****************** LETTERS FROM THE PEOPLE

Editor News-Review: So much mininformation is being circulated by those opposed to the pending Bill for Income Tax that i

pending Bill for income Tax that is cannot refrain from directing the attention of your readers to a few outstanding facts regarding the Bill.

First, I want to say that it isn't at all probable that the Bill is perfect.

No such Bill could be framed as it must be by erring humanity. Experience, however, has taught that the Income. ie Tax is the most economical way russing revenue to support a gov-ment that the ingenuity of man yet devised. Instead of the manery and means provided for a ting the tax being most expensive has been frequently asserted, the as has been requestry asserted, inexperience of governments using the
Income Tax has proven it to be the
least expensive. So well has this
been established that the great State
of New York raises all of its State
revenues by the Income Tax, leaving
the property tax to the Counties and
other local communities.

the property tax to the Counties and other local communities.

Second, with an unlimited supply a money, apparently, those opposing the tax are circulating the mis-statement that the tax wiff be burdensome to the working man. Much has been seabout the working man earns \$20.00 a week having to pay a tax. Is a working man earns \$20.00 a week and works every week in the year, and has no expenses chargeable to his work, and has no dependent, he would pay a tax upon the sum of \$40.00. These mis-statements that are circulated are intended to leave the impression that such a working man would pay a tax on \$10.00.00, the amount he would earn in the fifty-two amount he would earn in the fifty-two weeks. They mention nothing about the \$1,000.00 exemption. So the fact is that a working man earning \$20.00 a week would pay a tax of one cent on \$40.00 amounting to the great

Does not a working man, or any

Does not a working man, or any other person who lives under a government providing the conditions and the means whereby he may carn \$20.00 a week by the labor of his lands, owe at least 40e a year to the support of such a government?

If the working man has a dependent such as a mother or father, or any other member of his family, dependent such as a mother or father, or any other member of his family, dependent such as a mother or father, or any other member of his family, dependent upon him, he has an exemption of \$400.00 a year, and would have to earn more than \$1400.00 a year before he would have to earn more than \$2000.00 a year, so that he was married and had one child he would have to pay any tax. If he was married and had one child he would have to pay any tax. If he was married and had one child he would have to pay any tax. If he was married and had one child he would have to pay any tax. If he was married and had one child he would have to pay any tax. If he was married and had one child he would have to earn more than \$2400.00 before paying a tax, and if he had two children he must than \$2400.00 before paying a tax and if he had two children he must earn \$250.00 and if he has three chil dren he must earn \$3200.00 before pay ing a tax. These figures demonstrate that the working man, or the small salaried man, has no reason to com-piain of the tax to which this Income Tax Bill subjects him.

It is reiterated that the fill would drive capital from the State. That is the mere gratuitous statement of the opponent of the Bill. It is not supported by either facts or logic. To till does not by control. ported by either facts or Bill does not tax capital. Why then should capital be afraid of it?

It is reiterated by the Bill that cor-porations and banks are exempt. Like these other statements that is not true. The people who make that statement are relying upon the prejudices of the people to be influenced by Corporations, including banks, would pay a tax under the same conditions that an individual pays a tax, substantially. The foundation for the mis-statements circulated about the corporations is that corporations are allowed to deduct from their income the amount paid to their stockholders in dividends. The stockholders however are recognized to the area of the stockholders. ver, are required to pay a tax on the lividends received from the corporations. Consequently the earnings of the corporation are taxed to the stock-holders on the same income would be able faxation,

The opposition to the Income Tax seems to have an unlimited suppply of money. The great number of property tax payers are not organized and mess of the situation to take freet, apparently, in the Bill. We these people who are circulati minutatements about the fill money so freely to defeat it not because the man with the rvested money, or the man who enping large profits * without pay hy property tax, is afraid that have to contribute something III If have to contribute acmething like share to the support of our sow timent? Why shouldn't they? The trace farmer in this State, as wen by statistics gathered by the ricultural College of the State as not receive on an average \$1000 income for all of his labor and in stream put together. Let'll it time it the trace about the distributed by distributed.

net income for all of his labor and investment put together. Let'l it into that the taxes should be distributes so as to refleve the owner of perproperty, whether on the farm or it the city and the man who reaps the benefits of our government by his recture and safe investigants contribute something towards maintaining the reduces taxes on property The Bitt the expenses of the government?

But the opponents say, that will not reclude that all now and maintaining the revenue to be raised by the freened Tax to be deducted from the searcests amount of the property tax will be restricted to just the extention that the Tax Commissioners of the State estimate the Income Tax to be State estimate the Income Tax to be O. P. COSHOW.

This is a Studebaker year.

Their crowd of rooters shows some real organized practice in boosting their team along and the band puts additional spirit into the players. A crowd of hearly 200 rooters are expected by the time the game opens. The two teams are as fit as they have been at any time during the season and are anticipating some op-

ROSE SCHOOL TEAM

In a one-sided game of tootball yesterday evening at Laurelwood field, the Renson school football team demonstrated superiority over the Rose school aggregation by win-ning the contest by a score of 37 to 9. The Benson school team was slightly heavier and displayed a much more thorough knowledge o the game. The Rose school player, were entirely unable to hold the North-siders and the Benson boys went through the opposing line for six touchdowns. Intense interest the game. was displayed by the students of both schools and there was a great deal o rexcited comment from the side lines. 1991 Burr served as ref-erce. Coach Larson, umpire, Earl Burr, head Buesman, and H. W. Gus-tin, timekeeper.
