Thompson. With Lorain County's population less than one-tenth what it was 50 years ago, records show that 177 divorces were granted last year, compared with 22 a half-century ago. Last year there were 559 marriages, compared with 455 in 1872. Most of the marriages 50 years ago were consummated when the parties were very young. Today many of those married are elderly persons.
