members present, Mrs. Childs, Mrs. Alkin, Mrs. Willis and Mrs. Thacker. Mrs. E. V. Hoover, president of the club announced the program. Mrs. Chas. Brand sang two solos in her usual pleasing manner with Mrs. A. R. Knouse at the piano. Miss Janette Lintott of Chicago, gave three excellent readings. Mrs. Fred Strang rendered three vocal numbers in a most charming manner with Mrs. L. E. Lintott at the piano. Mrs. Childs told of the early history of the club and of amusing incidents which occurred at that time. A copy of the couplets which had been composed by the founder of the club about its members, and preserved by Mrs. W. R. Willis since the club was first organized was read by Mrs. Childs and brought back some very fond recollections. Punch was served early in the afternoon and the bowl was presided over by Mrs. Washington Hughes and Mrs. V. J. McElli. Later in the afternoon delicious refreshments were served by the committee, consisting of Mrs. C. V. Pfaff, Mrs. Sam Evans and Mrs. E. V. Hoover.

Moonshiner Gets Heavy Sentence

T. Hall, who was yesterday arrested following the discovery of two stills in his house in Miller's Addition, appeared before Justice of the Peace George Jones yesterday evening and entered a plea of guilty to the charge of having intoxicating liquor in his possession. He was fined \$150 and given a jail sentence of 60 days. While he is in jail his case will be thoroughly investigated by government officials. A further search of his premises this morning brought to light several small bottles containing moonshine. He also has a complete testing apparatus and is evidently quite an expert in the manufacture of "hootch." Test tubes and devices for taking the specific gravity of liquids were found and the presence of the several small bottles cause the officers to believe that he was making some extensive experiments. Dynamite caps, fuses, drills, files, etc., were found to be quite numerous while a well equipped tool kit was discovered. He is well supplied with the necessary paraphernalia for safe cracking or counterfeiting operations and the officers are inclined to believe that he has been engaged at some time in this sort of work.

BOTH SIDES WORK ON MURDER CASE

(By United Press.) LOS ANGELES, July 21.—With her trial two months away, both the defense and the prosecution in the "Hammer" case of Mrs. Clara Phillips worked today to build up their cases. The prosecution discovered that Mrs. Phillips bought a pistol shortly before the murder was committed, and is alleging premeditation. It was rumored that the woman was drugged at the time she committed the murder, explaining her apparent inability to remember the details of the tragedy. The prosecution is making elaborate preparations to combat an insanity defense.

MORE STRIKE BALLOTS BEING SENT OUT

(By United Press.) TACOMA, July 21.—Strike ballots were being distributed from northwest points today among clerks, freight handlers, and station employes of the Chicago-Milwaukee line. The same was true at Spokane, Seattle, and Portland. Returns on the ballots is expected at union headquarters July 29.

GOLD-COLORED TARPON IS CAUGHT NEAR TAMPA

TAMPA, Fla., July 21.—When Geo. Roberts, veteran guide at Pass-a-Grill, reported seeing a gold tarpon swimming in local waters he was ridiculed, but a few days later Arthur Henderson, St. Petersburg fisherman, succeeded in catching a fish of that description. Whether the fish hooked by Henderson was the same one sighted by Roberts has not been established, so it is not known whether the single specimen is an oddity of nature or whether there are others of the same kind. The ordinary color of the tarpon is silver, which has caused it to be known as the "silver king," as it grows to large size and is considered the gamest of fish, always putting up a hard battle before being landed.

Insincerity Is Charged to Olcott

(Continued from page one.)

people's money to do personal politics for Mr. Olcott. Mr. Olcott might in fairness appreciate the necessity for these private recounts. What must the good people of the state think of Mr. Olcott, who, after enlisting an army of state employees, tax eaters, to work for his personal pre-primary campaign at the expense of the taxpayers of the state, and discharge such of those employees as did not slavishly adhere to his personal political machine methods, as in the cases of Gates, Elsworth and others, the result of which was so disgusting as to cause that splendid citizen, Bert Anderson, to resign from the state game commission; who after 115,000 votes have been cast for the nomination for governor claims that nomination by but 22; who declares himself willing to recount, yet fights on every technical ground a suit in the court to obtain such recount; and who, when specific allegations of wrong are listed in about one-third of the precincts to show a plurality for Hall of over 4,000 votes has been cast, still whimpers that such conditions do not indicate "fraud or linge of fraud"? Don't they?

Can the beneficiary of such a state machine of office holders complain when private citizens combine to make apparent the truth and to count the legal ballots actually cast in the ballot boxes?

PARISIANS OPPOSED TO YANK TRAFFIC SYSTEM
 (International News Service.) PARIS, July 21.—Should the great cities of the world grow alike or each try to keep its individuality? Upon the answer to that question will be based the decision of the city of Paris whether to adopt the red-green-white light system of traffic guidance now in use on Fifth avenue New York.
 Opposition to the acceptance of a proposal made by Dr. John A. Harris, designer of the Fifth avenue signals, to put such lights along the Avenue de l'Opera is based upon the feeling that they will give visitors to Paris a stereotyped impression—that Americans will forget the beauty of the broad avenue and say, "Isn't that just like Fifth avenue?" This would hurt the pride of the French.
