

State Press Comments

\$85,000,000 FOR AUTOS.

Figures that truly are startling have been compiled by Ralph J. Steahli, secretary of the Automobile dealers' association of Oregon, indicating the stupendous annual drain on Oregon production involved in the purchase, maintenance and operation of motor cars in this state.

This is an average of \$750 per family in Oregon—\$750 a year outlay for autos and taxes.

The combined outlay is three times the total lumber production of the state. It equals the total agricultural production.

Where do we get what we live on?—Oregon Voter.

Devil's Lake, North Dakota, is a town of only 5000 population, and yet one of the largest department stores in the country is located there. During the disastrous business year of 1921 this store sold over \$500,000 worth of goods, and Fred P. Mann, the owner, says newspaper publicity turned the trick.

Now that the railroads are holding out against the orders of the federal labor board, and coal mine operators are rejecting the proposals of the president, it is strange not to see them roasted by papers like the Oregonian. The shopmen and miners were declared to be striking against the government—and are we to assume the railroads and coal operators are beyond the jurisdiction of the government? It looks that way.—Eugene Guard.

DID A GOOD JOB.

The deputy who shot that moonshiner, who had previously killed one man and seriously wounded another, did a good job. He might have escaped the hangman if he had lived to be tried.—Eugene Morning Register.

BANKERS ARE SENTENCED

MOBERLY, Mo., Aug. 7.—Walter Bundridge and his brother, Vernon Bundridge, former cashier of the defunct Farmers' and Merchants' bank here, pleaded guilty today to embezzling \$400,000 from the bank and were sentenced to ten and five years, respectively, in the penitentiary.

Improvements for Harley Motorcycle

A motorcycle roller bearing driving hub that lasts a life-time, is one of the ten big new improvements on the 1923 Harley-Davidson motorcycles and side-cars now being shown by the local dealer at 206 W. Douglas street.

"This new roller bearing driving hub," says William Harley, chief engineer for the Harley-Davidson Motor company, Milwaukee, Wisconsin, "is the product of years of tireless experiments and many and long road tests under all kinds of driving conditions. It lasts a life-time and the only attention it ever requires is a little lubrication every 10,000 miles."
