THE HOME WORK HABIT

Since wages went up in war time, many people have growled a great deal because it has cost so much to hire work done about their home places. Yet if they have been forced to take hold and do odd jobs and household tasks for themselves, they may have added years to their lives.

If you study the history of any successful man, you almost invariably find that his rise in life is due to something other than mere good fortune. Most men who have gone ahead have worked very hard for their results.

Many valentines are still sold by the stores, but they do not seem so loaded with sugary sentiment as formerly. They are a means for exchanging pretty and graceful compliments, and for children to remember kid friends.

According to the verdict of the lower house at Salem there will be no paid state highway commission. It was declared by those opposing the measure that a salary of \$3500 a year would not invite the proper calibre of men to supervise the state highway program in Oregon.

We wonder if the proponents of Oregon's income tax measure really understand what they have composed? Quite likely they are as much at sea as a few of the rest of us.

Oregon's proposed income tax measure reads like a Chinese puzzle, and if it goes over it will puzzle some people how to get the money to pay their income tax.

Dear Folks:— I have just received a letter from a lad who signed his name and he says "Dear Friend, for twenty years my back's been sick and lame and I'm handicapped in many things that I would like to do and they're days when I'm despondent when I feel so mighty blue that it seems the world's against me so I wish that you would write just a few good words of courage, for it seems to me they might be of help to many others who are looking round in vain for a happy spot to cheer them in their suffering and pain."

The air in the room was so close and so hot, It gave me an ache in my lid, I soon felt so sick—believe it or not—I threw up a window—I did.

The Ore. legislature is still in session and it is hoped that the wives of the solons get tired of packing in the wood at home and call their hubbies back on the job.

Finis Dillard, constable with a regular star, says pannin' for moonshine beats the other kind of mining all holler.

"Two Gun" Hopkins has stepped down from the limelight in favor of "Six-shooter" Isen.

The Legion fellers caravaned to Oakland last night and "showed off" before the populace of that village much to the delight of themselves and a few who were acquainted with their tactics.

Mrs. W. R. Conlee, who has been visiting in Portland for some time with her husband, W. R. Conlee, who is now employed in Portland, returned today to her home in this city.

The ice man had the crust to solicit his trade this morning, receiving the cold shoulder at almost every turn.

The spring season will probably bring on the usual crop of liars—the golf hounds and fishermen.

If the handkerchief supply holds out for another two weeks it is predicted that we'll all pull through our annual sneeze with few bad results.

The proposed new law against bootlegging is said to be very drastic, which is hailed as good news by the daredevil moonshiners who believe that severe laws will cut down their competition and render them a profitable business.

Mister Hamm, who teaches reading, riting and such around the village, dropped into our sanctum today and wanted to trade us some text books for a subscription. Can't blame him tho', cause quite a few of the fellers try to trade us cabbages and such, and phaps Mister Hamm figgers we need a little education along with our appetite.

First we introduced late Perkins in this column and then one of his kin, Dumbell Dora, and now we take the extreme pleasure in introducing to you her brother, GOOFY GUS, the inventor.

An automatic fly swatter which works with trip-hammer effect, the spring being released when the fly places his left foot on the peddle, which is concealed beneath a pound of butter. The fly is so surprised by the sudden action of the contrivance that he dies of heart failure.

Johnny Lloyd is considering taking over the management of the South End baseball team this season and is making arrangements this week to lay out a diamond on someone's vacant lot. Police Hold Beauty Of Original Floradora Sextet As Murderer

Above—THE ORIGINAL FLORADORA SEXTET WITH MRS. MARY WELLS ON RIGHT END. BELOW—THE GUN WHICH SHOT PETTIT BEARS TELL-TALE FINGER PRINTS— NEW YORK—Fingerprints on a gunstick—the same gun which killed Capt. James Pettit, to the arrest of Mrs. Mary Elizabeth Wells, who twenty years ago was captivating "Billie" Wells of the original Floradora Sextet. Pettit, well known in Long Island sporting circles, was killed with one of his own shotguns. The fact that he was so thorough a gunning enthusiast may have resulted in revealing his slayer, for he had covered the barrel and stock of the gun with vasoline to prevent rust, and on this covering of grease the fingerprints were found. A woman of striking appearance even today, five feet six inches tall and crowned with abundant auburn hair, "Billie" Wells is a well known figure to patrons of the Massapequa Inn at Hempstead.
