### Spring Fashions for Milady

Frost bitten noses, wind blown locks and shivering ankles add an appealing touch to the spring fashion parade which valiantly comes forth each day despite the wintry blasts. It is true that Old Sol shines down in all his glory the greater part of the time, but the temperature of the past few days has been just a bit chilly for the thin knit frocks, the printed silks, and the lightweight suits the followers of Dame Fashion must have to pay homage at the shrine of spring.

Many of the more conservative have contented themselves with a new close fitting hat, fresh light gloves and blouses, and are waiting for the real breath of summer before venturing forth in the styles of spring. Gray costumes over all others project a strong season for gray. There are many gray suits, made very plain and tailored with fingertip length jackets. With them are worn small gray cloche shaped hats, which keep their trimming in gray tones. Occasionally a hat of mountain haze or orchid gives an added touch of color to a gray costume. The long gray coat with straight lines offers an interesting style note. Coats of this type seem quite as popular as the black fringed capes of last season. Many of them have corded collars of the soft material, while others have collars of gray squirrel or platinum fox. One of the most unusual of the gray coats has a flounce silhouette, being quite tight fitting until it reaches below the knees and then flaring in a full circular flounce.
