STOLEN CAR IS LOCATED BY MARSHFIELD OFFICERS

MARSHFIELD, Aug. 24.—Constable Goodman this afternoon received a telegram stating that a car, concerning which he wired to clear up another mystery, had been stolen at Medford Monday night.

Last evening, J. I. McClintie, of Eugene, arrived here and appealed to the officers for aid. He said he was coming in from Roseburg and that a stranger had offered him a free ride. He accepted. About a mile the stranger side of Myrtle Point the stranger claimed his car ran out of gasoline, and McClintie hiked back to a farm.

house to get a small amount. When he returned, the car was gone, and so was his suitcase.

He had the number of the car and that was all. It was 107019 and in the auto directory was listed as the property of Carl L. Webber, of 833 Second street, Medford. Constable Goodman wired about it, suspecting something was wrong.

Stone for New Home to Be Laid

The Women's Home Missionary Society of the Methodist Episcopal church has dreamed for years of a beautiful home for the aged at Salem, Oregon, in place of the old wooden structure that has proved so inadequate and now this dream is about to be realized.

On Wednesday, September 6, at 2:30 p. m., the corner stone of the new Old Peoples Home will be laid, with Bishop Sheppard making the principal address.

It is expected that many friends from all over Oregon will be present at that time to witness the ceremony.

Davis of Los Angeles and their three sons, Dalton, 14, Ewell, 12, and Elbert, 6, dropped into Salem yesterday afternoon and spent the night in the city.

They have seen practically all of the principal cities of the country and have visited most of the scenic spots listed in "What's What in America," including all of the national Parks.

COLONIAL PIPELESS FURNACE

Many homes in Roseburg are being heated by this Oregon-made furnace, and every user is a booster. Burns coal or wood. Takes 24-inch wood, which fits oblong fire box, covers the complete grate, and will not hang up in fire pot, which means cheaper fuel and less trips to the basement to attend furnace. Will burn wood more economically with less attention and more satisfaction to user than any round fire pot made. We locate, install and guarantee these furnaces. Let us look at your house and give you an estimate. We can install pipe furnaces in houses where arrangement makes a pipeless one impractical.
