ABILITY TO DRIVE AUTOMOBILES

It is sometimes said that any person of medium intelligence who is in good health and possession of his faculties can learn to drive an automobile...

From Portland--

R. H. Moore of Portland arrived in Roseburg last night to spend the week here with his wife, Mrs. Maude Van Buren Moore...

PRUNE PICKIN'S BY BERT G. BATES

GOOD EVENING FOLKS
The crimp in the air this a. m.
Took some of the crimp out of the Janes' macula.

DUMBELL DORA THINKS--
A fellow goes to a filling station to have a tooth filled.

Wealth may not bring true happiness but there are people who would be satisfied with a good imitation.

All Americans are entitled to life, liberty and the pursuit of currency.

"This year weather sorta peeps a feller up, don't it?" casually asked a friend.
"Byyah!" replied Cy Kology of Sandy Mush.

RAGGEDY DAN
The melancholy days have come,
The saddest of the year;
With all my wool suits on the bum
And winter almost here!

Answer to--WHY IS A CAKE EATER
The modern girl certainly has a crazy sense of humor. In fact, she just must have her little joke with her all the time.

Beards are unbecomingly, perhaps, but they are not quite so amusing as an emotional Adam's apple.

Bricklayers in Waukegan, Ill. where contractors are having a war, receive \$144 a week. And to think our folks worked and saved to send us through business college.

Evidently there were dress suits back in Bible times. The Book says "He Rent his garments."

Wanted--A young man to undertake the sale of a new patent medicine. The advertiser guarantees that it will be profitable to the undertaker.

A bill collector generally knows how many door bells are out of order.

So drive your car today that your name will not appear in the obituary column of a newspaper tomorrow.

"Won't you come into my parlor?" Said the spider to the fly.
"Parlor, nothin'--getta flivver!" Was our modern fly's reply.

Do you suppose the country is more moral now than the skirts have been lengthened?

STILL THE SAME
North--Times haven't changed so very much. The law still demands an eye for an eye and a tooth for a tooth.

West--And the real estate agents still demand a lot for a lot.

Don't tear your shirt, brother, over the burning issues of the hour, for there is a short cotton crop this year and shirt material is bound to go up.

When a woman wants to tell something real mean about another she tells her real age.

Just as the local office force was recovering from a musical epidemic of Aggravating Pappas and that fruity one about the bananas, in comes one of 'em warbling, "I love me, I'm crazy about myself!"

WHERE THEY EXCEL
We may have our faults here in the hick country, but no one would mortgag his home to pay for a car and then mortgage the car to pay the interest on the mortgage on his home.

Roseburg Chamber Asked to Help in Placing Arguments for Inner Harbor Improvements Before Congress

REEDSPORT, Oct. 24.--The annual meeting of the Reedport Chamber of Commerce was held in the Odd Fellows building last Friday and a large gathering was had.

The most important matter coming before the chamber was the matter of the hearing coming before the U. S. war department in the matter of the inner harbor improvements for the Umpqua. A notice was sent to all the prominent industries here advising them as well as the Port of Umpqua that the U. S. war department could not see their way clear to recommending inner harbor improvements at this time.

In the past the Chamber of Commerce was holding their regular meetings in the evenings and it was unanimously decided that all meetings would be held at luncheon time, when the businessmen could meet much better and decide the best policies for this district.

At the next regular meeting which will be Friday, November 2, the matter of the special road district will be taken up and committees appointed to see that all voters are notified why the special district is being dedicated.

The Parent Teachers circle of the Roseburg High School will hold a cooked food sale, and handkerchief and apron bazaar Saturday, Nov. 24.

OREGON MOTHERS HAVE HEALTHY CHILDREN

Salem, Ore.--"During my first expectant period I was weak, nervous and all run-down. I had severe headaches, suffered with nausea, or sick stomach. I was so weak I could not do my work, but after taking Dr. Pierce's Favorite Prescription my health gradually improved, I became strong and felt fine. I had comparatively no suffering and my baby was very strong and healthy."

"When my daughter was growing into womanhood she caught cold. I gave her the 'Favorite Prescription' and it built her up in good health and completely regulated her condition so that she had no trouble, but grew naturally into womanhood."--Mrs. Mary Diefendorf, 825 S. 22nd St.

Get the Prescription today from your druggist--liquid or tablets, or send 10c to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for trial pkg. Write for free medical advice.

How a Single Industry Spreads Prosperity

A most significant fact about an industry is the large number of people who benefit from it.

Take the cement industry, as an example:

The mills used 9,000,000 tons of coal last year. This meant 9,000 coal miners steadily employed--their families, numbering not less than 25,000, maintained--and along with them tradesmen and other people enough to supply the needs of a town of over 50,000.

That is, of course, saying nothing of the business created for coal operators and transportation lines.

Sacks are not so large an item in the cement industry as coal, yet 50,000,000 new sacks, representing 50,000 bales of cotton, had to be bought last year for replacements alone. Back of this were cotton planters, plantation workers, mill owners, mill operatives and so on--thousands altogether.

And consider these other requirements of the industry last year:

- 3,700,000 barrels of fuel oil
3,400,000,000 cubic feet of gas
15,000,000 pounds of explosives
32,000,000 pounds of greases and oils
1,700,000 linear feet of belting
4,500,000 firebrick for relining kilns
7,000,000 pounds of paper for bags
600,000 tons of gypsum

In addition the industry bought quantities of heavy grinding and burning machinery, locomotives, cars, rails, electrical and other necessary equipment.

In this way a single industry spreads prosperity to many others.
