HON. O. P. CUSHOW TALKS ROTARIANS

Law Enforcement Discussed—Members Plan for Interstate Meet and Boy Scout Encampment

At today's luncheon of the Rotary club the members were pleasantly entertained by an address given by Hon. O. P. Coshow on "Law Enforcement." The speaker pointed out the laxity on the part of our people toward enforcing our laws, and referred especially to the constitution amendment to the constitution, saying that the people of this country cannot violate any laws without bringing the nation into disrepute. No matter whether the laws invoked are entirely to our liking, this is no excuse for disregarding them. Other and more proper means are afforded in the way of legal action to repeal them, but while they are in force it is the duty of every loyal American citizen to uphold them to the fullest extent.

WEEKLY GIVEN 15-YEAR TERM

Glendale Bank Robber Sentenced to Penitentiary for Long Period

GRANT PLEADS GUILTY

Reedsport Man Charged With Crime Against Girl Changes Plea—Will Be Sentenced Tomorrow

Clyde Weekly, alias Clyde Larsen, Glendale bank robber, was today sentenced to 15 years in the state penitentiary by Judge Kendall, who opened a special term of court here today. The grand jury this morning returned an indictment charging Weekly with the crime of robbing while armed with a dangerous weapon, and to this indictment he entered a plea of guilty, although by such exception to the statement in the indictment that he intended to use the weapon to kill in the event he was resisted. Attorney Watson made a plea for leniency because of the boy's youth and the fact that he came from a prominent family. District Attorney Nunnally also stated the facts of the case to the court and stated that he could not recommend leniency, but that if Weekly proved himself repentant, after being confined in the penitentiary that the state would be inclined to grant him a parole at such time as he was able to prove the sincerity of his desire to go straight.

TIMBER SALE HAS BEEN COMPLETED

Biggest Sale of Douglas Fir Ever Held by Forest Service—Price Is Arranged

GOOD PRICE BROUGHT

Douglas County Will Get a Small Portion of Proceeds to Be Applied on Roads and School Funds

The sale of 685,000,000 board feet of timber on the Cascade National Forest in Oregon has just been completed according to an announcement made by the Portland offices of the Forest Service, U. S. Department of Agriculture. This is the largest body of Douglas fir timber ever sold by the Forest Service, the second largest being the Salk Unit sale of 235,000,000 board feet of Douglas fir made about a year ago, from the Snoqualmie National Forest in Washington. This Cascade sale of 685,000,000 board feet of yellow pine from the Malheur National Forest in eastern Oregon.

A corporation represented by George H. Kelly of Portland, Oregon, was the successful bidder for the Cascade Forest timber at an average price of \$2.35 per thousand feet for the Douglas fir. The total value of the timber is placed at \$1,500,000. It will be cut at the rate of 50 million board feet per year, thus increasing the receipts of the government by about \$100,000 per annum. Prices are subject to revision in 1928 and after three-year periods thereafter. Fifteen years is allowed for removal. The body of timber sold comprises 15,700 acres in the watershed of the North Fork of the Willamette river a short distance from Oak Ridge, the present terminus of the Southern Pacific branch line, 43 miles from Eugene, Oregon. The average stand per acre is estimated at 14,000 feet. The usual method of clear cutting and brush disposal will be followed. Leaving seed trees and giving the area careful protection from fires after the brush is burned has been found a satisfactory method in establishing stands of young growth in this type of forest. This sale is the first large operation to be started on the Cascade National Forest, which contains over 25,000 million board feet of mature timber. From the North Fork of the Willamette river alone 50 million feet can be cut annually on a permanent basis according to the management plans for this forest.

The per cent of the proceeds from this sale will amount to \$25,000 annually, estimated at 14,000 feet. The usual method of clear cutting and brush disposal will be followed.
