### Oats now ready before coffee

There is now a Quick Quaker Oats which cooks to perfection in 3 to 5 minutes. It is the quickest cooking oats in the world.

The same extra quality as in regular Quaker Oats. Flaked from queen grains only—just the rich, plump, flaky oats. They have the same exquisite flavor which won the world to Quaker.

But in Quick Quaker the oats are cut before flaking. They are rolled very thin and partly cooked. So the flakes are smaller and thinner—that is all. And the small thin flakes cook quickly.

Grocers have both styles—take your choice. The Quick style has "Quick" on the label.

### It is Cheaper to Renew than to Buy new

### Delay means Decay

DECAY will not wait for paint to get cheaper. Good paint saves metal and wood surfaces from decay. Delay saves nothing—it wastes. Avoidable repairs cost money and take time. They were never justified in normal times, neither are they now. Every thrifty home and farm owner knows that to use good paint, where needed, is the cheapest in the end policy.

Heath & Milligan Paint Products are good and dependable. Each one, and there is one to meet every need, is the equal in every respect to the highest grade product made, representing, as you no doubt know, 68 continuous years of paint making experience. They spread easily and over a greater surface, hide better, and wear longer. To be sure of durable, economical, and lasting results, always look for the dependable trademark on the package before you buy. When undertaking an important job, your painter's advice is good advice to follow. A few of the best known of the many Heath & Milligan Paint Products are:

- Best Prepared Paint for all outside surfaces, such as houses, barns, garages.
- Auto Finish for automobiles, motorcycles, carriages.
- Wagon and Implement Paint.
- Porch and Deck Paint for outside steps, porches, etc.
- Croolite for inside floors.
- Sunshine Finish for renewing old furniture, floors, and woodwork.
- Flat Wall Finish for walls, ceilings, and woodwork.
