Entered as second class matter May 17, 1920, at the post office at Roseburg, Oregon, under the Act of March 2, 1917.

ROSEBURG, OREGON, WEDNESDAY, APRIL 18, 1923.

PLAN TO EDUCATE VOTERS.

"Enlightened voters will rule public affairs and unenlightened voters will be misguided, led and controlled by demagogues." Recognition of this fact is the basis of a new organization for the development of enlightened and active voting at all elections.

Direct participation in governmental affairs by every citizen, old or young, and without distinction of sex, is the object of Uncle Sam's Voters, a national non-profit federation that has just been organized with headquarters in Washington, D. C. It is designed to aid in the solution of local, state, national and international problems by bringing the collective intelligence of the country to bear upon them.

Governors of all the 48 states will be asked to serve on the advisory board, and representative citizens, men and women, from every walk of life will round out that board to a total membership of 100. In addition to the present voters, special efforts will be made to reach young men and women approaching voting age, and aliens eligible for citizenship.

In New York city in 1871, 241 out of every thousand babies died before they were a year old. In 1922, only 71 out of every thousand of such infants died. That shows what health campaigns can do. If a great and crowded city can make such gains in public health, it should be still easier to improve conditions in places where less congestion exists.

Somebody got the impression that somebody said there were upwards of two hundred whiskey stills in Douglas county. We don't know who took the inventory, but we'll bet dollars to doughnuts that the whole number would not exceed a half dozen—and a small half dozen at that.

The broccoli crop just harvested in this county has brought to the growers over \$150,000. Next year the income from this source will probably be doubled, as more acreage will be planted. The industrious farmer that has a few acres planted to broccoli realizes a neat sum of money at a time when there is no income from other crops, and thereby gets a good financial bearing to carry him over the dead months in the year.

When those dancing fools get over the habit of making world records some "nut" will start a new wrinkle in world affairs to get on the front page. You can't keep 'em out of the limelight.

If your business does not seem up to normal, try a little advertising. It's a wonderful stimulator for a dull day.

Well, we have the baseball season with us again, which will throw a thrill into the fans—every now and then.

After three days prediction we finally got that rain. This is hitting it pretty close at long range.

The growth of agriculture lies the Nation's peace of mind, the Farmer and his problems we are apt to leave behind when we think of all the reasons that make business good or bad. Every dollar that we earn depends on what the Farmer had in the way of staple profits from the selling of his crops, for his money makes a living for the banks and barber shops.

They the millions will be doubled by the second man who spends, they'll be tripled by the third one, and the circuit never ends, for the last of those who get it, buy some corn, and wheat and grain. It returns back to the Farmer, then goes shooting out again.

Thus the dollar more per acre mounts to billions worth of 1740 that depend on agriculture, and the profits that are made by the Farmer to the country with his planting and his plow, with his chickens, hams and turkeys, with his dairy work and cows. Keep your eye on agriculture, boost its worth up to the sky, when you see it climbing upward, you will meet the man who buys.

PRUNE PICKIN'S

BY BERT G. BATES

GOOD EVENING FOLKS—

Civil's bathing suits This summer are To have arms But very little else According to The advance photos Received from our Fashion artist.

DUMBELL DORA THINKS

That the Rock of Ages was the great California earthquake.

The proverbial sinker, a dash of java and a jag of ice cream were partaken of last eve by the former gold-fish hounds of the county who gathered at the armory with their less fortunate wives, families and sweethearts to engage in a festive shindig. An enjoyable evening was had by all according to unconfirmed rumors reaching this cunctum at an early count today.

Say it with moonshine—the flowers will come later.

Some fellows who think they can run the village and who attempt to do so by poking their nose in everybody's business are really just as important as a single drop of grease under a great big flapjack.

If they keep on addin' on stories onto buildings here in Roseburg we'll soon hafta walk out to the middle of the main stem to see the top of 'em.

The Portland ball team lost yesterday causing J. W. Perkins to donate one buck to this sanctum which will be used to keep the wolves from gnawing at the pillars of our domicile.

Many a large man physically is so small mentally that he could rent the rest of his skull for a ball-room.

Now while we're on the topic of new lighting fixtures for the village we would suggest to our City Dads that we purchase a few kerosene lamps and give some of the knockers the job of going around lighting 'em at 8 o'clock every evening and blowing 'em out at 4 a. m. every day.

In love letters "XXX" marks the spot where the man falls.

FRANK AND SANE

"So you claim to know all about finance?" "No," admitted Farmer Cornstass. "I'm free to confess some of us farmers who talk about finance don't know any more about the subject than some of the financiers who talk about farming."

The moral breakdown is general. There are not even as many upright pianos as there used to be.

Jackie Googan says he doesn't want to be president. Jackie is wise beyond his years. Who'd want to trade his \$1,500,000 per year for a mere \$75,000.

Ships may continue to pass in the night but not ship subsidy bills.

That his idea of a scientific nut is the fellow who tried to graft a strawberry plant to milkweed, to get strawberries and cream.

Why not try a little Couism on the weather? Maybe day by day in every way it will get warmer, by and by.

NOR DELAYED BY "BLOW-OUTS" The man who pays as he goes is seldom arrested for speeding.

No doubt Laddie-Boy is willing to consider running for a second term.

Although it's surely good to hear That crime is on the wane, Before long every woman will Be holding up a train.

HOW COME? The phrase, "How Come?" often pronounced, "Huucome," has long been used in certain parts of the south as a synonym for why. When someone asked Simon, the village simpleton, why he used the word he replied: "Huucome you ax me huucome I say huucome."

The old gray matter as well as the old gray mare ain't what 's-c used to be.

You can bet that the average hen-pecked Roseburg man scratches around a bit when he is away from home.

A girl performed at a circus last week, balanced a table and four chairs on her head and climbed a ladder with all of them. She ought to be an admirable housewife at moving time.

NOT ENVY Y UNDERSTAND I do not covet Johndee's roil. There lurks no envy in my soul, but I would like a powerful lot To have as much as Johndee's got.

DEDICATE ALL TO COUNTRY'S SERVICE IS AIM OF LEGION

"To such a task we dedicate our lives and our fortunes, everything that we are and everything we have, with those who know that the day has come when America is privileged to spend her blood and her might for the principles that gave her birth and happiness and the peace which she has treasured. God helping her, she can do no other."

ADVICE TO THE LOVELORN

by MRS. ELLSBURY

(Address all communications to Mrs. Ellsbury, care of News-Review.)

Dear Mrs. Ellsbury: I am an admirer of your column, and think that the advice you give people is fine. I am writing to ask for a little advice on my own problem, which I hope you will give me.

I have a daughter of my own, by my present husband. I was married many years ago, and my husband and I adopted a little boy. My husband later died, and I had to work; the boy was taken by my husband's sister, and has made his home all these years with her. He is now 21, and as his aunt is dead, he has come to make his home with us. He has been with us a year. My husband likes him. My daughter is 20 years old, and lately it seems to me that they are falling in love. I am not sure that they know it, yet, but I see it coming very surely. Would people think it odd if they should marry? Would it be wise to send my girl, or the boy away for awhile? I have watched the boy carefully, and find nothing objectionable about him. He has good blood and splendid upbringing. It seems alright to me, and I am wondering if you will agree with me.

Arr, I think it would be a very nice arrangement if they should fall in love. You would lose neither one of your children then, and would have a very nice family. I would counsel them to wait if they decide to rush matters. They are both young, and should be sure that it is not just propinquity that has made them believe that they are in love. Perhaps it would be wise to send your daughter away for a visit. Give her a chance to be sure that she is in love. If she really is, she will be more sure of the fact, and if she is not, she will also find that out.

TODAY'S MARKET REPORT

Prices Paid Farmers for Produce. Butter, 26c lb. Battered, 40 cents. Eggs, 17c per dozen. Hens, heavy, 14c lb; light 14c lb. 1923 Broilers, 30c lb. Veal, dressed 30 to 32c lb. STRENGTH AND SAFETY IN THE BODY OF STEEL

If you could see the main body structure of Dodge Brothers Business Coupe before the enamel is baked on, and before the interior is furnished, you would be profoundly impressed by its strength.

You would see that every panel, every pillar, and every rib is steel—that even the door sills and window moldings are steel.

You would see that all of these parts and sections are electrically welded together into one staunch steel body, with no bolts or rivets to work loose, nothing to rattle or squeak or warp.

And you would realize that, like the all-steel Pullman coach, this unique construction—originated by Dodge Brothers for this car—represents the last word in protection to passengers—the ultimate achievement in closed car sturdiness.

J. O. NEWLAND & SON DODGE BROTHERS DEALERS ROSEBURG, ORE.

Today, suffice it that more than one hundred thousand of them are dead and many hundred thousand more carry physical and mental scars of their service. And it was all for what? In the first place for victory. That, after all, was the fundamental objective of the war, and it was won.

Advises Young Mothers

Portland, Ore.—"It surely is a pleasurable duty to recommend Dr. Pierce's Favorite Prescription to mothers and prospective mothers, for I found in this medicine a wonderful help during expectancy and afterward. I was physically frail and feared the consequence of motherhood, but I gained in physical strength. The tonic effect of the Favorite Prescription, together with the 'Golden Medical Discovery' overcame the general weakness I had. Nature was greatly helped thru expectancy and I shall always have a good word for Dr. Pierce's medicines, because they have been so much help to me, just at the time I most needed strength."—Mrs. Wm. Bradley, 545 Albina Ave.

PROFIT THIS WEEK BY BUYING HERE
