

6% loans to farmers!

Loans made by this bank may be paid off any time after five years--and the borrower may enjoy the unusual privilege of taking 33 years to repay his loan in installments. The loans are made under supervision of the Farm Loan Board--a bureau of the United States Treasury.

Do you want money on a non-maturing mortgage at 6% interest for a term of from 20 to 33 years, under an amortization plan, to

- refund an existing mortgage;
- improve the property you now own;
- buy more land;
- purchase equipment or live stock;
- provide buildings for your farm;--or for some other agricultural purpose?

Then write direct to us.

are expected to follow him out of office next January.

Adjutant General Puzzle.

The status of the adjutant general a position now occupied by George A. White at a salary of \$1800 a year, is also expected to come to issue in the general cleanup. Formerly an office at the disposal of the governor, an amendment to the state's military code, put through the 1921 legislative session, virtually gives White a life time lease on this highly desirable position. Whether or not this amendment will stand the test of constitutionality is a matter of some dispute in the minds of many who have given it consideration and a test of its validity is awaited with interest in many quarters.

The corporation commissionership, the office of state insurance commissioner and the position of state engineer, now filled by T. B. Handley, A. C. Barber and Percy M. Cupper, respectively, and each carrying salaries of \$2500 yearly are all regarded as highly desirable plums are at the disposal of the state's chief executive. The position of private secretary to the governor, now filled by Don H. Upjohn at a salary of \$2000 a year will also provide an opening for a supporter of the new administration.

Wardenship Changes.

Of the 11 state institutions only one is directly under the jurisdiction of the governor. This is the state prison with its wardenhip paying \$3000 a year and "found" and its several subordinate positions, all of which are regarded as political plums for the picking of the victor. The heads of the other state institutions are under the jurisdiction of the state board of control, including the governor, secretary of state and state treasurer, requiring the action of at least two of these officials to bring about a change.

In many quarters, especially in Marion, a vote against Olcott in Tuesday's election was a protest against what is characterized as the domination of state institutional affairs by Dr. R. E. Lee Steiner, superintendent of the state hospital for the insane, whose removal as head of this institution Pierce must at least attempt if he is to continue in the good graces of many of those whose votes contributed toward his election.

Removal of W. L. Kuser and Mrs. Kuser as superintendent and matron, respectively of the state training school for boys, is also expected to follow the advent of the new administration. In this move it is highly probable that Pierce would be supported by State Treasurer Hoff, who strenuously opposed the employment of the Kusers, who were brought to Oregon about a year ago to replace Mr. and Mrs. E. M. Gilbert and at very material salary advances. With combined salaries aggregating \$5000 a year and "found" these positions are regarded by many as the most tempting morsels on the state's political menu.

Prize Packages Many

State employees owing their attachment to the public payroll indirectly to their loyalty to the chief executive form a rather lengthy list. Among the most desirable of these might be included the following:

Master fish warden; appointed by fish commission at a salary of \$3600 a year.

Director of hatcheries; appointed by fish commission; salary \$3600.

State game warden; appointed by game commission; salary \$3600.

State health officer; appointed by state board of health; salary \$4000.

Secretary of state fair board; appointed by fair board.

These, of course, do not take into consideration the numerous appointments made by the governor to fill vacancies in elective positions, due to resignations, deaths, etc., a numerous list in itself in a four year term.

CHARLES E. HERRING

Charles E. Herring, United States commercial attaché at Berlin, has forwarded a report to the Department of Commerce in which he states that the German government is threatened with collapse and the republic itself is in grave danger.

VITALITY

! The Cave Man had no looks, no education, few comforts and knew nothing of hygiene. But in spite of his limitations he had one thing which some of his civilized descendants lack and that is sound teeth.

The reason for that was because he had a properly balanced diet.

It is today a recognized fact that a great percentage of human ills are traceable directly or indirectly to poor teeth.

Perkins Bldg.,
Roseburg, Oregon.

This space has been reserved for us in which to tell you from week to week the story of the New Fruit Marvel Date-Prune. Coates 1418. Trade Mark Reg. and Mitas insured.

Preserve each copy then you will have a connected history of the Prune with the Date flavor.

This New Fruit Wonder originated as a variation in a bud sport of the common French Petite De Agen Prune, in Santa Clara County, California, about twenty years ago.

About twelve years ago Mr. Leonard Coates of Merced, California, that Prune Idealist and Inventor began the work of bud selection to fix and standardize the type now known as the Coates 1418. This work was carried through three different periods of grafting and bearing, each time selecting from the true type, finally grafting over a ten acre Peach orchard in alternate rows with the best known types of the Petite Prune. It is from this orchard that we procure our budding wood for the propagation of Date-Prune trees sold by us.

Purchasers of Prune trees should beware of imitations or trees represented to be just as good as our Trade Mark registered, Coates 1418, none genuine without this trade mark label.

Write for Date-Prune Booklet giving full and complete history of this New Fruit Marvel.

Watch this space each week in Friday's issue.
