

Ford Weekly Purchase Plan Makes It Easier to Buy

Let the Whole Family Participate

\$5.00 Enrolls You

For as little as \$5.00 you can start toward the ownership of a Ford Car under the terms of the Ford Weekly Purchase Plan. This enables you to become a Ford Owner out of your weekly earnings.

Your money is deposited in the bank and draws interest. What easier way could there be? The whole family can participate.

You'll be surprised how quickly the car will be yours.

Come in! Get full particulars!

DODGE MEN MEET TO DISCUSS PLANS

A material increase in the production of Dodge Brothers cars over the number manufactured this year will take place at the factory at Detroit in 1924. It is impossible for the factory to supply the demand with the present facilities. In view of this incapacity for greater production, the construction of new buildings is under way and a general enlargement of the different departments has been undertaken, according to J. O. Newland & Son, local dealers, who attended the meeting of Dodge Brothers dealers in Seattle.

"Every dealer in the northwest was present at the meeting," said J. O. Newland. "To hear the message of J. H. Gordon, director of distribution at the factory. Mr. Gordon said that from the start of the new year the factory would make every effort to supply every car the dealers needed to meet the public demand. Up to the present time, it has been necessary for a dealer to bank up a large number of car orders in order to obtain his share of cars from the factory."

"With the increased production of cars, the dealer organization is to be made stronger throughout the United States, according to Mr. Gordon. Dodge Brothers will enable the dealers to meet every need of the public in the way of varied types of cars supplied with the standard power plant. The Graham Brothers truck with the Dodge Brothers power plant will take care of haulage needs."

"Mr. Gordon left Seattle immediately after delivering his message, for San Francisco where he will meet the dealers in that district. This is the first time Mr. Gordon has visited the west."

"These meetings of the northwest dealers at Seattle have brought them into close acquaintance with each other and have been the means of finding the best ways to overcome the local problems arising in the handling of their product," concluded Mr. Newland.

DODGING THE DITCHES

When passing other cars on a narrow road at night one generally allows as much room as possible without running into the ditch. Due to the inability to clearly see the ditch, however, a perpetual nuisance is presented. Of course, a spotlight, trained to the ground toward the right-hand side and a little distance ahead will eliminate many of the dangers. A small mirror fastened to a rod and attached to the right

Play a Safe Game

Have us look your car over before you start on that Sunday trip. Perhaps the motor is not acting just right, or the brakes or steering gear need attention. Don't run any risk of injury to any of the family or an accident to the car. We are prepared to handle your work quickly.

headlight bracket will act as a spotlight and will reflect some of the light rays toward the ditch. The mirror should be slightly tilted downward so that the light is directed toward the ground.—Automobile Digest.

PREVENTING SPARK PLUGS FROM FOULING

Oil pumping engines foul spark plugs rapidly and when these are provided with pipe threads, they can be elevated by using a pipe ell, so that they will be located above the combustion chamber and out of the oil.—Automobile Digest.

COLORED MINSTRELS ARE BEST

The modern minstrel evolved from the colored man. The negro if he can be restrained from becoming self-conscious makes the best minstrel. Any person is sure of a good laugh if they can be put around a group of negroes thirty minutes without the latter knowing they are near because then the colored man is perfectly natural.

There have been many colored minstrel shows which were unsatisfactory in their entertainment because the colored performers were self-conscious and did not act natural. The Famous Georgia Minstrels have always been fortunate in having as a manager one who is familiar with the peculiarities of the negro and knew just how to get the performers to exhibit that peculiar humor so well known among the Southern darkies. Mr. Arthur Hockwald, the present company manager, is a native of the south and has assembled a company of performers that are not posers, but real entertainers.

They will be at the Antlers theatre Monday July 30.

DAILY WEATHER REPORT

U. S. Weather Bureau, local office, Roseburg, Ore., 24 hours ending 5 a. m.
Precipitation in ins. and Hundredths
Highest temperature yesterday... 77
Lowest temperature last night... 50
Precipitation, last 24 hours... 0

DODGE BROTHERS TOURING CAR

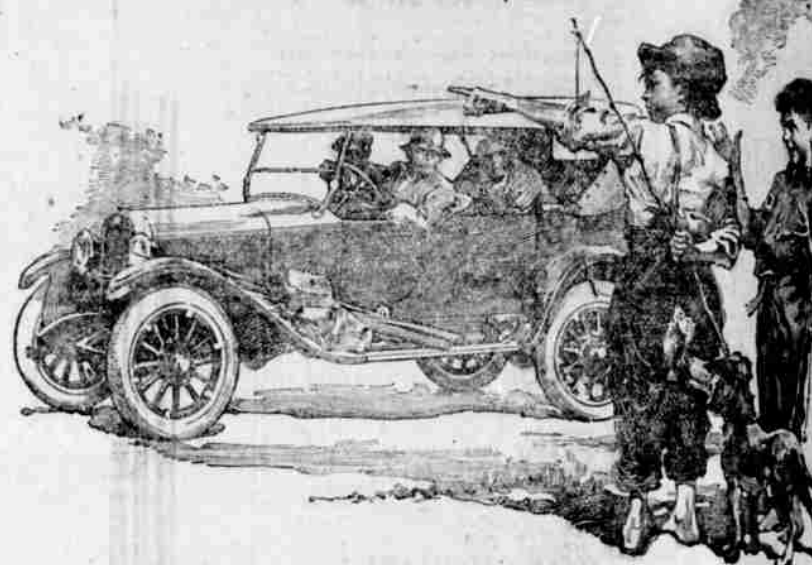

In the cool of a Summer morning, it is gratifying to take your seat at the wheel, conscious that the Touring Car will do your bidding faithfully the long day through.

It is that time-tried dependability—so vital to the pleasure and economy of motoring—which, more than any single factor, has endeared Dodge Brothers Touring Car to so many hundreds of thousands of owners.

One-eighth of the total weight of the car consists of chrome vanadium steel. Many more pieces of alloy steel are used in vital parts than normal wear requires.

INSPECTION OF THE UNIVERSAL JOINT

Systematic inspection should be made of the universal joint at regular intervals, and if the housing is distorted or loose, or the shaft out of alignment, grease plugs or bolts loose or missing, lubricant packing worn, yokes or spline shaft damaged, or any other deviation from its normal condition, then the same should be corrected at once. This unit is a highly perfected piece of mechanism, and if given proper attention, will render efficient service, even if it does operate under adverse conditions.

In the fabric type, lubrication is

not required, the only attention necessary being to see that the bolts attaching the discs to the spiders are kept tight. After a few hundred miles of service, it is advisable to go over the bolts, removing the cotter pins and pulling up on each nut. If there is the slightest sign of looseness, generally no further attention is required, but it is well to examine the bolts every five thousand miles to see that they are still tight. If, during the inspection, discs are discovered which are chattered, split, worn or stretched excessively they should be replaced.—Automobile Digest.

Looks Superior

THE custom-built appearance and sturdiness of C-T-C tires are too outstanding to fail to arouse your respect and admiration.

And every inch of these great tires will justify your confidence by unrivaled performance, for never has a tire been offered which is so uniformly powerful and satisfactory.

C-T-C's are hand-built under improved processes and of the best rubbers, long staple combed cotton and other high-quality materials procurable. That is why they will stand up under 30% lower inflation than so long insisted upon for ordinary cord tires.
