For Beauty's Sake

Every real woman wants to be beautiful, so those who are not born so must use whatever means and artistry are at hand.

Complexions, are, of course, of primary importance. But the woman whose skin isn't in good condition, and who refuses to deny herself sweets or meats, or whatever it is that experience proves is not kind to her—that woman has disqualified herself for instruction at the very start. Drinking water might clear her complexion—glasses and glasses of water, one every time she thinks of it. But this, too takes patience in keeping it up. Exercise will work wonders, particularly if taken under a trained instructor. But some women have so little will-power, even in pursuit of their own ends, that a course of action of any kind seems impossible to them. And yet, nothing in the way of cosmetics, colors, or well chosen clothes will disguise fundamentally unhealthy skin conditions. Do, for beauty's sake, attack your problem strenuously, if strenuous methods are needed.

Little Things About the Complexion

Cold cream at night, well massaged in (a thin film in the daytime as a basis for powder) rouge of the right shade, well placed, so as not to spoil the curve of the cheek by coming too far forward or emphasize high cheek bones by a spot at the top—the right powder to blend with the natural tint of the skin—these may all be worked out individually, and are well worth the effort.

The powder question, by the way, is not only very important, but much neglected. Half the women who use white powder should substitute brunette; almost all of the remainder should declare for flesh color unless, in individual cases, it is found better to blend one's own powder, using a little of this and a little of that until the exact shade of one's own skin is attained. Except to accentuate the fashionable pallor which some women affect as a background for a Cupid's bow of brilliant lipstick, white powder has no place on the human countenance. And it is only the exceptional woman—willing to make a French poster of herself, and able to live up to the exotic if decorative effect of it—who shoul dattempt this effect of it—who should attempt this ordinary may be very good on Broadway, permissable on Fifth Avenue or Michigan Boulevard, but against the quiet background of one's local Main street, it would probably be in very bad taste.

A word more as to makeup—don't forget that your head isn't an isolated phenomenon. It exists only as a continuation of your neck. Don't whiten (or pink) your face, and leave a brown column below it.

Paris Style Hints

(International News Service.)

PARIS, Oct. 6.—Did you see that pretty little scene—on her gown? Paris designers are becoming landscape artists. New fall models, coats and frocks, have taken on the effect of mural decorations.

The idea probably began with the painted gown which became so popular last year, but flowers were the favorite motif. Now it must be a full landscape, a scene with houses and people n'everything.

Bechoff makes black velvet mantles with borders of golden ponds where cool water lilies float, a sun above and green grass all around. Gold tissue evening capes have their lower edges glorified by brilliant wool cut-outs depicting pine trees, terra cotta rocks and winding trails in purple tints.

A very small but fashionable shop in the Rue de la Paix is making a number of lovely chemisettes and blouses to wear with smart tailored costumes. They have the landscape touch across the front in borders of quaintest scenes, some in Chinese motifs and others in brilliant oriental designs.

Some of the landscapes come painted on the gown, especially with the velvets, which, by the way, promise to be the most popular winter material. Others are embroidered in light running stitch with colors to correspond to the real thing.

The superlative touch of originality comes in landscapes made in appliqued work of wool, leather or bits of anything which are cut in shapes of trees, running brooks and other things. One interesting gown in the Doeuillet collection looks like a veritable cherry orchard with appliqued trees and petals of softest rose velvet. Bechoff uses fur to make a charming winter landscape on an original coat. White ermine does very well for the snow and dull brown goes for the bare winter trees.

Famous French Recipes

Pears Bourdaloue

PARIS, Oct. 13.—It's pear time in Paris and French housewives know many delightful ways of preparing this luscious fruit for desserts.

For Pears Bourdaloue choose ripe but firm fruit and cook them whole if they are not too large in a vanilla syrup. Drain and arrange in a large baking pan upon a thick layer of almonds cooked with milk, sweetened and flavored and thickened with eggs. Powder with crushed macaroons and pour over melted butter. Brown at the moment of serving and surround with a few spoonfuls of apricot sauce.

Mutton Hash With Egg-Plant

Monday is hash day in France, as well as on the other side of the water. The thrifty French housewife uses the rest of her braised mutton or roast which she has cooked on Sunday.

Chop the meat into very fine pieces. It should be very well cooked, by the way, or the hash will not be so good. Brown in good fat with two large onions, and add a bit of chopped garlic, a glass of white wine, five spoonfuls of tomato sauce and the necessary seasoning.

Let cook slowly and during this time cut into two pieces three nice eggplants and cook them in salt water. When almost soft fry in butter until thoroughly cooked. Remove the soft part from the shell and mix with the chopped meat.

Remove this from the fire and bind with two whole eggs. Pour into a baking-dish and let brown in the oven. Serve warm with a good tomato sauce.

SHORT CUTS for the HOUSEWIFE

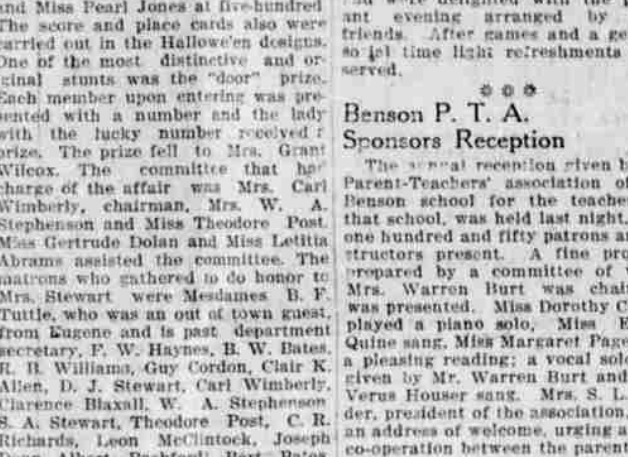
Five Kinds of Bread Made From One Batch Of Dough

From one batch of bread dough, properly prepared, the housewife can diversify her day's menu, and with very slight difference in treatment, quickly make biscuits, coffee-cake, cinnamon rolls, clover leaf biscuits, or Parker House rolls.

Recipe for Dough

1¾ lbs. (5 cups) well sifted flour (winter patent).
1 cake compressed yeast.
2 level teaspoons sugar.
1½ level teaspoons salt.
1½ cups water.
1½ level teaspoons shortening.

Method—Measure luke warm water and put into mixing bowl. Add crumbled yeast cake, sugar, salt, and mix. Add half the amount of the sifted flour. Mix with a spoon and add the shortening; mix well. Add the remainder of flour and mix thoroughly, keeping sides of bowl clean. Sprinkle board very lightly with flour. Turn dough on board and let stand several minutes. Slightly grease mixing bowl. Knead quickly and lightly until dough is smooth and elastic. Turn dough over in greased bowl until outside is covered with thin coating of shortening. Place covered bowl where dough will be at a uniformly warm temperature (80-82 degrees F.) Allow dough to double in bulk or until blisters or gas cells appear on top of dough. Punch the dough down in the center. Fold over from the four sides to center and punch. Turn over. Cover with towel. Let dough stand about 45 minutes. Punch as before. Let dough rise 15 minutes. Turn out on lightly floured board.



DINNER BISCUITS

Form dough into balls. Place close together in greased pan and let stand until light, about 25 minutes. Bake for 25 minutes in moderately hot oven (400 degrees F.).

CINNAMON ROLLS

Roll out dough 10 inches wide, one-fourth inch thick. Spread with butter, brown sugar, cinnamon and raisins. Roll dough as for jelly roll, cut in pieces one and one-half inches thick. Place cut surfaces down, in pans, the bottoms of which have been covered one-fourth inch deep with brown sugar and small pieces of butter.

Allow to rise until light, and bake for 25 minutes in moderate oven (375 degrees F.). When taken out of the oven turn upside down on waxed paper and allow to stand one minute before removing pan.

COFFEE CAKE

Weigh 12 ounces of the dough which is about one-fourth of the entire recipe. Place in round greased cake tin. Lightly grease top of dough. Let stand until light, about 30 minutes. Before placing in the oven, cover with raisins and spread with one tablespoon butter creamed with three tablespoons sugar. Bake 35 minutes in moderate oven (375 degrees F.).

PARKER HOUSE ROLLS

Form dough into long rolls; cut as you would a jelly roll, making each piece about a half an inch thick. Form each piece into ball and butter the top of each generously. Allow to stand 10 minutes. Roll out or flatten out with hand. With round handle of a wooden spoon make a deep crease in center of the dough and fold over. Place in greased pan and allow to rise until light or about 25 minutes. Bake 25 minutes in moderately hot oven (400 degrees F.).

CLOVER LEAF BISCUITS

Form the dough into small balls. Grease muffin tins. Place three balls of the dough in each muffin tin. Grease lightly tops of rolls and allow to rise until light. Bake 25 minutes in moderately hot oven (400 degrees F.).—*From Domestic Science Department Washburn-Crosby Co., Minneapolis, Minn.*
