PIAN SPEECH SOR GETS BUSY

LOS ANGELES, Aug. 26. (United Press.)—One of the special features of the December meeting of the California Real Estate association at Santa Ana will be an especially prepared map of California.

The map has been prepared by Professor Charles B. Shaw, of the University of California, agricultural department.

The purpose of the exhibit is to get realtors interested in a study of the oil in the vicinity of their fields of operation. According to Freeman H. Bloodgood, president of the Santa Ana Realty board, the realtor who has a thorough knowledge of soils stands a much better chance of completing a real estate deal with a practical farmer or in interesting a prospective investor in California farm lands. Furthermore, he protects himself by knowing exactly what he is selling, and hence betters his general reputation.

The Santa Ana board will have the co-operation of the Anaheim, Orange and Fullerton boards in entertaining the State convention. The largest attendance of any convention thus far is expected when December 7, 8, and 9, roll round.

PASO ROBLES, Cal., Aug. 24. (U. P.)—The harvesting of the big almond crop of this district is under way. Provided rain conditions do not injure the market, growers expect to make good money this year because of the prospect of the tariff, which recently passed the senate. This tariff will give adequate protection to almonds, growers declare.

SACRAMENTO, Aug. 26. (United Press.)—The city of Sacramento may soon go forward with the development of a big hydro-electric plant on Silver creek.

City authorities some time ago filed claims on Silver creek extensive enough to provide for a municipal hydro-electric system.

Engineers were sent out to make a thorough survey of the situation. They recently reported that the project is entirely feasible. Figures on construction costs are now being compiled, and the proposition will then be put to the public.

LOOKING GLASS NEWS.

Mr. and Mrs. Arnold, Mr. and Mrs. Walter Vanhauw, and daughter, Lynda, and Mr. and Mrs. Wesley Meredith enjoyed a picnic dinner at the Rice Creek park last Sunday.

Mrs. Charles Arnold and Miss Alice Rodick are visiting Mr. and Mrs. Larson.

Mr. Rodley and Mr. Larson are fixing the church. Mrs. R. C. Arnold left for a ten-day trip in Salem and Portland and other northern points where she will visit friends and relatives.

Arnold and Wesley Meredith are making fence posts.

The Young People's Sunday school class will sponsor a winter roast next Friday evening at the camp grounds in Flourney valley.

Burt Arrington finished threshing in the valley last Wednesday at the Arnold ranch.

Quite a few residents have been fortunate in capturing bucks.

The fruit growers are busy picking Bartlett pears. A watermelon feed was given on the Nichols lawn by the ladies aid society of Looking Glass last week. The Christian Workers' band, of Roseburg, were with us. The evening was spent in singing songs and playing games. Punch, coffee, cake and watermelon was sold by the Ladies Aid society.

Dorena Shortridge is home again after a week's visit in Roseburg.

A party for the young people was given at the home of Mr. and Mrs. Vordhies in honor of Glenn's birthday anniversary. The evening was spent in music and games. After the entertainment, a delicious luncheon was served. All departed, wishing

ific Coast News

ERMORE, Cal., Aug. 26. (United Press.)—Many elderly and well-to-do residents of Livermore and vicinity are today enjoying going over to the school exercises which were out way back in 1878.

The old school building here, which was wrecked recently, working in one of the walls a display for papers, which had later boarded up and painted over.

A large number of 1878 papers found on which pupils of that day had written their lessons. Many of them still reside here or in part of California. The papers returned to them, yellowed with age and covered with their childish scribbles.

A curious coincidence, among others found were some belonging to Henry J. Meyers. Meyers is a noted San Francisco architect, and was the man who drew up the plan for the fine new building which replaced the old one just torn down.

Meeting that schoolmarms and boys were much the same then as today, the following yellowed papers found with the papers:

McDonald—A part of the record which I spoke to you at noon were no noisy in the students that I had to leave

Glenn many more happy birthday anniversaries.

Mr. and Mrs. Richard Goodman, of Marshfield, are visiting with Mrs. Goodman's parents, Mr. and Mrs. T. W. Morgan.

Mrs. Johnson, wife of our former blacksmith, motored into our valley Monday.

Arthur Marsh has returned home after a week's visit at Hood River. Mrs. Clark and son motored down from Hood River to spend a few days with Mr. and Mrs. Arthur Marsh.

Three new houses and three driers are being built in our valley this year. Mr. Kloro finished plastering his new bungalow Tuesday.

Mr. and Mrs. Hervey Aldrich spent last evening visiting Mr. and Mrs. Wesley Meredith. Mr. Aldrich is passing out the cigars quite generally.

O. G. Rogers is selling quite a few of the early Crawford peaches which are certainly delicious. He has also had his Gravenstein apples packed.

Mr. and Mrs. John Pizer, Miss Katherine Pizer, and Andy and Benny Jacoby spent a few days hunting the first of the week.

Mrs. Howard, who underwent an operation in Marshfield last week is recovering nicely.

PRUNERS' QUARTET.

It is pleasing to learn from the Department of Agriculture that through the direct efforts of the department the house fly has been barred from 65,000 additional farm homes in one year. Indirectly, no doubt, the accomplishment has been far greater. And every gain made in keeping disease-bearing insects out of human habitations adds to the health, efficiency and longevity of the nation.

At the same time it may be observed that such work, as time goes on, becomes less necessary, because conditions themselves are changing. Flies are still a pest on farms, though by no means so great a pest as they used to be. In cities, except for the most ill-kept districts, they seem to be growing almost negligible. —Pendleton Tribune.

The coal strike has been settled. The railroad strike promises to be settled. But as far as the essential problem involved in both of these industrial walkouts is concerned, nothing has been settled.

And nothing will be settled until some proper labor court is established whose decisions are final, supported as other court decisions are supported, by the police power and by public opinion.

It must be plain to everyone that if something is not done, if matters are allowed to drift in the future as they have in the past, the inevitable outcome is anarchy. The present disclosures in Chicago supporting the charge that there is a wide-spread movement in this country on the part of radicals to capitalize industrial disorders, toward a virtual dictatorship of the proletariat, only adds emphasis to the gravity of the crisis. —Medford Mail.

DEFENDS DIRECT

PRIMARY SYSTEM

Oakland, Oregon, Aug. 25, 1922.

Editor News-Review:

Allow me space in your paper to defend an article I wrote to your publication advocating the improvement of the present primary against an attack by Riley Hammerley advocating a return to the old convention system.

I am not writing this article as a democrat or a republican, but as an American. There are democrats who are against the primary as well as some republicans.

According to my line of reasoning it is one of the most vital and far-reaching issues before the people of America. In his defense of the convention he says: "I think the saloon had a great deal to do with corruption in politics." So do I. Why did I go him one better and say the dollar is the cause of all corruption in politics?

The tricky politicians are the ones who generally have a surplus of dollars. Now, if those politicians can take the power of nominating the candidates away from the people and place it in a convention where there is a very small number empowered with the authority to nominate we are becoming less democratic and more corrupt.

This small number who have the power to nominate may be hand picked as of days gone by. Then representative government will only be a name and a mockery.

He says: "The state is safe-guarded by the wives, mothers and sisters voting at the present time." There will be no boss. When were women granted the right to vote, before or after Oregon adopted the direct primary? After, to be sure.

Is there a corrupt political organization, democratic or republican, in America that championed the cause of the women? You cannot name one.

farmer the last few years. All kinds of laborers have been faring well. His has been a poor job. The more discouraged is he when he remembers that the whole nation is depending on his work and that under no circumstances can it do without him.

To allow the farmer to become discouraged right now is to show lack of confidence in the producing powers of this great valley. —Harrisburg Bulletin.

ANTI-STRIKE LAW

The prompt enactment of a law specifically prohibiting conspiracies for interference with interstate commerce is urged by the Republican Publicity association, and a good many state papers are editorially endorsing the suggestion. That means an anti-strike law, and that will never do in this country, since it is a direct blow at personal liberty. The right of workmen to organize and to strike if they see fit should not be abridged by a law which would be despotic class legislation. Violence during strikes, however, should be suppressed with a firm hand, and we have sufficient laws for that, even if we may lack officials with backbone to enforce them. —Eugene Guard.

FEWER FLIES

It is pleasing to learn from the Department of Agriculture that through the direct efforts of the department the house fly has been barred from 65,000 additional farm homes in one year. Indirectly, no doubt, the accomplishment has been far greater. And every gain made in keeping disease-bearing insects out of human habitations adds to the health, efficiency and longevity of the nation.

At the same time it may be observed that such work, as time goes on, becomes less necessary, because conditions themselves are changing. LETTERS FROM THE PEOPLE

DEFENDS DIRECT

PRIMARY SYSTEM

Oakland, Oregon, Aug. 25, 1922.

It was brought about principally by legislators who were nominated by the primary. Why will there not be a boss? How many committee women has Douglas county? How many women candidates has Douglas county?

Very few of the first mentioned and not one of the last. To say the least they have more representation under the primary than they did in convention days. It appears to me that the men are very near running things any way. Some women are as corrupt as men although as a rule they have a higher standard of morals. Just as often as you make an opportunity for a boss, you'll have one.

Could you make a better opportunity than return to the convention system? It was a convention that steam-rolled Theodore Roosevelt and nominated Taft. In the following November Roosevelt received approximately 1,000,000 more votes than did Taft, besides T. R. was running on the progressive ticket. No doubt he would have polled more votes if he had been running on the republican ticket. This 1921 election is convincing evidence that the will of the people are not paralleled with the will of the people.

In this period of enlightenment it is easy to see, if we haven't the intellect to nominate we haven't it to elect our officials.

I move, if we turn our nominating over to a convention, turn the election also, then we can stay at home and work and make \$2 or \$3 per day per head and save Oregon \$500,000 or more.

C. E. GOODMAN.

ANSWERS CHARGES

Editor News-Review:

On account of the wide publicity given the matter, I ask space in your paper to make a statement with reference to a resolution said to have been adopted by the Roseburg Chamber of Commerce on the 18th, inst., and your comments thereon.

First, I will state the conditions at the Soldiers' home are not as stated in the resolution or in your editorial comments. It is admitted that many improvements should be made in the grounds of the home, but since I have had charge, everything has been done that the means available and the water supply would admit of.

Plans have been matured months ago to obtain ample supply of water from the river for the irrigation of fields and lawns, and for fire protection. Diagrams of the proposed water system have been submitted to the board of control who have acted upon the matter and will ask for an appropriation in the budget for the biennium of 1923-4.

In your comments you say, "For some time past the Chamber of Commerce officials have been attempting to have the court house and Soldiers' home grounds beautified, but their efforts have met with no success."

Just how the Chamber of Commerce officials have been attempting to have the Soldiers' home grounds beautified I am at a loss to know. Certainly none of them have ever at any time made a suggestion to me concerning improvements. On the contrary, I have heard many favorable comments on the improvements made on the grounds, gardens, fields, and cemetery.

I can say now that I would be pleased to have suggestions from the officers and members of the Chamber of Commerce and to that end I invite them one and all to visit the Soldiers' home, view the present conditions, and listen to plans for future improvements. I would be pleased to go before the Chamber at any time, and submit our plans for improvement at all times. But I do deprecate the resolution adopted by the Chamber on the 18th, inst., referring to the Soldiers' home, as unjust and unfair, both in language and statement. Evidently the resolution was intended to injure and not to obtain improvements.

I am informed that the Roseburg Chamber of Commerce has a membership of over 200, but that there were just five members present when the said resolution was adopted. Two active members and three just thoughtless. The resolution shows that someone had an axe to grind. If it was politics, it was dirty politics. If it was to satisfy a grudge, it was cowardly.

In conclusion, I will again say that I will be pleased to co-operate with the Chamber of Commerce in improvements at the Soldiers' home or in other improvements in the city of Roseburg, and that I desire to meet with the Chamber of Commerce at any time, but would prefer to meet with a more representative body than five members.

Respectfully submitted,

GEORGE W. RIDGLEY,

Commandant of the Oregon State Soldiers' Home.
