## DAIRYMEN MEET IN WASHINGTON

Dirt Farmers, Scientists and  
Noblemen Rub Elbows at  
Session Today

MEETING IS IMPORTANT

Topics of International Sci-  
entific and Economic Import-  
ance Will Be Discussed—  
Hoover Will Speak

WASHINGTON, Oct. 2.—United  
Press.)—Dirt farmers, scientists and  
noblemen rubbed elbows here today  
as men and women from forty na-  
tions gathered for the opening session  
of the World Dairy Congress.

From Norway to South Africa, from  
China to Latvia, experts in dairying,  
men of science interested in the  
health of the race, men high in inter-  
national commerce came together to  
hear an address of welcome on behalf  
of the United States Government.

President Coolidge was scheduled to  
deliver the welcoming address. If busi-  
ness prevents him, Secretary of  
State Hughes will offer the dele-  
gates from foreign lands a hospitable  
greeting.

Sessions of the congress will keep it  
here today and tomorrow. The whole  
congress will then move to Philadel-  
phia for a day, and thence to Syra-  
cuse, N. Y., where, in twenty-three  
sessions, the real work of the gather-  
ing will be done.

Means Much to Millions.

The Washington sessions will be  
held in Memorial Continental Hall,  
where the Arms Conference met.

Speakers will emphasize the fact that  
this conference, like the disarmament  
parley, will have a definite bearing  
upon the well-being and happi-  
ness of millions of people throughout  
the world.

Topics of international scientific  
and economic importance will be dis-  
cussed at the Washington sessions.  
The larger and more important as-  
pects of the dairy industry in science,  
in public health and in international  
affairs will be covered here. Later  
200 speakers, many of them men and  
women from foreign countries, will  
go into detail, principally at the Syra-  
cuse meetings.

Following the welcoming address on  
behalf of the government today, E.  
E. Van Nurm, president of the  
World's Dairy Congress Association,  
will welcome the delegates on behalf  
of their American colleagues. Sec-  
retary of Agriculture Wallace, Sec-  
retary of Commerce Hoover, who is al-  
so president of the American Child  
Health Association, and Jules Men-  
haut, Brussels, Belgium, president of  
the International Dairy Federation,  
will be other speakers at the opening  
session.

At The White House.

Tomorrow, after a session at which  
American and foreign experts will  
speak, President Coolidge will receive  
the delegates at the White House.  
The rest of the day will be spent in  
sightseeing trips. Following the one-  
day meeting in Philadelphia, which is  
to let the delegates observe the meth-  
ods of the National Dairy Council in  
improving public health by encourag-  
ing wider use of milk and other  
dairy products, the delegates will go  
to Syracuse, where on Oct. 5 they will  
settle down to a program which will  
include exhaustive discussion of dairying  
problems and to inspection of the  
National Dairy Exposition.

## INTEREST SHOWN IN ELKS' TEAM

Considerable interest is being  
shown in the formation of a football  
team by the Elks lodge. A number  
of former gridiron performers are  
nailing cleats on their shoes and are

going out each evening for practice  
and from present indications a good  
team is to be developed. A meeting is  
to be held tomorrow night at the  
lodge rooms, when further details  
will be considered and it will be de-  
termined, whether or not the inter-  
est justifies the purchase of equip-  
ment. At the present time there are  
about eight men reporting each day  
for practice, but others are expected  
so that there will be enough for a  
full team and scrub eleven for scrim-  
mage. Several outside teams have  
already written in asking for games,  
and it is possible that some good con-  
tests will be arranged. An effort is  
being made to get the team into  
shape for a game on Armistice Day.

### BIBLE KNOWLEDGE.

Every child should have the knowl-  
edge and the example of the life of  
Christ as a background upon which to  
build a Christian character. Such  
knowledge they can get at the Christ-  
ian Bible school of this city. Meets  
every Sunday morning at 9:45 a. m.  
Next Sunday starts the new quarter's  
work. It is also Rally Day. Have the  
children there. Classes for old and  
young.

## CHURCH WILL HOLD ANNUAL MEETING

The Christian church will have its  
annual meeting on Wednesday eve-  
ning of this week. The church year  
ends with Sept., and the different aux-  
iliaries and organizations of the  
church will make their annual reports.  
The pastor's report will be one of the  
best, and all the reports will indi-  
cate one of the best years in the his-  
tory of the church. Officers will be  
elected for the ensuing year both for  
the church and the Bible school and  
the pastor will offer some things for  
the future work of the congregation.  
Following the reports and the busi-  
ness, a social time will be held. It is  
expected that there will be a large at-  
tendance. This congregation is plan-  
ning for a revival meeting in the  
month of Feb., with Evangelist John  
T. Stivers in charge, assisted by a  
good song evangelist. The pastor ex-  
pects to leave next week for Tilla-  
mook to conduct a revival. In his ab-  
sence, Prof. Roy Dunn, of Eugene,  
will occupy the pulpit.

## This New Treatment Never Fails to End Piles

Many sufferers from Piles or Hem-  
orrhoids have become despondent be-  
cause they have been led to believe  
that their case was hopeless and that  
there was nothing in the world to help  
them.

To these people we say, "Go to your  
druggist and get an original box of  
MOAVA SUPPOSITORIES." One of  
these inserted into the rectum accord-  
ing to directions will be found to give  
immediate relief. They reach the  
source of the trouble and by their  
soothing, healing, antiseptic action  
first allay the pain and soreness and  
then by direct contact with the ulcers  
and piles cause them to heal up and  
disappear forever.

It's simply wonderful how speedily  
they act. It is a relief often comes  
in two days. Even in cases that have  
steadily resisted all known treat-  
ments, marvelous results have been  
obtained.

Nathan Fullerton, The Rexall Store,  
Roseburg, Oregon, dispenses MOAVA  
SUPPOSITORIES in the original box  
or can get it for you on short notice.

**MONTAG  
COLONIAL  
PIPE AND  
PIPELESS FURNACES**

There's a right type and  
size for every home

LARGE or small homes, city homes or farm homes,  
homes already built or under construction, there is a  
MONTAG Colonial FURNACE of the right type and size  
to thoroughly heat it in the most economical way.

For MONTAG Colonial FURNACES are made in the  
West for Western fuel and Western climate. They are  
made by a concern with over 40 years experience in heat-  
ing Western homes.

The MONTAG OVAL FIREPOT burns all kinds of fuel  
with equal satisfaction. It is a real fuel saver. Takes large  
chunks of wood or coal, which means even, steady heat  
and less attention in firing. Look into the hot-blast tem-  
perature of this scientifically-designed firepot.

Ask the Montag Colonial dealer in your town to tell  
you all about these honestly-made furnaces. Ask him  
also for the illustrated folder showing all types and sizes  
of Montag Colonial Pipe and Pipeless Furnaces.

## VIEWERS ON ALLEY FILE THEIR REPORT

The viewers who were appointed by  
the city council to assess the damages  
on the Block 29 alley, made their re-  
port last night, finding that the bene-  
fits of such an alley would far ex-  
ceed the damages and that the own-  
ers of the property to be taken are  
not entitled to any money in payment  
for the land to be confiscated.

The proposed alley extends from  
Washington to Oak street, between  
and Rose and was petitioned for by  
several of the property holders of  
that block.

The viewers in their report stated  
that they made a careful investigation  
of the matter, from the various prop-  
erty owners, and that the property  
taken would be worth the following  
sums: E. L. Parrott, \$74.88; Stewart  
estate \$391.00; H. C. Stanton estate.

### LEGION MEETS TUESDAY.

Umpqua Post of the American  
Legion meets Tuesday night, Oc-  
tober 2nd at the armory. Be-  
lieve Buddy. Lotta pep.

\$209.00; Alice Moore and Lilly Moore  
\$208.50; Wilder and Agee \$125.00;  
Douglas National Bank \$729.00;  
Douglas Abstract Co. \$709.60.

In each case the viewers found that  
the benefits to be derived from having  
an alley through the block, more than  
offset the amount of damages which  
were allowed, and consequently re-  
commended to the council that there  
be no payment to the property own-  
ers.

**IT IS RUMORED  
THAT  
YOUR GAS COMPANY IS  
GOING OUT OF BUSINESS**

**FACTS  
ABOUT THE MANUFACTURED  
GAS INDUSTRY**

The gas industry is now adding new customers to  
its mains at the rate of 350,000 a year. This is as many  
persons as live in Kansas City or Seattle or Minneapolis.

Approximately 48,000,000 persons in the United  
States now use gas for lighting, heating and cooking.

Gas is now used in 7,000,000 cooking appliances,  
1,600,000 water heaters, 1,300,000 space heaters, and  
8,800,000 incandescent gas light burners.

In the last ten years the total production of manu-  
factured gas has increased one hundred per cent, while  
during the same period the consumption of gas for in-  
dustrial heating uses has increased one thousand per  
cent.
