Entered as second class matter May 17, 1920, at the post office at Roseburg, Oregon, under the Act of March 2, 1879.

ROSEBURG, OREGON, TUESDAY, NOVEMBER 14, 1922.

THE NEW TYPE OF HOUSEWORKER.

For many years women have complained bitterly of the shortage of servants and the difficulty of finding satisfactory help in the home. While most women do their own housework now, a large number would have domestic helpers if the same could be hired at a moderate price. Since the war it has been hard to find them. Many women regret the immigration restriction that shuts off the Poles, Swedes and Finns, many of whom used to help in the kitchen. The wealthy get servants by paying a high price, but find that girls frequently refuse to do more than one line of work, and will take positions only as a cook or "second girl." The women of the future who desire a "girl for general housework" may have to take a different type of person. In the past her maid was apt to live entirely separate from the family. Often she had to work long and irregular hours. If she was a foreigner she might be content with her own independent life, but apparently this kind of help will be cut off for many years. To induce American born women and girls to become houseworkers, employment conditions must be as attractive as in stores and factories. Many homes secure them by taking them into their family life and assuring them a reasonable degree of recreation time. Many housewives complain that they can't find help that will do any hard work. This spirit was aggravated by war conditions, but eventually people will learn they must work to accomplish anything. Many women are much better fitted to housework than to business. If conditions are made reasonably attractive, they should not let any old prejudice keep them from an occupation that should be healthful and comfortable.

TESTS OR GUESS WORK, WHICH?

The more one studies the subject of road building, the more important becomes the matter of impact—the blow hit by the wheel, remarks an exchange. Official tests of impact of truck wheels on pavement have shown that with solid rubber tires this impact is in certain cases seven times the load on one rear wheel encountering an obstruction one inch high while running sixteen miles an hour. The effect of impact on rigid pavements, and upon resilient, shock-absorbing surfaces, is well illustrated in an article in the Engineering News-Record, covering a series of impact tests, which were made on different types of pavement construction, both rigid and resilient. The pavement test slabs were cast 3 ft. by 3 ft. in size, and, quoting from the article, the tests "were operated so as to drop a 125-lb. iron ball upon the center of the upper surface from a height of 6 in. at the rate of 30 blows per minute. In all cases, a specimen was considered to have failed when the first crack appeared." Six-inch Portland cement concrete sustained eight blows before cracking; six-inch asphaltic concrete sustained 380 blows before cracking. Traffic impact is simply a series of blows.

Thousands of communities conduct clean up days or weeks, and accomplish a great deal in promoting neatness. But there is a constant tendency for litter to collect. It needs something more than a spasmodic effort to keep it down. Streets are disfigured with scraps of paper and the refuse of the business district, thoughtless people dump stuff on vacant land, and disfigure their own property with all kinds of junk. W. S. McGrang of the New York Merchants association, writing in the American City, urges communities to organize anti-litter work as a permanent and continuous movement. He suggests that such an effort be managed by some representative of a community's business association. High school pupils, Boy Scouts, or other young people could be enlisted to inspect the city regularly and report accumulations of litter. Then the authorities should be notified to clean them up, or in many cases real estate owners could be induced to do it. Any city can become a spotless town through such an effort.

Tuberculosis is the worst physical peril that this country has to face. Losses due to this cause cost our business and production system more than any other form of disease. The leaders in the national anti-tuberculosis movement feel that it is a matter where the individual town, city, and county must look after its own conditions. State and federal help can assist, but municipal and county health authorities must do the bulk of the work in securing treatment for the incipient cases, and removing the causes that encourage the spread of this infection. There are about 1,000,000 cases of this disease in the United States, so it is a real peril in most climates that can not safely be ignored.

LETTERS FROM THE PEOPLE

Roseburg, Or., Nov. 12.
 Editor News-Review:—In answer to Brother Sebring's query, viz: "Why officers when arresting moonshiners fail in locating their still?"

First, a moonshiner usually loads his gas tank with his own fuel. All that is necessary for the officer is to listen and locate their exhaust. But it is the comes the sticker. The apparatus used in manufacture of this special juice is always "stuck."

Trusting this will correct the rattle in my friend's ear he complains of, I remain

J. W. TOLLMAN.
 (Highbrow extraordinary.)

ASKS FOR CORRECTION

Days Creek, Oregon,
 Nov. 11, 1922.

Roseburg News-Review,
 Roseburg, Oregon.

Gentlemen:—I noticed in your pa-

per of Nov. 9, under the heading "Quinn Believed to Be Elected," that you stated that Days Creek with several other precincts "placed all statements inside the ballot box and locked and sealed them up."

As chairman of the board here, I will say that we put statements and all other proper material in two separate envelopes and sealed them up. I gave them to Deputy Sheriff Frank Hopkins myself outside of the ballot box.

Out of fairness to the board at Days Creek will you kindly correct this mistake.

Yours truly,
 W. H. RAYMOND.

TO WHOM IT MAY CONCERN.

All parties are hereby notified that my wife, having left my bed and board, I will not be responsible for any accounts she may contract after this date.

C. O. MAUGHAN.

Own your own home, and see how good you feel. Page Lumber and Fuel company sells material to build them.

Prune Pickin's

BY BERT G. BATES.

GOOD EVENING FOLKS—

Kinda crimp in the air
 This morning but it
 Made us hustle around,
 Build a fire,
 Get to work on time.

By the way, where is Fatty Arbuckle?

A feller told us today that some of the local boys with marcel waves in their locks same by turning summersaults on corrugated tin roof in their youth.

Thanksgiving turkey will soar to the top branches of the price tree according to authentic reports, all of which has not caused us much worry because if some kind reader doesn't donate we'll be eating the usual roast pork.

The murder epidemic ended simultaneously with the election and we're glad they're both over.

But the population was evidently getting too thick and an earthquake happened along down in Chile and knocked off about 2000 folks. What next?

According to our way of thinking a spotter is the biggest criminal of the two.

A feller called up our sanctum last eve and wanted to know who was the president of France and we got excited and answered Sikl.

We wish folks wouldn't consider us as an information bureau all the time because sometimes we make mistakes like ordinary intelligent citizens.

The new speed cop motored down the main drag this a. m. and the townfolks nudged each other and said, "There he is."

Ye ed. is going to be placed in the intellectual class the latter part of the present week when we are initiated into the Hammer and Coffin fraternity at the school of cultivation. We will then be able to hock the engagement ring we gave our wife and pin the fraternity emblem on its stead.

WHAT MADE IT THUS.

The golfer knocked at Heaven's portal. St. Peter admitted him.

"And now where's the course?" asked the niblick hound.

"We have none here," said the gate-keeper.

"No golf links?"

"No, but they have a fine one in the other place."

"Then, I'm sorry, but I guess I'll go there."

Arriving at the gates of Hades, the applicant was admitted by Satan and shown, at his immediate request, the links. Beautiful fairways, intriguing sand-traps, wonderful water-hazards, billiard-table-smooth greens.

The golfer rubbed his hands and said:

"Now for the clubs."

"There are none," said Satan.

"That's the Hell of it."

A wee tot returned from Sunday school to be asked by his father what he had seen and heard. The child recalled only one feature of the sacred service, a song about "A Consecrated Cross-eyed Bear."

"Goodness, Anastasia, your stockings are wrong side out."

"I know it. My legs got warm and I turned the hose on them."

A new planet has been discovered and named for Hoover. That is all right, so far, but we hope that America will not be expected to furnish food for it this coming winter.

Native—"There are the Oldboy twins. They are ninety-eight years old."

Stranger—"To v. do they credit their long lives?"

Native—"One 'cause he used ter-backer and one 'cause he never used it."

We met a woman this summer who had an original scheme for breaking in new shoes.

She says she wears them during thunderstorms and is so afraid of the lightning that she forgets all about her feet hurting.

Out of the six hundred wives of King Solomon probably fifty did nothing but tell him where he could find a clean shirt.

Judge Stewart was fined a buck on the main stem Armistice Day for "hanging out" at the "Bucket of Blood" and the judge says the fine was too small.

POEM BY ONE OF OUR YOUNG READERS.

When my mother makes a checklist I certainly look enticing,
 And she gently knows I thawt so by the finger marks on the icing.

A general walkout of the I. W. W. is scheduled soon and the only walk-out of that sort is off the end of a gangplank.

Most of us have the secret hope that someone will erect a statue of us after we pass in the checks.

We'll be glad when the campaign stogies give out and the boys around the joint get to smoking perfectos.

LAPE PERKING SEZ:

"Long skirts will shorten men's looks."

Here the chimers at the Baptist church tonight.

"11" cigarettes

They are GOOD! 10¢

Commander Owsley Takes the Reins

INDIANAPOLIS, Ind., Nov. 14.—State and city officials of the American Legion with members of the national headquarters staff welcomed Alvin M. Owsley, newly-elected Legion commander, to Indianapolis this week where the Texas orator has assumed his duties as head of one million ex-service men.

Led by a color guard of Marines, bearing the Stars and Stripes and the Legion national headquarters banner, and the 11th Infantry band, stationed at Ft. Benjamin Harrison, a parade was formed from the Indianapolis Union station, thru the downtown streets to the national headquarters building.

One of the first acts of the national commander was to announce the appointment of Garland W. Powell, of Cumberland, Md., as director of the Legion's national Americanism commission. Mr. Powell has been assistant director of Americanism during the last year. He was an aviator and fought in France.

The Legion commander returned from New York where he and Lemuel Bolles, national adjutant, made farewell to the 23 foreign delegates who attended the recent International Veterans' association convention in New Orleans.

"This international organization of world war fighters has the greatest possibilities in developing world peace," the commander stated. "The men who fought the war are the men who can keep the peace. Their recent convention at New Orleans marks an epoch in the history of efforts towards international peace."

Commander Owsley eulogized the splendid work of the American delegates to the international gathering, praising their stand against secret agreements and their assistance in drafting the eight points upon which the association pins its hopes for world peace. The members of the American delegation were: L. R. Glenhill, H. Nelson Jackson, Gilbert R. Bettman, Dan Hollings and R. E. Gordon.

A committee has been appointed by Commander Owsley from the members of the board of directors of the American Legion Weekly to investigate plans for the removal of the Weekly from New York to Indianapolis, which was authorized by the recent Legion national convention.

DUO ART CONCERT.

Alice Lavina Andrews, (mezzo contralto) assisting artist. Presbyterian church, Thursday, Nov. 16, at 8:15 p. m. Do not miss this educational musical treat. It is free. Invitations and programs can be had at Moore Music Store or phone Mrs. L. B. Moore, 502.

Want Oregon Railroads Extended

WASHINGTON, Nov. 14.—An order requiring railroads operating in Oregon to build several hundred miles of new line within that state was sought today from the interstate commerce commission in a complaint filed by the state public service commission.

The new railroad lines are necessary, the state authorities allege, to develop some 22,500 square miles of territory to open up large timber tracts and give the stock industry proper transportation facilities. In addition, the state contended that the present facilities impose undue burdens on shippers because freight shipments have to be consigned over circuitous routes and that the military interests of the U. S. require a north and south line of railroad just east of the Cascades.

The construction proposed would include a line from Oak Ridge, a terminal of the Southern Pacific, east-

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, prepared a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for cathartics, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 15c and 50c.

ELKS' DANCE WEDNESDAY.

Elks' dance and chicken tamale feed Wednesday evening, Nov. 15. Progressive card games with prizes. Dancing promptly at 9 o'clock with the Umpqua Five Orchestra. The committee wants all Elks to be present.

ward to Crane, a terminal of the O. W. R. & N. Co. A second line crossing this should run from Bend, a terminal of the S. P. & S. railroad to Kirk, another Southern Pacific terminal.

The state also asked for several branches reaching out from the main stems. No estimates were made as to the distances involved or the cost of construction. The roads which would be required to participate in the new construction are the Central Pacific, Oregon-Washington Railroad & Navigation company, Oregon Short Line railroad, Oregon Trunk railway and Deschutes Railroad company.

NOTICE.

A special communication of Laurel Lodge No. 13 A. F. & A. M. will be held in Masonic Temple Wednesday, Nov. 15th, 1922, 3:00 p. m. Work in M. M. degree. Lunch will be served 6:30 p. m.

Feed oats, per 100, \$1.90.

Flour, soft wheat, \$1.65 a sack.

Flour, hard wheat, \$2.00 a sack.

Why the Nation Demands Calumet

BEST BY TEST

—because it has more than the ordinary leavening strength; it raises millions of bakings every day to a high perfectly baked perfection that cannot be equaled.

—because it contains what of-egg—the vital element that gives the housewives protection against using a baking powder that has lost its original leavening strength.

—because it is economical—pure, sure and wholesome.

That's why the sale of Calumet is over 150% greater than that of any other baking powder.

A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce cans instead of 16 ounce cans. Be sure you get a pound when you want it.

Strawberries in November—

Ripe strawberries in November are something of a novelty in most localities but the thing frequently happens in Douglas county, where not only late berries are found, but the first Oregon grown fruit of the season annually goes from the Umpqua valley to the Portland market. J. W. Hall of Bowen street, this city, grows the Everbearing variety of strawberries, and yesterday picked a box of ripe fruit and presented it to the News-Review.

Return from Portland—Mr. and Mrs. Lyman Spence have been visiting in Portland and returned to this city.
