CHINAMAN'S 3 "WIVES" ALL U. S. CITIZENS?

Circuit Court of Appeals in San Francisco Must Decide Difficult Question

POLYGAMY NOT FORBID

But United States Claims Only His One Legal Wife Can Become a United States Citizen

By S. M. HOLLAND (International News Service Staff Correspondent.) SAN FRANCISCO, Oct. 17.—The United States circuit court of appeals of San Francisco has before it the problem of determining whether the three Chinese wives of Lau Ah Leong, millionaire Hawaiian of Chinese descent, became American citizens when this country conferred its citizenship on the people of the Republic of Hawaii at the time of the annexation of the islands to the United States.

Did all three wives become American citizens? Or did only wife No. 1 become an American citizen? The local court recently received an appeal from the judgment of the district court at Honolulu permitting Ho Shee, "Wife No. 2," to return to Hawaii from a visit to China on the ground that she is an American. In the appeal the government admits it was fully cognizant that polygamy was prevalent among Chinese residents of the Hawaiian Islands at the time the islands became American territory; but, nevertheless, it is claimed that the United States never intended to let any Hawaiian citizen have more than one lawful wife.

The case is not one involving the fear that the extra wife might become a public charge, because Lau Ah Leong is said to be worth about \$5,000,000 and is fully able to take care of as many wives as he may be able to secure. The vital issue is a matter of how many of his three wives were admitted to American citizenship with him.

Wife No. 1 is named Hung Shee; No. 2 is Ho Shee, and No. 3 is Wong Shee.

Ho Shee, the second wife, is in China at the present time. If the San Francisco circuit court of appeals affirms the decision of the Honolulu court, she will be allowed to return to the Hawaiian Islands.

The appeal argument against the extra wives will be made here by United States District Attorney W. T. Carden, of Honolulu, and United States Attorney John T. Williams.

CURTIN TO HAVE NEW SCHOOLHOUSE

School district number 58 at Curtin, is arranging for the construction of a two-room school building to replace the one-room school which has become so crowded that the district found it necessary to discontinue school in the small building and transport its pupils by truck to Leona where a better structure is available.

Plans for the new school building were approved today by County School Superintendent O. C. Brown, and a special tax has been voted and the money will be applied to the construction of the new building. The schoolhouse will contain two large school rooms, constructed with special consideration of ventilation and lighting.

A large basement is to be constructed for a heating plant, and the equipment will be standard throughout. The building will cost about \$3,000.

GIRL'S TEN-YEAR ABSENCE MYSTERY

(International News Service.) NEWCASTLE, Ind., Oct. 17.—With the filing of a notice of final settlement of her estate here, the strange case of Catherine Winters is believed ended for all time—an unsolved mystery.

How, in midday, a nine-year-old school girl could disappear without the slightest trace of her ever being found, is a mystery which has puzzled residents of this locality for a decade.

Mysterious disappearances in big cities are so frequent now that they attract only passing interest, but events of similar character in smaller communities are not soon forgotten.

On a March day in 1913 Catherine was last seen. A search began within a few hours, lasted for days and finally for years. Hope upon hope of a fond parent, Dr. Winters, was shattered as various theories and supposedly bona fide clues were run down and found valueless.

The last time Catherine Winters was "found" was when a married woman living in Ohio, who could not recall circumstances of her early history clearly, came to Newcastle thinking she might be the long-lost girl. Her age and a few points tallied, but other circumstances indicated clearly that she was not Catherine Winters. That was early in the present year.

Dr. Winters spent a fortune and dispipated his health and his practice as a dentist going from state to

COMMISSION CUTS LANE CO. BUDGET

EUGENE, Oct. 17.—Over \$4000 has been lopped off Lane county 1924 taxes by the tax conservation and supervising commission, according to Herbert Walker, secretary, this morning. The cuts have been made in school districts scattered over the county. This is \$1500 more than the annual expense item of the commission, and work has just started, in that none of the big budgets have yet come up for consideration, Walker points out.

In effecting this saving, not one teacher's salary was cut and not one thing taken out of the schools, the secretary continues. Budgets were pooled where school efficiency would not be molested or harmed, he says.

(Continued from Page One.)

gained some fame nine years ago, when in a trance connected with her craft, she claims she divulged the hiding place of money, belonging to George Dedaskalous, a Greek section hand, whose body was found under a Medford ice plant, murdered. For this crime Mike Spanos was hanged at Salem, and Madame Jones dreamed the burial place of the loot, informing the authorities that it was "hidden near a screen door." Acting upon this tip, the police found \$900 buried back of Spanos' rooming house, and there was a screen door in the vicinity.

The license plate feature of the Hudson car, in which the bandits are credited with escaping, was cleared up this morning when the former owner of the auto, en route to Los Angeles, stopped at Ashland and told of the sale of the car last summer. The car was afterwards stolen, and the license carried out of Washington, contrary to the state law.
