A DECALOG FOR WIVES

The Legal Aid Society of New York recently issued a list of Ten Commandments for wives, a set of precepts by which women can do their part toward a harmonious married life. Economy, neatness, loyalty, and cheerfulness were perhaps the most important of these principles. If a wife is lacking in any one of these four qualities, the prospects for a happy home are much less. Also it could be added that ability to cook appetizing food with a willingness to take pains enough with kitchen work so that the husband can be sure of good things to eat, is a wonderful force making for domestic happiness. Many a love nest has been spoiled by soggy muffins and half cooked meat. The wife whose heart is not in her home life, who is discontented and sour because she has to perform the menial tasks of housework has a poor chance to make a man happy. Domestic cares seem like dreary drudgery to many women in these times. Girls who have worked in their stylish clothes in business offices and had interesting friendships with the men and women they met in such duties often feel rebellious at the narrowness of domestic life. It seems awfully tame to them, after their experience in the world of business, to settle down in a kitchen, put on a soiled apron, and pursue the uninspiring task of washing dishes. It takes a little imagination to make that change, and the young house wife needs to idealize her home, and make it the center of her loving devotion. If she has the right temper for married life, this little home will be a very dear thing to her. Every well cooked meal and every struggle with dirt and disorder will be an achievement in which she will take pride. When she gets that point of view, she will have a radiant smile for her husband that will make the home a very dear place to him. Husbands, too, need their Ten Commandments, but that is another story.

Just what there is in the nature of that former luxury—and price—sugar, that periodically brings about wide fluctuations in its price, does not seem to be known, remarks the man—farmer. Whether owing to Cuban insurrection, decreased supplies of beet sugar, or partial cane crop failures, prices of sugar have varied greatly. After a period during which it has been sold at a price said to be much below the cost of production it is now attracting attention by a marked advance. The post-war speculation, or apprehension of a possible world-wide scarcity of sugar, forced prices up to 20 and even 25 cents per pound, with the immediate result of disclosing large stocks in unsuspected regions, that brought about a collapse in price. Spurred by the expectation of high prices, the chief sugar-producing countries increased their crops to the utmost, and in consequence a large portion of the Cuba crop of 1921-1922 was sold as low as two cents per pound. Had prices remained anywhere near that figure, the production of cane and beet sugar in the United States would have been made impossible even with the protection afforded by the tariff on foreign sugars. The gradual recovery in sugar prices from their lowest point a year or so ago indicates that the law of increased consumption following reduced costs applies to sugar, as well as other staple commodities.

Dear Folks:

I met a man the other day and looked at him in blank dismay for 'pon my soul he had a face so homely that it seemed to chase all other thoughts from out my mind and tho his voice was calm and kind I felt that he would go through life alone and never have a wife.

But as we talked on this and that he suddenly took off his hat and on his face there came a smile that seemed to stretch about a mile. For there beside him calmly stood—I wish to goodness that I could describe in writing what she was—but words would never do because she seemed to be almost unreal, and somehow sort of made me feel as tho I was an awful chump, for in my throat there came a lump that tied my tongue and made me blush. Oh well I knew she saw the flush, because she smiled a little bit. She'll never know how I was hit.

Her beauty was so rich and rare that folks would stop to look and stare. But every gaze she simply spurned, then to the homely man she turned and said "What luck to find you here. I hope you haven't eaten, dear, for somehow I've a little hunch you'd like to take me out to lunch."

And when "This is my wife" he said, all I could see was spots of red, so as I slowly walked away, said I "Tonight I'm going to pray that someday I may be a man, so big, that some sweet woman can look up to me with tender pride and love me, just for what's inside."

LONDON WOMEN'S STYLES
DRAW ON LAST CENTURY

(International News Service.)
LONDON, March 27.—Women are to wear the "pouch" hats and poke bonnets of the twenties and thirties this spring, according to the latest fashion display.
The "controlled" look of the twenties is being revived in the new styles. The new hats, which are very different in shape from those of last season.
Many new styles are being shown, but the most notable are the "pouch" hats and the "poke" bonnets. These are being worn by the most fashionable women in London.
The "pouch" hats are made of felt and are worn with a large bow. The "poke" bonnets are made of straw and are worn with a large bow. Both styles are very popular and are expected to be worn throughout the spring season.

A. C. MARSTERS MAY
GET APPOINTMENT

SALEM, Ore., March 26.—H. B. VanDuzer, of Portland, today was appointed state highway commissioner by Governor Pierce to succeed John B. Yeon whose resignation reached the executive department this morning. Under the terms of the commission issued to Mr. VanDuzer he will serve out the unexpired term of Mr. Yeon which ends at midnight March 31. He then will be reappointed for the four-year term.

Appointment of a highway commissioner to succeed R. A. Booth, chairman of the body, probably will be deferred for several weeks according to reports current here today. Three men have been mentioned in connection with this office, including A. C. Marsters, Roseburg banker, Frank Miller, of Albany, ex-member of the Oregon public service commission and Wade Malone at one time county judge of Benton county and at present engaged in the contracting business in Corvallis. Rumors in circulation here indicate that Mr. Malone has the inside track in that he has had considerable experience in road building and has the support of most of the residents of Benton and Lane counties.

A delegation of Douglas county people passed through Salem enroute to Portland to confer with Governor Pierce with relation to appointing Mr. Marsters a member of the highway commission. Mr. Marsters recently was named a member of the Oregon state fair board.

QUINE CALLED TO
MEET COMMISSION

County Judge George Quine left last night for Portland in response to a message received from the state highway commission asking him to attend the meeting which convened there this morning. He was asked to bring data and information on the Roseburg-Redwood road and it is hoped that some action can be obtained complete that project during the coming summer. He took with him all of the maps and detailed information obtainable and will be ready to present complete information on the project. District Attorney George Neuner is also in attendance at the meeting and the county will be well represented in the consideration of any plans relating to work in this county.

DO NOT CONFLICT

Religion Deals With Life to Come
But Rotary Deals With Present Life Only.

TACOMA, Wash., March 27.—Raymond M. Havens of Kansas City, Mo., president of the Rotary International, at the Rotary district conference here today stated that Rotary International does not conflict with religion, "for it deals with this present life only."

He said: "International Rotary allows no retreat; it does not recognize hermit loneliness. It is free from fatalism and predestination of classic ethics. To men of honor it is not easy. The battle of the spirit must be fought against our fellows. We Rotarians do now want to be easy. We must serve our fellows to prove the worthiness of ourselves."

"We all realize, as Rotarians, that poor, weak mortal man can plant his feet firmly upon this earth, but he can also lift his eyes to the stars and grow more constantly in stature. So is our opportunity to grow in the life of Rotary; thinking fundamentally, we can conceive internationally. It will give us an opportunity to grow within ourselves, seeing things in an entirely different light than we ever saw them before. We sometimes think that our puny efforts do not move harmony and do not accomplish results that we desire; but constant practice, even in a small way, will grow to proportions and make a realization of Rotary ethics throughout the world."

"This statement that I am about to make, may not be entirely approved by you, but Rotary International is something far greater than Rotary itself; it is therefore the highest degree of Rotary, for it confers the consciousness of being a citizen of the world, with the vision far greater than we ordinarily have when we confine our activity to our own community and club life; that is only a part of the building of this tremendous idea of Rotary International."

NOTICE EXTERMINATE GROUND
SQUIRRELS

Every person, firm, co-partnership, company or corporation residing on, owning, leasing, occupying, possessing or having charge of, or dominion over any land, building, wharf or dock infested with digger ground squirrels in Douglas County, Oregon, is hereby notified to begin at once to effectively exterminate and destroy all such DIGGER GROUND SQUIRRELS.

The following poison for mixing and instructions for use thereof is the method most excellent and effective to be used for the extermination and destruction of such ground squirrels and is hereby recommended, to-wit: alkaloid strychnine used on either barley or wheat, barley preferred, mixed according to the following formula and manner, to-wit:

Barley, clean grain 16 qts.
Strychnine (Powdered Alkaloid) 1 oz.
Bicarbonate of soda (baking soda) 1 ounce
Thin starch paste 3/4 pint
Heavy corn syrup 3/4 pint
Glycerine 1 tablespoonful
Saccharine 3/4 ounce

Mix thoroughly in a clean vessel 1 ounce of powdered strychnine (alkaloid), 1 ounce of common baking soda, and 1-8 ounce of saccharine. Over this pour 3/4 pint of thin, hot starch paste and stir well. (The starch paste is made by dissolving 1 heaping tablespoonful of dry gloss starch in a little cold water, which is then added to 3/4 pint of boiling water. Boil and stir constantly until a clear thin paste is formed.) Stir in 3/4 pint of heavy corn syrup and 1 tablespoonful of glycerine, making sure that none of the heavy syrup paste sticks to the bottom of the container. Pour this mixture over 16 quarts of good cleaned barley and mix well so that each grain is coated.

From the date hereof until May 1st is the most effective time to poison and destroy the digger squirrels, as they are just emerging from their hibernation; they are hungry and food is scarce.

This notice is published pursuant to the statute in such case made and provided and for two consecutive weeks or three issues, and all persons described herein are required to take notice thereof.

Dated and first published this 20th day of March, 1923.
