

A Way to Save Money

Use Zerolene—a better oil even if it does cost less. Zerolene costs less than many other oils of inferior lubricating quality because of our excellent facilities for producing and distributing it in very large quantities to users on the Pacific Coast. We do not have to pay long-haul transportation and high merchandising costs to make it available. All that you pay for Zerolene goes to buy high quality only.

Zerolene will reduce your carbon troubles and give you more mileage from your gasoline. It will reduce your upkeep cost, add years to the life of your car and give you greater satisfaction in driving.

Insist on Zerolene—even if it does cost less.

Protect your house from the weather

It is the effect of rain, wind and sun on the unpainted parts of a house that "weathers" it—that makes it age and decay. But when a house is well painted, the tough, elastic "film" of paint shields the surface like a rubber coat protects a man.

All Fuller house paints and stains, Pure Prepared Paint, Phoenix Pure Paint, Pioneer Shingle Stain; and Concrete for stucco, brick and concrete surfaces, have high protective properties as well as ornamental value. They are manufactured from formulas that are the result of 74 years paint-making experience. Fuller paint products give long, positive protection.

Get in touch with a master painter before the weather causes your house to show signs of decay. Or write to our Service Department for advice and a copy of the free "Home Service" booklet. Whatever your painting need, W. P. Fuller & Co. makes a paint for the purpose.

ADVICE TO THE LOVELORN

by **MRS. ELLSBURY**
(Address all communications to Mrs. Ellsbury, care of News-Review.)

Dear Mrs. Ellsbury: I have a gray hair of Oxford, and was wondering how late I could wear them this fall. Will light colored shoes be worn this winter? The gray oxford shoes, well with my fall coat. Answer the Advice to Lovelorn column.

ANXIOUS: The gray oxford may worn anytime during the winter if the weather permits. Light colored shoes should never be worn in rain. They will always be a certain amount of gray worn in the winter, a great deal of brown and black, and advance fall hints point to a very dark blue and green for shoes this winter.

Dear Mrs. Ellsbury: I want to ask for help in a problem that is vexing me. My husband and I have separated recently, and we are both living alone. We have many friends, and it seems strange to them. I hate to talk about it to anyone, and it does not seem to me that it is necessary to tell my private affairs out for my friends. What explanation can I give them? What can I say when they mention it?

EMBARRASSED: It is not necessary for you to give any explanation at all. You can tell your closest friends that you and your husbands have separated, and they will not expect any explanation. That is a private affair between your husband and yourself. People will know soon enough that you have separated, and no other explanations will be necessary.

WILL PRESERVE VANISHING ELK

VICTORIA, B. C., Sept. 20.—Preservation of elk, fast disappearing on Vancouver Island, through the establishment of a reservation forty square miles in extent north of Cowichan Lake has been undertaken by the British Columbia game board, it was announced here recently.

Improvements now being made in the district will afford real protection to this rare species of big game, according to an announcement of the board.

"There are about 300 head of elk in the vicinity of Cowichan Lake," said M. B. Jackson, chairman of the game board, "and there is another smaller herd further north. The Cowichan Lake herds wander over a vast area of land near the headwaters of the Nanaimo and nearby rivers, but spend most of the year close to the lake. There are many clearings in the dense forest where the ground has been stamped down by the herd as hard as pavement."

The Vancouver Island elk are said to comprise one of the few herds still in existence in their wild state in North America. Years ago they roamed Western Canada in vast numbers but with the movement of population westward and the settlement of lands they have decreased in numbers until they are now threatened with extinction. Under the protection now afforded them by the establishment of the reservation, this herd, it is expected will show rapid increase.

COOKED FOOD SALE

The ladies of St. Joseph's church will hold a cooked food sale at the Roseburg Grocery, Saturday, Sept. 22.

PACIFIC LOSES FOUR GRID MEN

FOREST GROVE, Ore., Sept. 20.—Four of last year's football team of the Pacific University will be lost to the team this year, but the outlook for a winning combination is very encouraging according to L. J. Frank, who will begin his third year as football coach of Pacific University. Pacific was admitted to the Northwest Conference last December owing to her good record the past two years.

Ten lettermen reported for practice on September 15, in addition to the freshmen who expect to enter Pacific this fall. Pacific's backfield should be very strong this year with George Tucker playing his second year at this position. Tucker weighs 190 pounds and was rated among the best fullbacks in the Northwest last fall. Adams will be back at his old position at halfback, which will make his third year at this position. Jesse who played halfback last year and the fastest man on the squad will be shifted to quarter back left vacant by Hoar's graduation.

Emerson who made his letter in the backfield will be placed at the other half with Adams. Watrous who played in some of the games last year at quarter should make a strong bid for this place. The backfield should average 175 pounds. Three linemen will be absent this year but with six old linemen on hand, a foundation for a strong line looks favorable. Pacific's line should average 150 pounds from end to end.

Pacific won the college championship of the northwest for the past two years and hopes to make it three straight. In addition she will play five northwest conference games with Oregon Aggies, Washington state, Oregon University, Willamette University, and the University of Montana.

Administrator.
Frank O. Mitchell,
Attorney.

HELP FOR GIRLS WHO WORK

Mrs. Lodic Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Tyrone, Pa.—"A friend told my husband how Lydia E. Pinkham's Vegetable Compound had helped his wife, so my husband bought me a bottle because I was so run-down, had a nervous weakness, no strength in my body and pains in my left side so bad that I could hardly do my work. Before I was married I used to work in the factory, and I had pains just the same then as I have had since I have done my housework. I would not be without a bottle in the house now. It has stopped the pains all right and I have found out that it is a wonderful body builder, as it has made me well and strong. It is going to be the 'old reliable' with me hereafter, and I am always willing to tell other women how it has helped me. You can use this letter as you wish as I can honestly say that my words are true."

Mrs. M. LODIC, R.F.D. No. 4, Box 40, Tyrone, Pa.

Letters like this lying out the merit of Lydia E. Pinkham's Vegetable Compound. They tell of the relief from such pains and ailments after taking Lydia E. Pinkham's Vegetable Compound.

Prices of all 1924 Commodities

Prices of Goodyear Tires

THOUGH always highest in quality, Goodyear Tires are never high priced, as this chart shows. See how Goodyear Tire prices for years have kept under the average price level for all commodities. Today, the best tires Goodyear ever built sell for 37% less than in 1920; 30% less than in 1914. This is a good time to buy Goodyears.

As Goodyear Service Station Dealers we sell and recommend the new Goodyear Cords with the bonded All-Weather Tread and back them up with standard Goodyear Service.
