A Spanish Queen and American Women

A queen of Spain once burned up because no noble was there to open the door for her. That she could open the door herself was a thought that never occurred to her.

The self-reliance of American women is a universally recognized trait, and they know what they want—and get it.

One of the chief things a housewife wants when shopping is good values at low prices. She finds both in our merchandise, so she buys here. Self-reliant women are buying at our 371 Stores.

Knowing that carrying her own parcels eliminates delivery costs, which, in turn, means lower prices, she is perfectly ready to do her own delivering. More self-reliance.
