

School Should Be Made Compulsory, Say Youthful Singers

"All children ought to have the same chances," put in Tom of the Irish blue eyes and coal black hair. "It was fearfully stodgy shut up in a school room trying to learn that Virginia was bounded on the south by Tennessee."

"But we have passed over the spot where Tennessee ends and Virginia begins, and so, of course, we remember. And we saw the rivers and their sources and their ends," Stanley interrupted enthusiastically.

"And we looked at coal mines in Pennsylvania and gold ones in California, and saw where the Battle of Bunker Hill was fought," continued Tom.

"It is the only way to go to school without being bored," ended Stanley decisively.

"We had a special interest in knowing all about Virginia, as the song we are making our biggest hit with is called 'Stealing to Virginia.'"
