TNESS my hand and official seal that 25th day of July, 1922.

IRA B. RIDDLE, County Clerk, Douglas County, Oregon.

MAN IS TO WALK AGAIN AFTER 39 YEARS

(International News Service.)

NEW YORK, Aug. 21.— Through a triumph of surgery, Frederick W. Birge, 53, farmer, of Middlebury, Vermont, is expected by physicians of the Hospital for Ruptured and Crippled to walk again for the first time in 39 years.

The date will be the anniversary of his loss of the use of both legs thru infantile paralysis.

This is the earliest case of infantile paralysis on record in Vermont, and is said to be the longest period of paralysis, terminating in recovery, in the annals of surgery.

Birge was 14 when stricken. His legs contracted into the position of one sitting. Efforts to cure him were without result, and the case was given up as hopeless. His life itself was limited to the range of a wheel-chair.

Powerful Arms.

He did not collapse into helplessness, however. Tho his lower limbs were useless, his arms, by constant propelling of his chair and pulling himself up by anything he could grasp, developed almost the strength of a gorilla.

With his sister, he owns a 60-acre farm in Vermont, producing poultry, dairy products, fruits and berries. Birge learned to pull himself up, hand over hand, into the seat of a wagon and thus managed his farm and sold his produce. It supports them both.

Eight years ago there was an infantile paralysis epidemic in Vermont, and when it subsided the State Board of Health established an after-care department, in charge of Miss Bertha E. Weisbrod, of Boston. One of the nurses visiting a boy who lived near the Birges heard of the neighboring farmer. She went to see him.

Sure to Walk.

A year ago he was examined by Dr. Robert Lovett, of Boston. It was decided there was a possibility of his being cured if he could have the services of specialists.

On December 19, last, Birge was removed to the Hospital for Ruptured and Crippled. Dr. Armitage Whitman, visiting surgeon, operated on both ankles and hips, straightening and stretching the legs. August 15 the plaster cast which extends from his feet to his shoulder blades, was removed and temporary braces adjusted, and he will walk, the doctors say.

Today he grasped the metal framework above his bed like a monkey and swung his body in its stiff mummy-like cast out and stood on his feet, leaning against the bed for support and smiling.

"It's the first time in 39 years," he said.

The Hospital for Ruptured and Crippled is one of the institutions belonging to the United Hospital Fund.

Department Called For Roof Fire

A roof fire at the Macklin home on Fullerton street last night resulted in the sounding of a general fire alarm. The fire was first seen by workmen at the roundhouse and the alarm was sounded. The hand reel from the roundhouse was taken to the scene, but the blaze was extinguished with a hand extinguisher from the fire truck. As a remarkable coincidence the alarm was exactly in time to add realism and effect to a fire prevention picture being shown at the Antlers theatre. A film on fire prevention was being shown and in the picture a man had just rushed to the alarm box and turned in an alarm when the crowd heard the siren start and the fire truck go by. The effect was so realistic that it was considerable time before the crowd realized that there was an actual fire outside and that the sounds were not a part of the picture.
